MANIBEN NANAVATI WOMEN'S COLLEGE

Department of BAFI

2018-19

Department of BAFI conducted an intra-class debate competition on Sabarimala Case with a view of creating awareness among students on a burning issue like gender inequality. 6 students from the department participated in the competition and the remaining students attended the competition as an audience - 13th January, 2019.

(Environment) Visit to Vivek Agro Tourism on 28th November 2018, No. of Students – 37

2022-23

A Debate Competition on Women Empowerment through Entrepreneurship between FYBAF & SYBAFI Students on 18th December 2022. And 24 students are Participated.

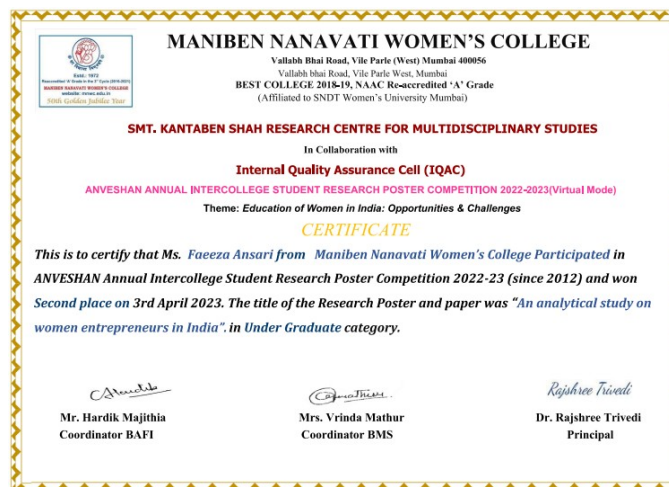

ANVESHAN Certificate

First Prize

SYBAFI Students participated in National Level Research competition “ANVESHAN”, 5 Students – Afreen Khan, Tanuja Yadav, Priti Vaviya, Krishna Sharma & Hafsah Shaikh presented their posters on “three E’s of women : Education , Equality And Empowerment” and Won 1st Price.

Second Prize

TYBAFI Students participated in National Level Research competition “ANVESHAN”, 3 Students – Faeza Ansari, Priti Kamat, Shreya Nair presented their posters on “An analytical study on women entrepreneurs in India” and Won 2nd Price.

B.A. PSYCHOLOGY 2018-2023

1.3 If your department has organised any activity related to ethics, Gender, Human values, Environment & Sustainability.

- The course provides training on Ethics for counselors in the TYBA through the paper on counselling in Sem V & Sem VI
- Climate change is addressed through Social Psychology through the understanding of group behaviour in SYBA in Sem IV
- Role of Aggression and personal growth is studied through the projects on aggression in SYBA in semester IV every year.
- Assignments regarding ageing and its challenges are communicated by giving an assignment that required FYBA students to interview grandparents and then understand their lives through the lens of failing cognitive and biological functions in semester II
- Problems related to substance abuse understood through the Abnormal Psychology paper
- In 2019-20, TYBA class created a cell for the helping students struggling with LGBTQ+ concerns. The aim was to provide a judgment free environment for students to discuss their queries, doubts and concerns and to offer support as allies to the community and to act as mental health ambassadors to fellow students.

Inauguration of Satrangi on 9th March 2019

Every year, students of the second year visit at least 4 institutions as a way to sensitize them to the hardships of the underprivileged and the marginalized. They are also encouraged to volunteer their time with these special populations. They include:

1. Red Boys Foundation (an NGO working for education of slum children)
2. Arpan Café – a café run by individuals on the Autism Spectrum
3. Home for the Aged – a senior citizens welfare home
4. Smt. Kumudben Dwarkadas Vora Industrial Home for the Blind

CHOCOLATE GANPATI MAKING DEMONSTRATION

DATE: 29th July, 2019

Venue: Food Laboratory, 1.1

Target Group: S.Y.B.A. (ENG & GUJ) Students

No. of Students: 37

Resource Person: Ms Rintu Rathode

Objectives: 1. To show students ways of making chocolate Ganpati.

2. To expose them to innovative methods for doing.

Methodology: Students actively participated in the chocolate Ganpati making. The expert for the day was very enthusiastic and took keen interest in explaining and showing the detailing of every part . The expert demonstrated how to temper the chocolate, mould it and with hand prepare the idol. Along with the expert the students also were guided step by step to make the chocolate Ganpati.

Outcome: This workshop was highly appreciated by the students.

MANIBEN NANAVATI WOMEN'S COLLEGE

DEPT OF COMMERCE

ACTIVITY REPORT FORMAT

YEAR: 2018-19

NAME OF THE ACTIVITY: Guest lecture - Sexual Harrassment
At work place & at public places

DD/MM/YY: 30-1-19

TARGET GROUP: F.Y, S.Y, T.Y, B.com

NAME OF FACULTY: Dr. Sunita Sharma

NO OF STUDENTS: 84

SPEAKER/RESOURCE PERSON (WITH DESIGNATION):

Ms. Lara Jesani - Advocate

VENUE: MINWC

TIME: 10.30

OBJECTIVES: To analyze the reasons for sexual Harrassment & how to tackle it.

METHODOLOGY: Experiential Learning

Along with a lecture, Roleplay was adopted to deal with the problems of sexual Harrassment.

OVERVIEW: The students understood the ways to deal with sexual harrassment at workplace & public places.

OUTCOME: The students gained confidence & cultivating a positive feeling to deal with this problem

ANY OTHER REMARKS:

Report : Sexual Harassment at work place and at public places.

Date: 30th January 2019

Speaker: Advocate Ms. Lara Jesani

Students: F.Y, S.Y and T.Y. B.COM = 84 attended

Our society is a patriarchal society. Women are treated like objects and there is a lot of gender discrimination. Ms Lara talked about different types of eve teasing like physical eve teasing, verbal remarks, psychological harassment, etc. Different provisions of Indian Penal Code 1860- Sec 209, 354 and 509 were elaborated. The Nirbhay Case of 2012 was discussed. She elaborated on VISHAKHA GUIDELINES. This was followed by a discussion on ONLINE ABUSE OF WOMEN – Safeguards and Online Reporting Mechanism.

Lara Jesani, Advocate Bombay High Court, formerly a Litigation Partner in M. Mulla Associates ~~but~~ until September 2017, and since practicing independently. Takes up cases of human rights violation, in particular constitutional, environmental, development and anti corruption matters, death penalty / criminal cases and in defence of HRDs.

MANIBEN NANAVATI WOMEN'S COLLEGE

DEPT OF COMMERCE

ACTIVITY REPORT FORMAT

YEAR: 2018-19

NAME OF THE ACTIVITY: Guest Lecture — Non-Violence, Harmony & Youth.

DD/MM/YY: 25-01-19

TARGET GROUP: F-4, S-4, T-4, B.Com

NAME OF FACULTY: Dr. Sunita Sharma

NO OF STUDENTS: 195

SPEAKER/RESOURCE PERSON (WITH DESIGNATION):

Ms. Shabnam Hashmi — Social Activist

VENUE: MNWC(4-2)

TIME: 10.30

OBJECTIVES:

To make the students aware about the importance of Non-Violence & Harmony amongst the youth of today.

METHODOLOGY:

A lecture was conducted focussing on the concept of Non-Violence adopted by Gandhiji. EXPERIENTIAL LEARNING

OVERVIEW: The lecture enabled the students to imbibe Gandhian values & Principles.

OUTCOME: The students realized the usefulness of Non-Violence & Harmony for a peaceful life.

ANY OTHER REMARKS:

Report on Non Violence, Harmony and the Youth

Date: 25th January 2019 at 10:30 am. Venue: seminar hall

Participants: B.com I, II & III 195 students

Speakers: social Activisit: Shabnam Hasmi,

Advocate: Leena Dabir.

Violence and disharmony is very common among the youth today. Difference of opinion and disagreements are a normal part of humanity what is important is how we deal with it, in a constructive way.

