POST GRADUATE DEPARTMENT OF COMMERCE (PG AND UG)

DATE: 14th September 2020.

SPEAKER: Mr. Sachin Dedhia, Cyber Security Expert (CISA, CEH, CEI, ISO 27001 LA)

TOPIC: Social Media Security

TIME: 3:45 PM to 5:10 PM

PLACE: This workshop was conducted on Virtual Zoom Platform

PARTICIPANTS: 81 students of UG and PG Commerce Department Participated

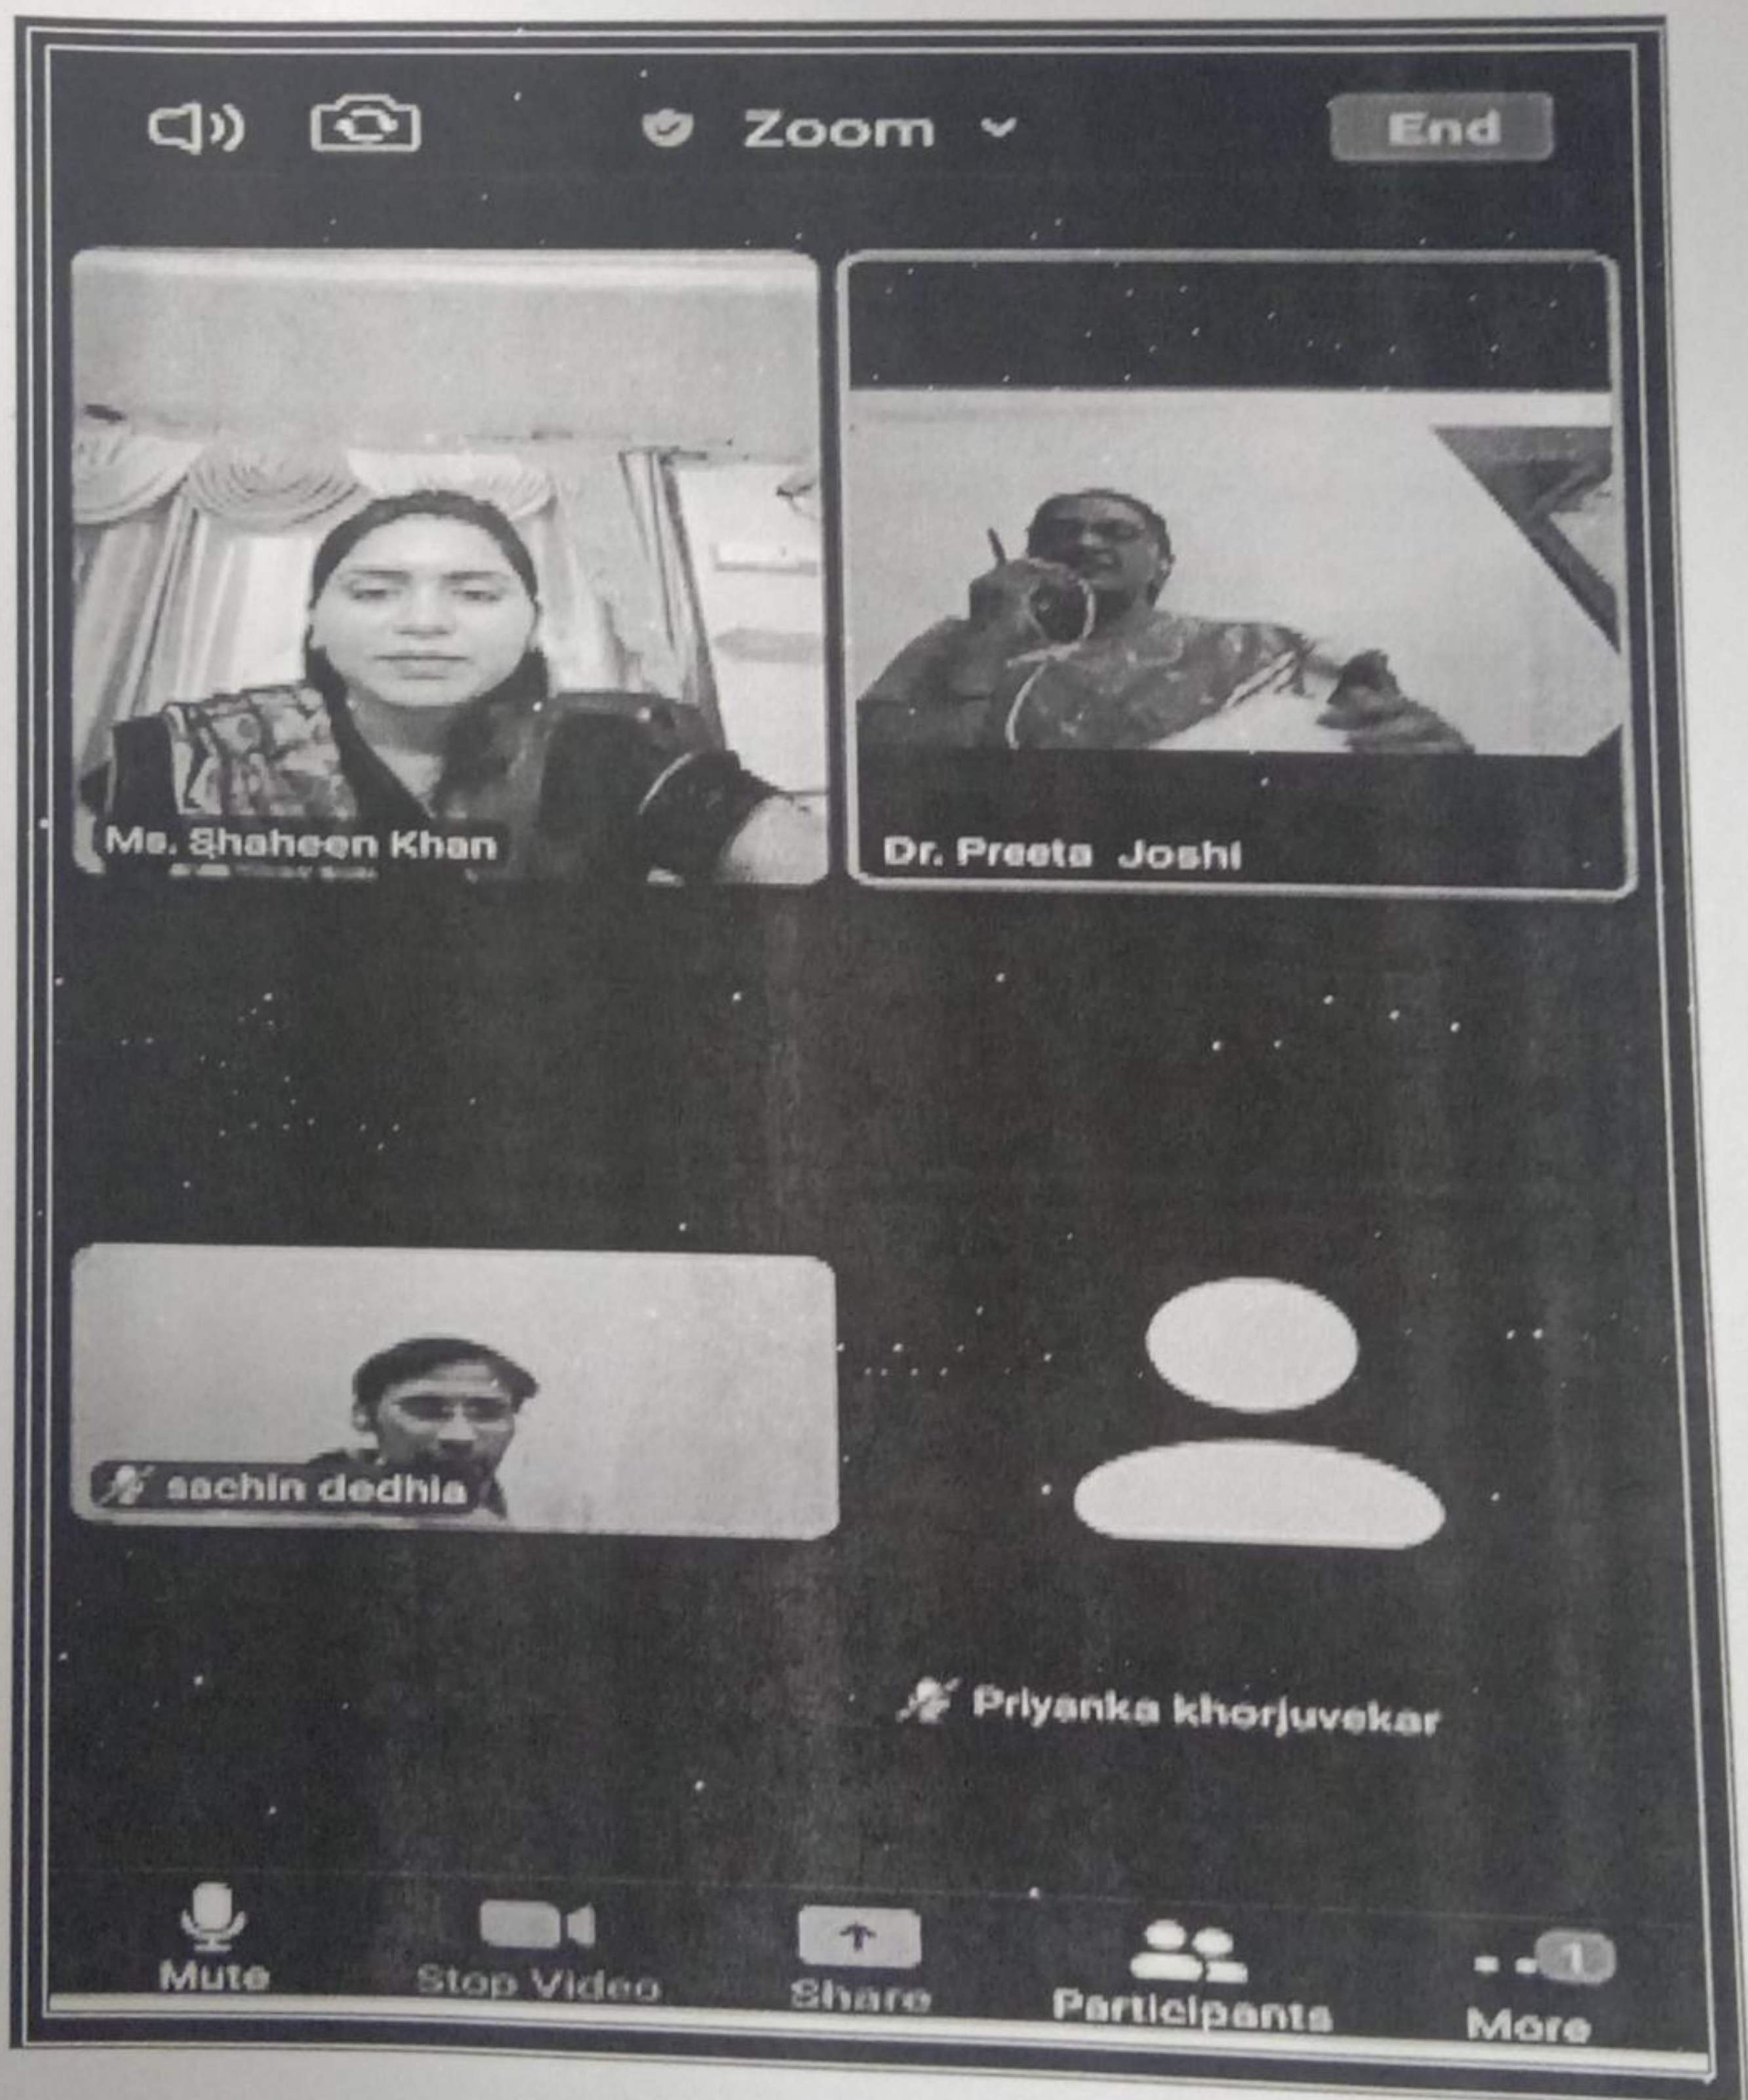

Mr. Sachin Dedhia, who was the speaker for the webinar talked about cyber security and steps can be taken as a user to protect mobile phones and social media accounts from hackers. He briefly explained how to protect Facebook account as it is known to be frequented by hackers. He also gave detailed knowledge on how can individual protect their handheld phones and devices from such attacks and avoid any unwanted viruses by installing security software and applications for computers and phones.

He advised two phone applications which is Flexispy and Netcut that can protect devices from hacker attacks. Mr. Dedhia explained how hackers can use a very simple but effective method of hacking, which is sending an unsuspected link to a user masking it as a advertisement attracting user to click on the link, which can then be used to hack the device from which the link was opened and use all personal data like bank account details and saved password.

Mr. Sachin Dedhia encouraged students to install a good antivirus to protect their phones from viruses and hackers for which he highly recommended software called Quick Heal which is available for all media and telecommunication devices.

It was also brought to all of everyone's attention that using fingerprint lock on mobile phones, which is used widely, can also be used by hackers to gain access to Adhaar database as Adhaar is linked to our biometric and can result in the identity theft. Hence it was advised by him not keep finger lock feature in the mobile phones.

He advised that in case anyone becomes a victim of such hacker attacks, individual can report any type of cybercrime on the cybercrime websites. For that, individuals should make sure to gather proof of such incident which can be in the form or a picture, messages or videos so that it can be shown to the investigating team.