Both the speaker spoke on the path of Ahimsa followed by great leaders like Gandhiji, B.R.Ambedkar, Savitribai Phule.

Article 19 (1) (a) of the constitution of India provides for freedom of speech and expression, which these days have been totally abused by the people of our country including our youth.

We can win battles by conversation. Non violence is a way of life for courageous people, Non violence seeks to defeat injustice and with help of Non violence we can win friendship and understanding.

Both the speakers said that we have to build country which has no discrimination.

The programme ended with a session of questions of students answered by the speakers.

DEPARTMENT OF COMMERCE

ACTIVITY REPORT

YEAR: 2019-20

NAME OF THE ACTIVITY: Industrial Visit to Aakar (Yashraj) Dry Waste Centre

DD/MM/YY: 8th December, 2019.

TARGET GROUP: T.Y. BCOM

NAME OF FACULTY: Prof. Sunita Sharma

NO OF STUDENTS: 18 Students

VENUE: Malad, Mumbai.

TIME:

Details: Department of Commerce organized a visit to Aakar (Yashraj) Dry Waste Centre, where the students were made aware of how they provide end-to-end waste management services based on the principles of circular economy. They also gave an idea to the students of how they handle waste sustainably and responsibly for MNCs, tech parks, residential communities and other bulk generating organizations and institutions. Students were showed a demo of the waste management process that takes place at their organization.

Year:2022

EVS PROJECT

Topic: The waste management.

Name of students : Krinjal Surti &
Avantika Gupta.

Venue: vasai-virar mahanagar palika
dumping yard.

Date: 25/05/22

26/05/22

27/05/22.

Dumping ground :

A landfill site, also known as a tip, dump, rubbish dump, garbage dump, or dumping ground, is a site for the disposal of waste materials. Landfill is the oldest and most common form of waste disposal, although the systematic burial of the waste with daily, intermediate and final covers only began in the 1940s.

Some landfill sites are used for waste management purposes, such as temporary storage, consolidation and transfer, or for various stages of processing waste material, such as sorting, treatment, or recycling.

To gain more knowledge about the dumping ground we were allotted a task to visit the dumping ground. So team members krinjal and Avantika visited the dumping ground of vasai-virar mahanagar palika. We were told to do a task for 30hrs but the head of the dumping ground didn't allow us. They asked us to do a task within 3days.

Day 1:

Our day one started with the basic information about the dumping ground and how it works.

This dumping ground is situated in the Gokhivare village which is located in Vasai. The village is also known as the village of smoke. Gokhivare Dumping site is located at latitude 19 deg 24 min 10 north and longitude 72 deg 51 min 36 east. One of the major civic services, Vasai Virar City Municipal Corporation (VCCMC) has to provide collection, segregation, storage, transportation, processing & disposal of Municipal Solid Waste (MSW) in its area. The activity is governed by the Solid Waste Management Rules, 2016. These rules require scientific processing & disposal of the entire Municipal Solid Waste generated in the city. Its total area is 48 acres. All Vasai-Virar Municipal Corporations are divided into 20 zones. All 20 zones

waste comes here for dumping. Everyday waste comes here is 650-700 tons.

The types of waste are:

Liquid waste: Some solid waste can be converted into liquid form for disposal. It includes point source and nonpoint source point source refers to the contamination from an identifiable source such as oil tanker spill in the water or wastewater management. non-point source refers to when the contamination is not generated from an identifiable source or from many sources such as fertilizers.

Solid type: This is predominantly any waste that we make in our homes or any other places. These include old car tires, plastic, broken furniture or even any leftover food.

Hazardous type: This type poses potential threats to the environment and human life. Such waste could be inflammable (which can easily catch fire), reactive (can easily explode), corrosive (which can eat through metal) or toxic . These include items like fire extinguishers, old propane tanks, any mercury containing equipment. Therefore, In many countries, it is required by law to ensure proper disposal of such hazardous waste.

Organic Type: Organic waste comes from plants and animals sources.They commonly include food waste, fruits and vegetable peels. This type of waste is biodegradable, which means that they can be easily converted to manure by organisms over time.

After collecting garbage from the house. The garbage man keeps the garbage at the particular place from where the dump truck can collect that garbage from respective areas.

This is the truck which collects garbage from all the 20 zones of Vasai-Virar city. While talking to them they said these trucks are divided into different zones to collect. And after collecting the garbage, it is brought to the dumping ground for further processing. Once the waste comes here, the waste is divided into its types mentioned above.

On day one, we visited the whole dumping ground and observed the machines and the process of dumping. As it was our first day they gave us some basic information which made us realize if we divide such waste from our house itself then it would be easy for them as well and since tons of garbage comes everyday it is not possible for them to divide it all hence some hazardous waste solid waste gets mixed with organic waste. And when they are dumped it is not good for the environment as well as it causes pollution.

Day 2:

On day two, we were told to help the rag pickers to differentiate the plastic waste. And they discussed with us the measures and the problem they face in the dumping ground.

These are the ragpickers who pick the plastic waste for recycling. Around 150 rag pickers are here. They come daily and pick the waste and send it to recycle.

Rag-pickers are the one who contribute to solid waste management to some extent..These rag-pickers usually collect the materials that have good re-sale value as these materials are mostly recycled or reused. Rag Pickers are the backbone of a neat and beautiful metropolis. The green workers manage entire trash of urban locates around the globe.The rag pickers plays an important role in saving the urban environment. While talking to

the recruiters they told us the importance of the rag pickers in the dumping ground and the contribution they are giving for green environment.

This is the plastic which was collected. They also informed us that this is the waste which is not collected by the garbage man but the one which is kept in the public places. In fact the waste like this which is collected from our house is been differentiate already by the garbage man of the respective areas. This was the information we never knew and we also realized how plastic is harmful for the environment.

The reasons to avoid the plastic bottles and the items related is as follows as:

1) We should carry our own water bottles rather than buying them. In case we forget to carry the bottle, we should not throw the bottle in the dustbin. Either use it or give it to the person who recycles it like rag pickers.

2) If the waste which the garbage man collects from our house contains such waste we should remove it and keep it separately and give it to them, so the garbage man of our building doesn't need to hunt and ultimately we will help them to some extent.

3) Everyone should understand if such plastic waste gets dumped with the other waste then the air will get polluted and it is harmful to survive.

These are the major reasons we discussed and it's a serious problem.

• **Leachate water:** Leachate water which comes from the waste which is not getting treated and directly going into the water resources and polluting them. It can contaminate the health of surroundings. Unconditional dumping of municipal solid wastes results in generation of toxic leachate, which percolates through the soil and finally reaches the water table affecting the ground waters. As the groundwater is an important part of the hydrological cycle, it is more prone to various sources of contamination.

Day 3:

On the third day they showed us how tromil works and the problems and measure of the dumping ground.

There are 8 machines for dumping the fresh waste.

1)Legacy waste:

Legacy wastes are the wastes that have been collected and kept for years at some barren land or a place dedicated for Landfill (an area to dump solid waste). This waste can be roughly grouped into four categories:

Contained and/or stored waste (contained or stored waste are wastes in tanks, canisters, and stainless steel bins). Buried waste.

Contaminated soil and groundwater Contaminated building materials and structures. Biomining method has been proposed by the Central Pollution Control Board (CPCB) for the effective disposal of legacy wastes. Environmental Impact of Legacy Waste Legacy wastes not only occupy large space, but also become a breeding ground for pathogens, flies, malodours and generation of leachate, which may lead to water contamination.

To tackle the legacy waste MC have installed two tromils machine in the dumping

How tromils works:

Firstly, the waste is put on a conveyor belt then waste is forwarded to 100ml net rollers, from 100ml it is transported to 25ml net rollers, then the final product is taken out from the conveyor. The plastic from 100 ml and 25ml of net rollers is sended for recycling by the recruiters. The rest product is used as an manure for the MC gardens.

The tromil:

The manure from the products for MC gardens :

The changes to be brought in the dumping ground :

1) All dumping grounds are operated by MC corporations itself. It must be given to a company who can handle it in a professional way.

2) Due to methane fire activities are fired on the sites the air get polluted, hence to control the fire management mechanism has to be created.

3) Biomining is the process of using microorganisms (microbes) to extract metals of economic interest from rock ores or mine waste. Biomining techniques may also be used to clean up sites that have been polluted with metals. It is usually used for old dumped waste that remains in a partly or fully decomposed state with no segregation in existence between wet and dry waste. In the cost effective method of biomining, treatment is done by dividing the garbage heap at the site into suitable blocks to let the air percolate in the heap. As a result, the leachate which is the water in the heap with suspended solid particles is drained off and microbes are sprayed in the heap to initiate biological decompositions. The waste is turned over several times in order to devoid the waste to leachate as much as possible.

This biological decomposition of the waste decreases the volume of the waste by 40%.

To handle the biomining activity properly, the biomining tender should be given to any company.

4) Smoke over here gets higher and higher as the wind flows. Nearby locality are suffering from respiratory tract infections.

These were the changes the recruiter wanted in the dumping ground.

Conclusion :

The visit to the dumping ground was so informative to know more about the waste management. We understood the fact that instead of a non degradable polytechnic dustbin bag we should use the degradable one. We treat the types of waste differently. We should avoid the use of plastic. While winding up the task we asked them how can we manage and compose the waste. They gave us the tips and we practiced them at home.

The process and result of the waste at home are attached :

INTRODUCTION

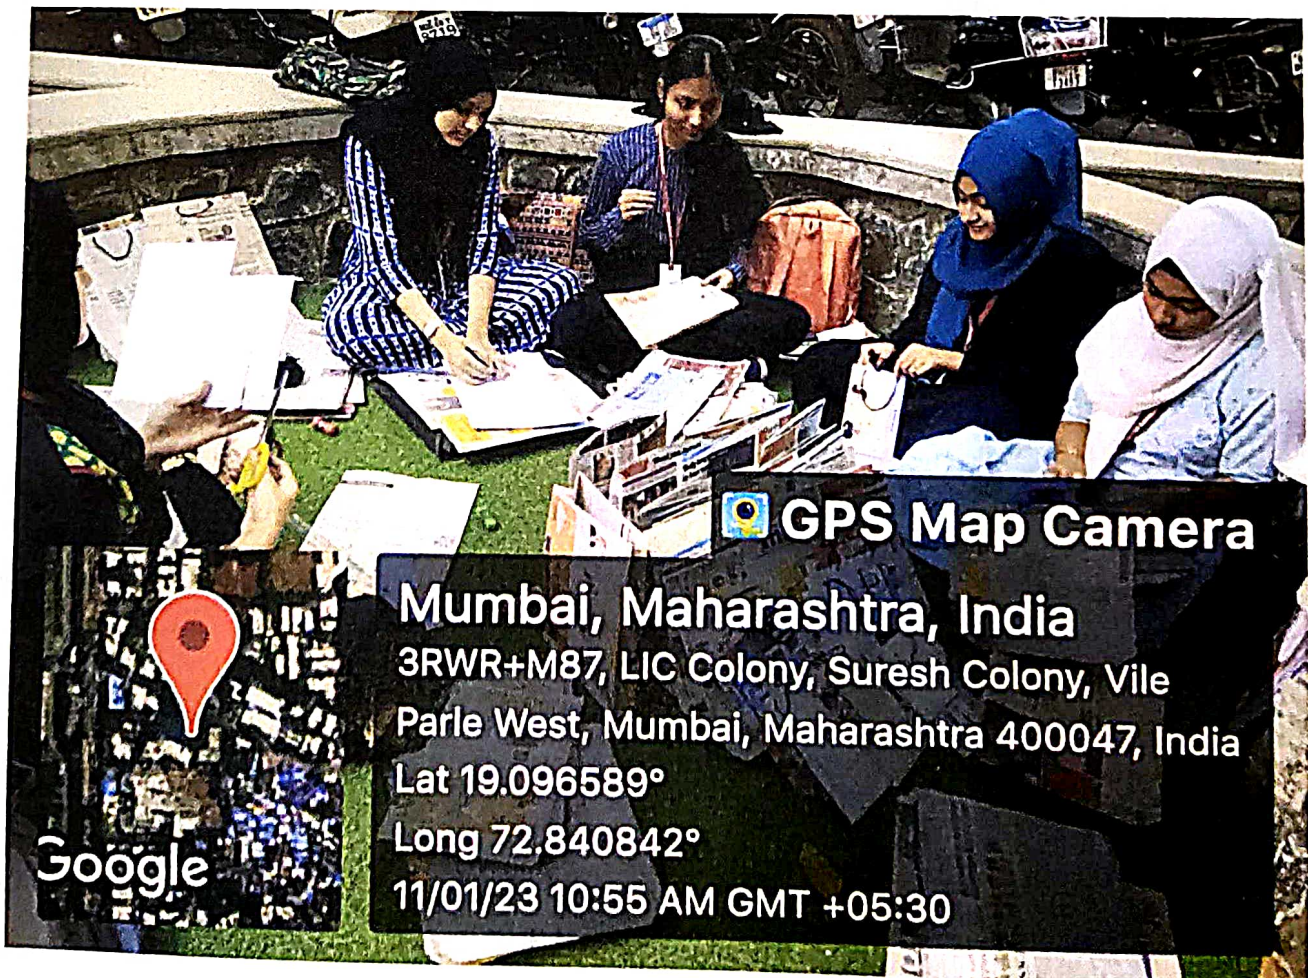

- We are the student of Maniben Nanavati women's college conducted a paper bags distribution. On 21st JAN 2023, on the occasion of our EVS project we had taken the topic 'SAVE THE ENVIRONMENT'.
- We took 10 days to complete our paper bag as we contributed the work simultaneously among us.
- We all first assembled in the college, at 8:30 am then we started our journey through train to ANDHERI Station.
- We have made all size of bags so that it will be used by all types shopkeepers like medical purpose, vendors use etc.
- We marched in the perfect formation carrying posters and banners.
- We have confessed many of the vendors for taking our paper bags.
- We have been asked many questions related to project, and related to changing the environment.
- We made the people aware by using of plastic bag and aware of throwing plastic here and there which pollute the soil.
- Then we came back to VILE PARLE station.
- It was a huge splendid spectacle to watch the procession of use.
- Many of the people appreciated our hard work towards changing the environment through our mini steps.
- As we enjoyed a lot, we get know many more things about the environment through public reporting.
- As we were quite proud to show our effort towards the nature and proud to say we are the student of, Maniben Nanavati Women's College.

We are the student of Maniben Nanavati Women's College conducted a paper bags distribution. On 21st Jan 2023, on the occasion of our EVS project we had taken the topic 'SAVE THE ENVIRONMENT'.

PREPARATION OF BAGS:

DAY 1:

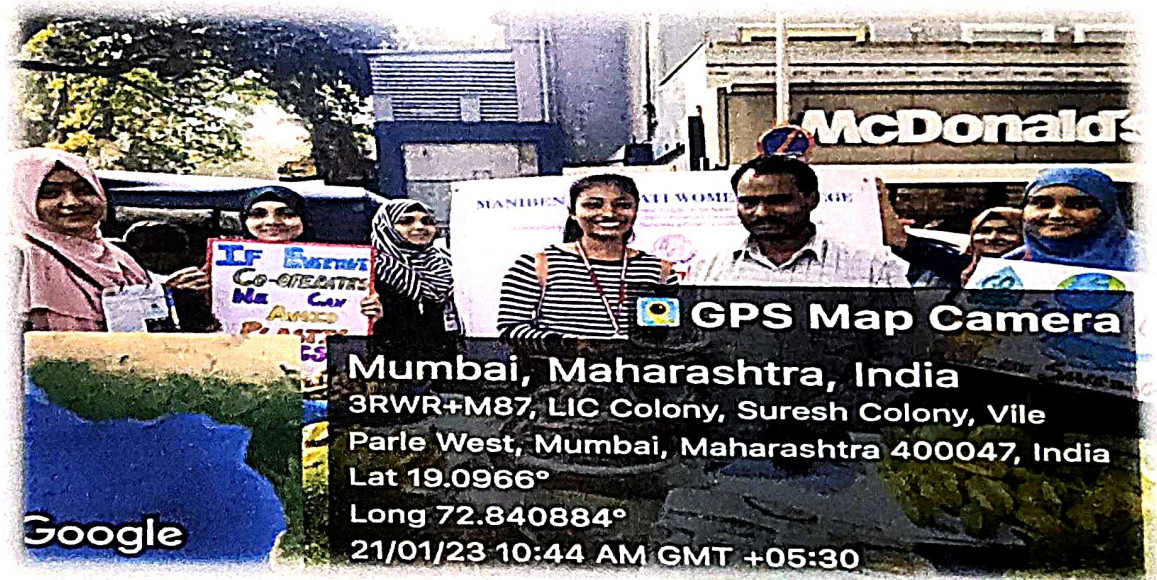

On 11th January we have started to made all size of bags so that will be used by all types of shopkeeper, like medical purpose, vendors use etc. and then we prepare banners like slogans or make posters regarding save the environment.

DAY: 2

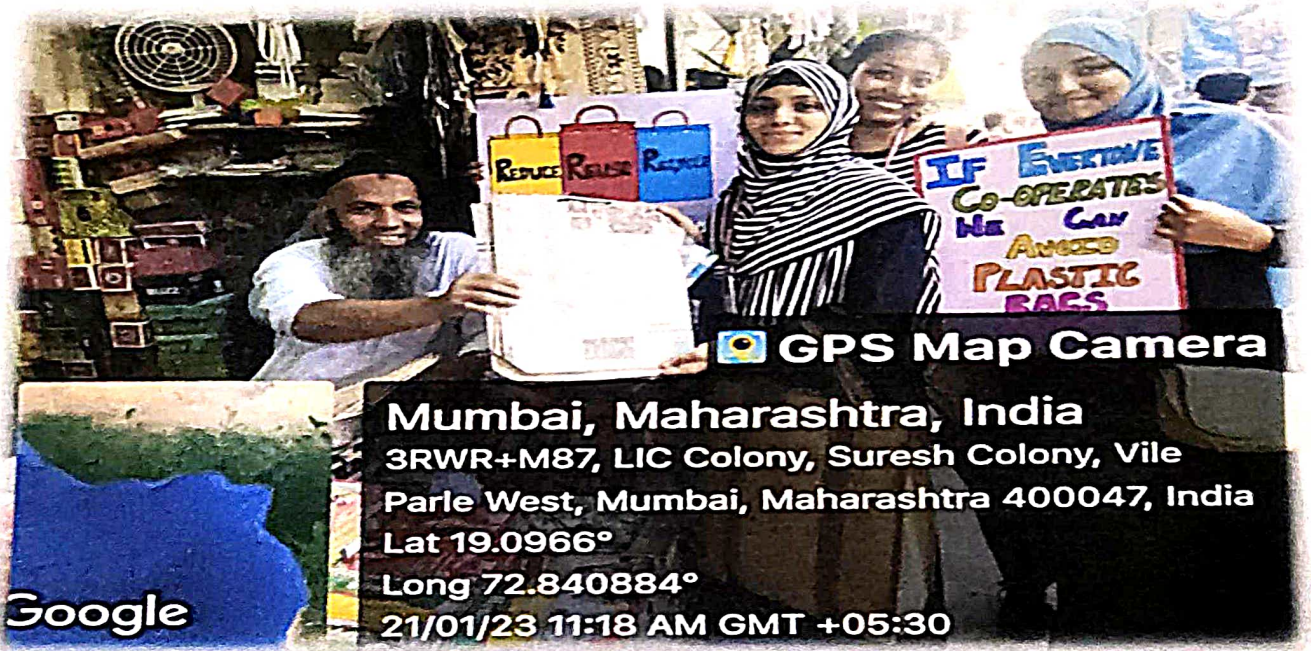

21st January

We all first assembled in the college, at 8.30 am then we started our journey through train to ANDHERI Station. We marched in the perfect formation carrying posters and banners. And we have to give the message that how harmful is plastic bags for our environment we have to tell them that how to save our environment or what can we do to avoid it.

DAY: 3

We went to ANDHERI STATION and carried our banners or told everyone that plastic destroyed our environment and government has also banned plastic instead of this use paper bags or make our environment save. We tell everyone with the help of banners and the bags that we have prepared we distribute over them.

PAPER BAGS ARE ECO-FRIENDLY

Paper bags are biodegradable. It means paper bags can be decomposed in soil with the help of bacteria. It's different from plastic bags that can take a thousand years to decompose.

Paper bags are one hundred percent recyclable because they don't contain toxic and poisonous gas that plastic bags emit during recycling. They are reusable, and when they're reused more than three times, the bags have significantly less ecosystem impact than plastic bags. Using paper bags and leaving plastic bags means saving nature from pollution. It also means saving sea animals like whale and sea turtle from eating plastic waste that could kill them.

Feedback

At the end many people appreciated our hard work towards changing the environment through our mini steps and they told us that we not use plastic as we tell others that they also avoid use of plastic. And we also went to medical shop and give them a small bags that we prepared and also they are very happy to see our work or even encouraged to save the environment by taking such mini step in future as well apart from this we also distribute our bags and we also went to other places and they gave same feedback to us.

We will also save the environment by taking this project we have learned a lot from this project or we have enjoyed a lot while making this project and we have a good conversation with the vendors while distributing the bags and we also told them about the benefits of paper bags and to avoid use of plastic as they harm a lot. We are very thankful to MADHURI MADAM that she gave us this project

THANK YOU

UNDER THE GUIDENCE

(MADHURI AYKER)

-----INTRODUCTION-----

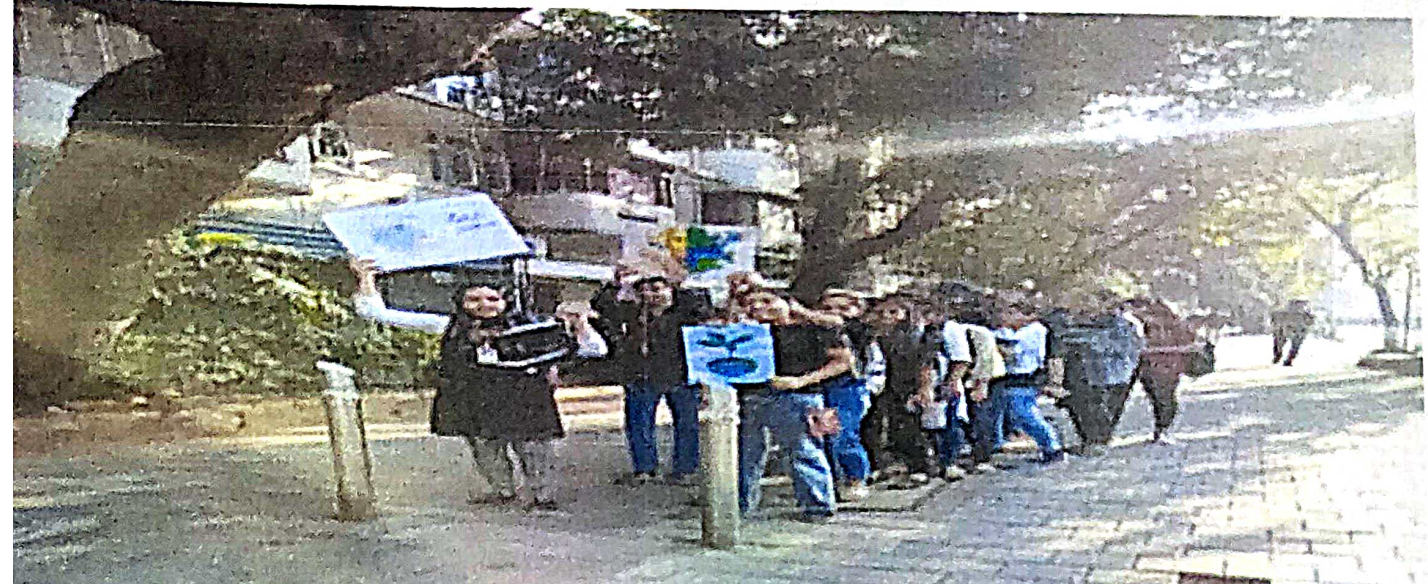

- We the student of Maniben Nanavati Womens College conducted a rally on 22nd January 2023 and 05th March 2023. As we were the part of our EVS project and we had taken the topic SAVE THE EARTH to spread the awareness on the harmful use of plastic bags.

(DAY 1) 22ND JANUARY 2023

- We all first assembled in the college Vile Parle(w) in morning 7:00 a.m then we started our journey to the Churchgate from train. We reached aprox at 7:45 a.m and we marched our first rally at Veer Nariman Rd,Churchgate .
- We covered the major streets of the town and perform at more 4 places... that is some more far distance of Netaji Subhash Chandra Bose Rd, Churchgate, Mount Mary Bandra (w), Girgaon .
- At last we reached at college after march at 3 p.m

(DAY 2) 05TH MARCH 2023

- We all first assembled in the college Vile Parle(w) in afternoon 3 p.m then we started our journey to

GPS Map Camera

Juhu Beach by auto. We reached at 3.30 p.m and wee marched our rally at Juhu beach .

- We covered many spot at the beach
- We reached back at the college at 7.15 a.m

(Day 2)05th MARCH 2023

We marched in the perfect formation carrying poster and banners. The leading student shouted the slogans and the rest repeated after them in unison. We are thoroughly guiding each other and supporting in all form. It was the huge splendid spectacle to watch the huge procession of us. Many of the people appreciated for our hardwork towards the changing the environment. This rally made public aware that throwing plastic product here and there pollute the soil. And keep the environment clean. As we enjoyed a lot , we get to know many things about the environment through the public reporting. We were quite proud to show our performance to the people. That we are the students of Maniben Nanavati Womens College.

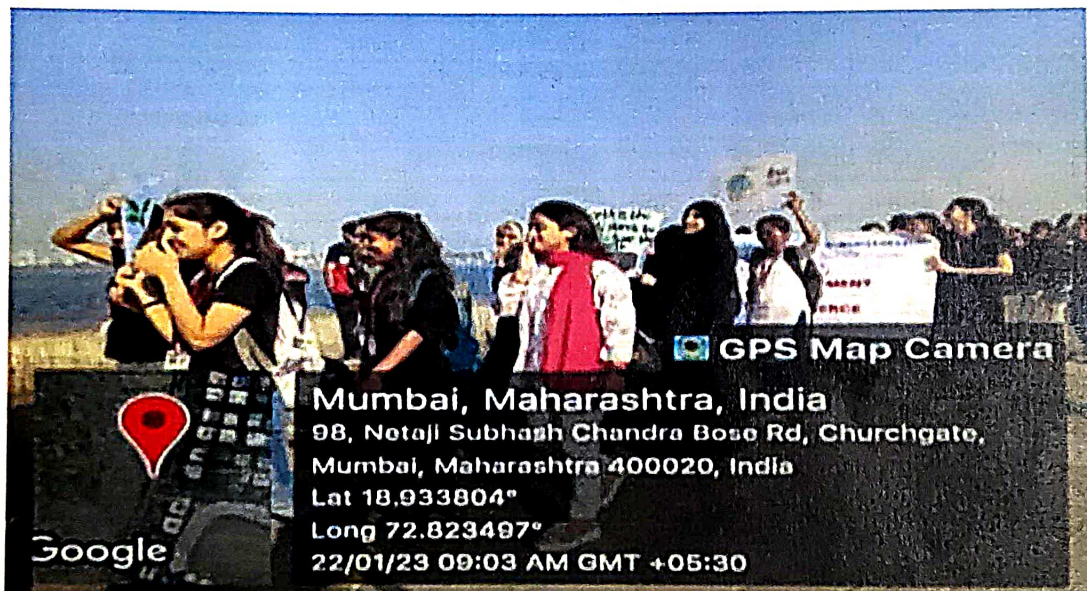

We all first assembled in the college Vile Parle(w) in afternoon 3 p.m then we started our journey to Juhu Beach by auto. We reached at 3.30 pm and we marched our rally at Juhu beach .

We covered many spot at the beach

We reached back at the college at 7.15 am.

Many questions where asked related to our rally project , and related to our change in environment

2nd Rally at Netaji Subhash Chandra Bose Rd, Churchgate.

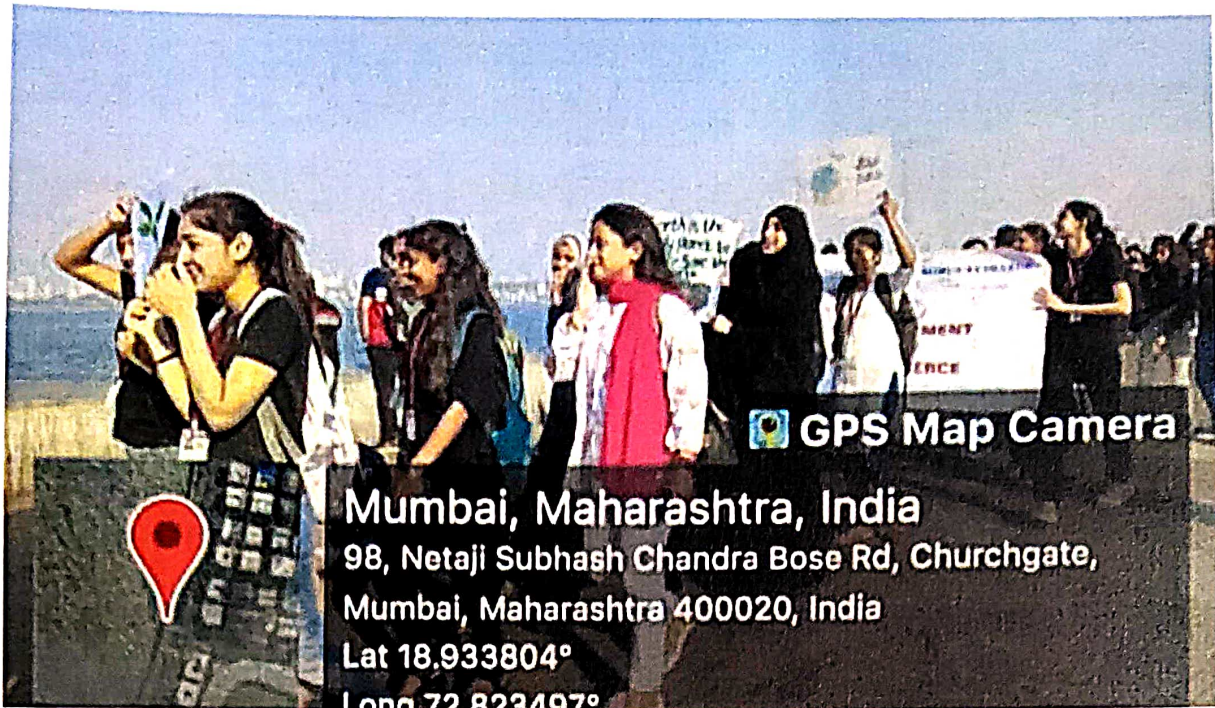

3rd Rally at Mount Mary Bandra(w)

4th Rally at Juhu Tara [BEACH]

EXPERIENCE: From the first day we had been doing team work and co-operating with everyone. We got to know many sides of the daily life that we were ignorant to many things , we got to know many things and we gather many knowledge regarding the nature. Before many of the people was avoiding with our work then when we started the rally many of them supported and even walk with the few steps.

Conclusion:- A green and clean atmosphere is important to live a peaceful and healthy life.

We must stop and avoid using poly and plastic bags and prefer eco-friendly item to save the atmosphere.

We can easily save our environment for the next generation in several ways by accepting and adopting a simple lifestyle.

Promote digital technology will save more papers that are made from natural resources like wood, water reasources , forest resources etc.

We can reduce our use of natural resources by cutting down on the use of plastic and paper bags or materials for packaging.

We can reuse paper boxes as storage boxes or plastic bottles as containers.

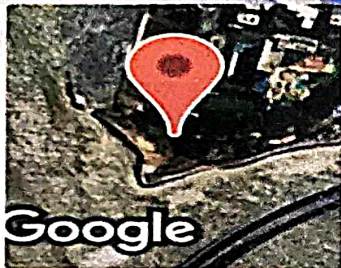

Feedback

We came to know environmental problems that affect day to day life .we really enjoyed this phase we like to spread the knowledge about environmental issues ,we learn about importance of water reaources, forest resources,air resources etc

We learned three rules that is reuse,reduce,and recycle

EVS PROJECT REPORT FOR THE YEAR

2022-2023

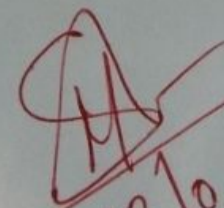

CLEANLINESS DRIVE

SUBMITTED BY STUDENTS OF FYBCOM

- Vallari Mehta 38 .
- Anita Jethwa 20
- Reena Popatiya 44
- Jinal Prajapati 46
- Suchi Luhar 34.

Under the guidance of Ms. Madhuri Ayker

13/04/23

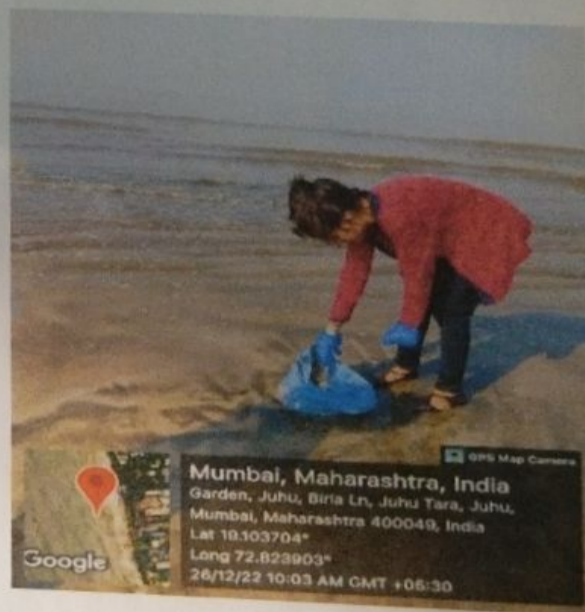

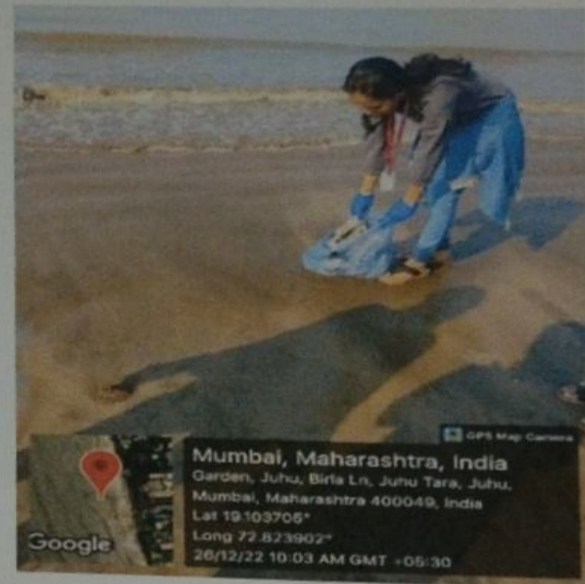

INTRODUCTION:

Cleanliness is a vital way to live a healthy life. Number of people visit beach every day. As beaches our Maharashtra's pride, so we have to conserve/keep it clean. So, we selected the topic of cleaning. We cleaned many places like Juhu beach, market, garden and other places. We started cleaning the beach, roads, gardens, and then market. The cleaning is the process of removing solid litter, plastic glasses, plastic plates, etc. We cleaning we also explained the people to ban plastic. We also told them to keep the environment clean. There are number of volunteers from different College's, University's and NGO'S, who comes to clean different areas. People comes to different places and create waste, due to that many ecosystems are affected, and our life is also getting affected by this.

They prevent rough, broken bit and pieces of stone, wood, glass, etc., from flowing back into the ocean. By cleaning the beaches, we can protect marine life from harmful effects of waste. Marine life often suffers from the harmful effects of pollution. Garden is a place where people of different age groups come to spend time. So, it is equally important to keep the garden clean to avoid spread of diseases and protect plants from the litter. People should throw garbage waste in the dustbin located in the gardens, on the roads, etc. As we often see the roads and market are littered with wrapper, plastic bottles, cups etc. Many times, leftover food is thrown in plastic bags on the roads which the animals mistakes as food and try to eat it. This can effect their health. So kindly throw the dustbin provided on the streets.

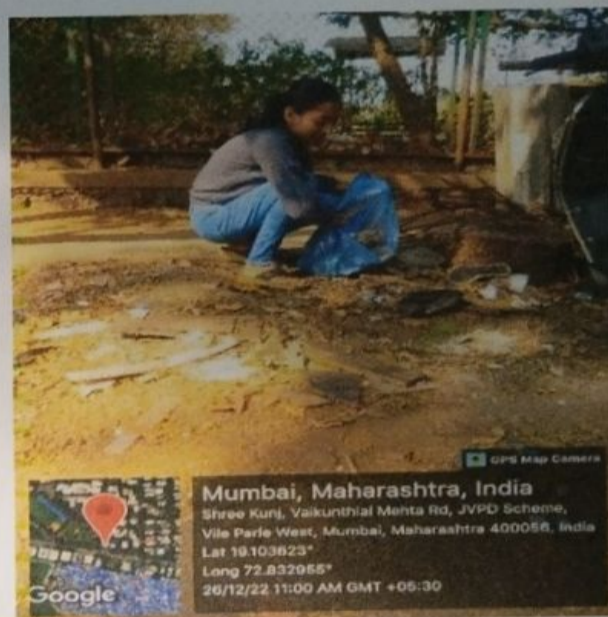

Day 1: Beach Cleaning

On 26th December 2022, we started our cleaning project with beach cleaning. We all were excited to start our cleaning project. We all helped each other to clean the beach. We clean Vile Parle Area beach. We told those people who were throwing waste here and there that throw it in dustbin. If we throw waste here and there then it may spread infection when small children come and plays with sand. It will also be harmful for marine life when this waste will go inside the sea.

Road Cleaning

On 26th December 2022, we went to Vaikunthlal Road, JVPD Scheme, in Vile Parle. We did this cleaning activity on road. It is observed that people throw all the litter on road like plastic bottles, plastic bags, chips wrappers, and dry leaves, etc. We took the initiative of cleaning the street. We gave the message to people that they should not throw garbage on the road. It leads to bad smell in the area or road.

Garden Cleaning

On 26th December 2022, we went to Ishvarbhai park of Vile Parle (West). We did this activity in morning. In Garden we saw people throwing waste like plastic bottles, wrappers, etc. On the plants, which is not good for plants. We cleaned garden. We told people present in the garden that never throw in the garden. Throwing waste can be harmful for us. To avoid spread of disease we have to protect plants. It can be harmful for plants too.

DAY 2: Market Cleaning

On 11th March 2023, we went in market area of Vile Parle (West). For cleaning we did this activity in the morning. All of us brought different materials, like Garbage bags, Plastic gloves, masks etc. We found waste like plastic cup, some leafy vegetables, papers, plastic, etc. We picked up all the garbage around the market. Some vendors of the market also started cleaning with us. In conclusion we would like to say that there is no shame in making our environment clean. We felled so proud of ourselves.

EXPERIENCE:

Vallari Mehta: Being the part of the cleaning project, I got to learn that even after so many awareness drives, our PM spreading the word SWACHH BHARAT ABHIYAN, still I found garbage on beaches, gardens, roads, markets, etc. As a group project we cleaned few places and spread the awareness of disposing the waste properly, among those people who were throwing waste in those areas.

Anita Jethwa: My experience on our project of cleaning up beaches and market area was amazing. Through this I came to know the importance of cleaning and keeping our earth safe. We cleaned up the beaches. From this we came to know there is known awareness among the people. People should keep their areas and beaches clean. I feel there should be awareness about cleanliness among the people. We should avoid the use of plastic bags. Instead we should use cloth bags which can be safe for the environment.

Reena Popatiya: It was very amazing experience and I feel proud to get the opportunity from this session. I came to know why our National father Mahatma Gandhi says to clean India. I also learned to avoid the use of plastic bottles, wrappers, etc. and I also gave instructions to others to clean everyplace around us because cleanliness is next to godliness.

Jinal Prajapati: This was the first time I had ever done a cleaning project so I was really excited to do this because I like to try new things and do something out of the ordinary. When I was cleaning, I found a lot of stuff that shouldn't belong at such places. I picked up a lot of sticks, feathers, candy wrappers, straws, pieces of plastic cups. When I picked up all this trash, I was really happy because I felt like I was making a difference and helping the surrounding to be clean and that's the

way it should be. I really had a lot of fun. I was glad to be a part of this activity. It was a great opportunity for me.

Suchi Luhar: My experience on beach cleaning was amazing. I came to know that what should be my responsibilities towards cleanliness of surroundings and areas. We cleaned the beaches and market areas. There was a lot of dust and leaves we threw the scattered leaves in the garbage bag. We also cleaned the garden. I learned that we should keep our area and surroundings clean.

MANIBEN NANAVATI WOMEN'S COLLEGE
SOLID WASTE MANAGEMENT
& COMPOSE PREPARATION

UNDER GUIDANCE :MISS MADHURI AYKER

1. DHANASHREE SAKPAL
2. DANIA PENWALA
3. PARVATI PRAJAPATI - 45

INTRODUCTION

WHY SOLID WASTE MANAGEMENT IMPORTANT?

We the students of Maniben Nanavati Women's College were given an assignment to work for 30 hours in the solid waste management company (BMC) and prepare a report on the work I had done solid waste management(BMC)

On 14/02/2023 we went to solid waste management company name Tata Compound Andheri (WEST) Mumbai:400058

From there we have learned how to do segregate waste and how to make compost at home by using kitchen waste

The term solid waste management mainly refers to the complete process of collecting, treating and disposing of solid waste. In the waste management process, the waste are collected from different sources and are disposed of this process include collect transportation treatment analysis and disposal of waste.

WHAT IS KITCHEN WASTE COMPOSTING?

Kitchen waste composting is the act of using your kitchen waste and food scraps, which are organic materials (green and brown) to create compost beneficial for enriching soil and growing plants and scraps

From my observation and with help of you tube, I started making compost at my house

Compost is a mixture of ingredients used to fertilize and improve the soil. It is commonly prepared by decomposing plant (dry leaves, mud, garden soil, food waste) and recycling organic matters.

Compost improve soil fertilize in garden, landscaping, horticulture and organic farm

COMPOSE:

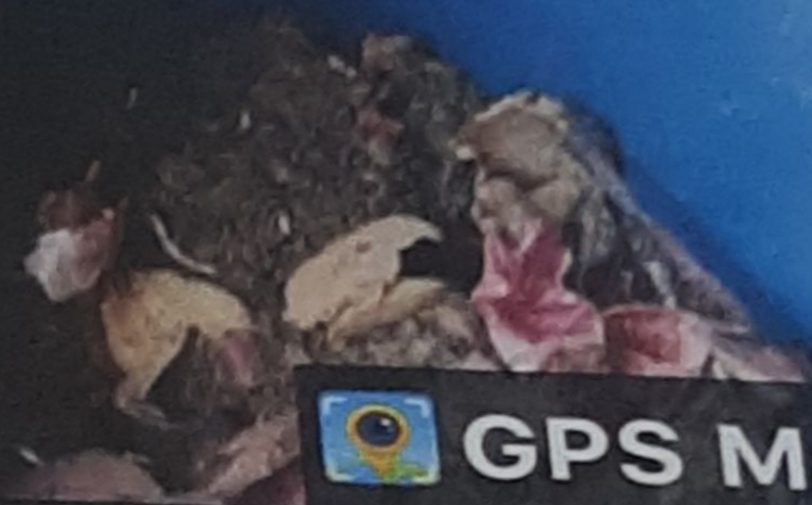

Compost is a mixture of ingredients used to fertilize and improve the soil. It is commonly prepared by decomposing plant (dry leaves, mud, garden soil, food waste) and recycling organic matters.

Compost improves soil fertility in garden, landscaping, horticulture, organic farming, resulting in a dependency on commercial chemical fertilizer.

COMPOSED PREPARED BY:

DANIA PENWALA -42

On 02/02/2023 I started making compost first I collect all the kitchen waste and garden soil and some dry leaves and then I put all the things in to a bucket.

Effective Presentation Skills Workshop: Dr. Sumedha Bajpai 12 July 2018. Beneficiaries- 2 students. Dr. Sumedha Bajpai conducted a brilliant Workshop for various students assembled at SNTD Juhu Campus. The necessity of creating & utilizing effective presentations was emphasized by Dr. Bajpai. She insisted that in a world where E-Learning is steadily dominating, technical skills like these become integral in the field of education and research. Dr. Bajpai commanded each one's attention effectively and imparted great insights into the topic.

Gender

The Department of English in collaboration with Foundation Course and NSS organized Syed Ruksheda's Talk on Women and Health Issues on 12th February 2019. Beneficiaries- 144

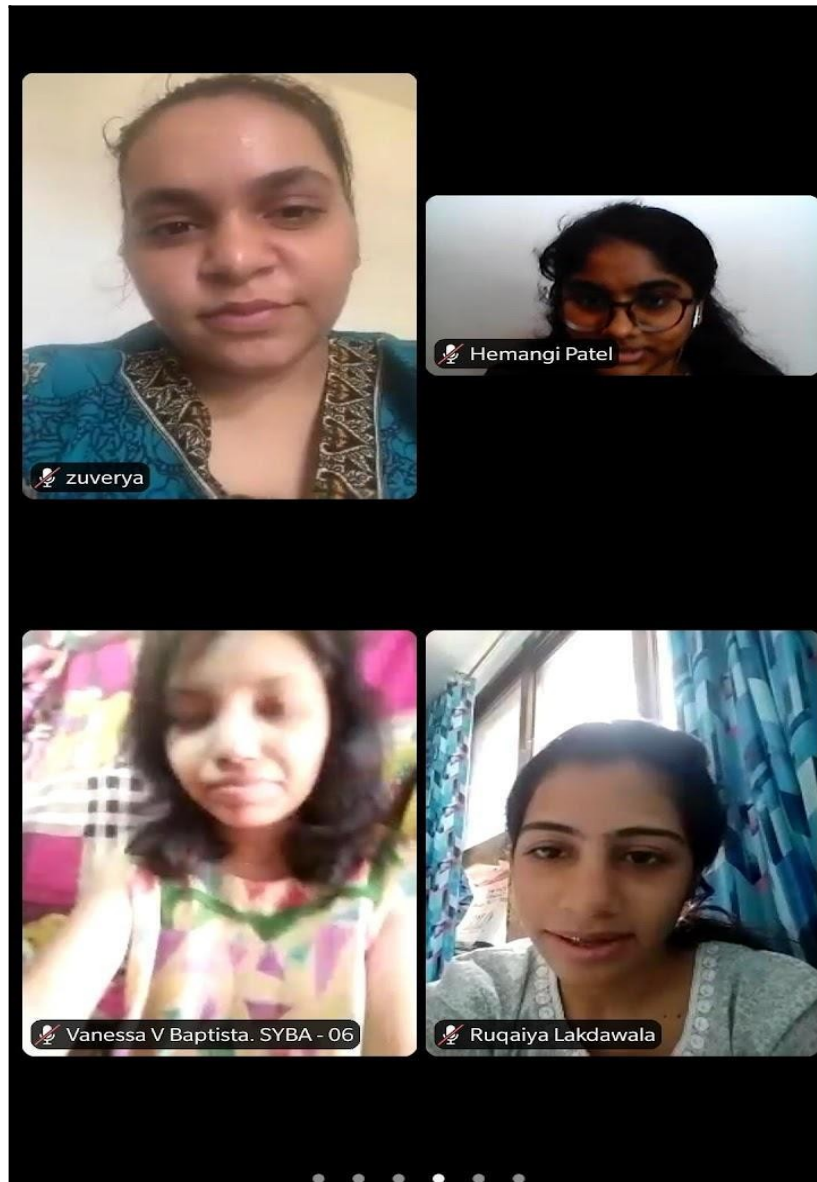

2019-2020
Professional Ethics

A writing skills workshop was organised by the Department of English on 11th September 2019, for the CC English paper , Semester III , which is a compulsory paper taught to the Second Year UG students of B.A. The resource person, Ms. Chirantana Bhatt covered topics like Forms of Expressive writing, Characteristics of Good Writing, Process of writing, Academic writing, Abstract writing, Essay writing, News Report writing and Creative writing. Beneficiaries- 55 SYBA Students.

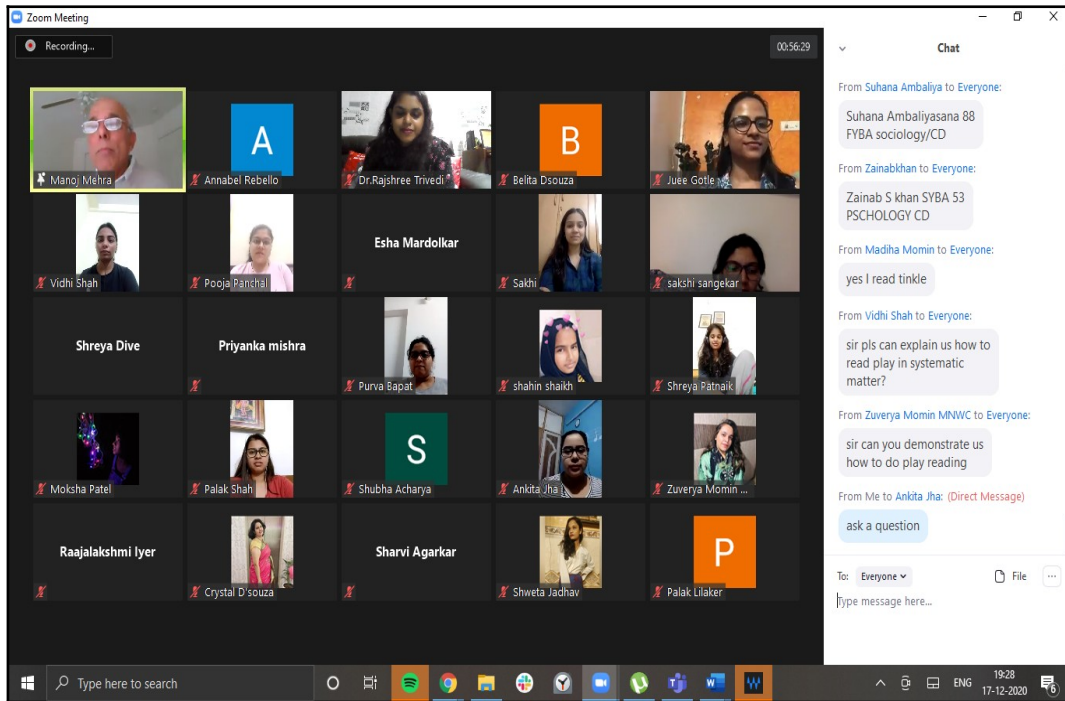

2020-2021

Professional Ethics

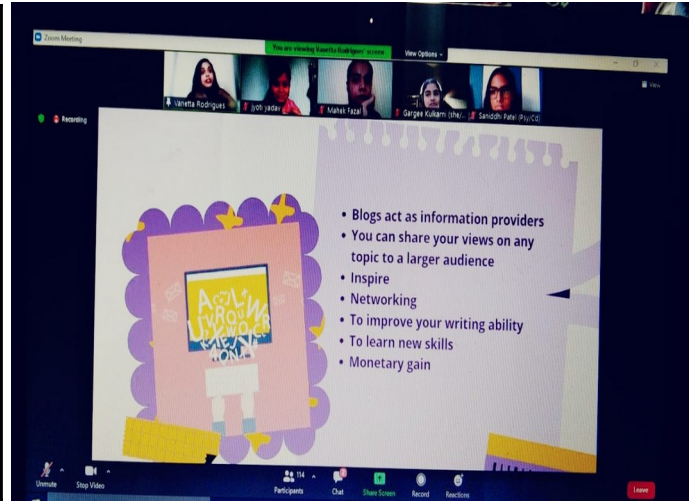

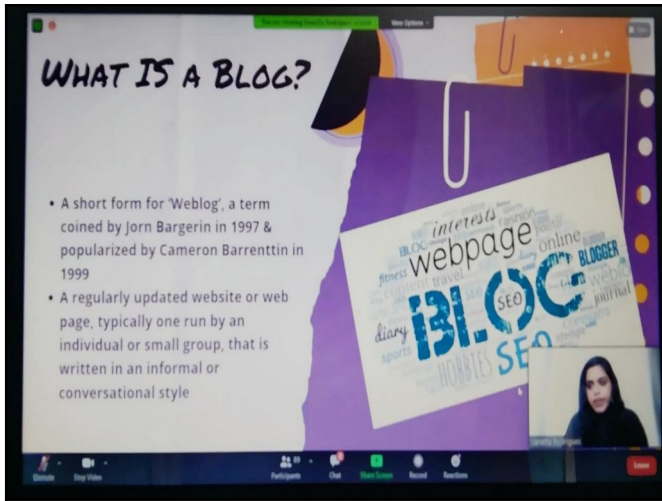

Language Skill Building Sessions were conducted for slow learners of BA (Eng-med) HL, BA (Gujarati-medium) LL and B.Com students. A meeting was conducted by the teachers to introduce us to the programme that was designed to target slow learners. The sessions began on 7th May 2021 with all the classes taking a benchmark test. The students who scored below average were selected for the Language Skill Building Sessions. 7 students were part of BA (Eng-med) HL, 10 students attended BA (Gujarati-medium) LL and, 10 students attended from B.Com. A lesson plan was created for each class that included the flow of the class, topics of the day and assignments for revision. Each class was held twice a week.

Professional Ethics

The FYBA and TYBA DC English and Sociology students of MNWC attended a Play Reading Workshop conducted by Mr. Manoj Mehra, a US based Thespian, Actor and Director on 17th December 2020. The workshop exposed the students to different reading styles, writers patterns. The workshop ended with a demo session on accents while reading. Beneficiaries - 59

The Department of English at Maniben Nanavati Women's College organised a Guest Lecture on Blog Writing on 09th February 2022. The guest speaker who was invited was Vanetta Rodrigues, a prolific poet, writer and educator. The session was attended by 120 BA English students and Teachers. "Content is everything" was the basic idea of what Vanetta presented.

2022-2023
Professional Ethics

Ms. Vanetta Rodrigues conducted a Blog Writing session with a brief description of what blog writing is and all the details regarding the same. She enlightened students through the process of writing a blog and the multiple types of blogs. The students got a detailed insight into the perks and the several advantages blog writing provides. Ms. Rodrigues focused on the necessity of blog writing like networking, inspiring people, monetary gain, etc. Students were motivated to pursue Blog Writing not only for passion but also for profession. As they were given an open space to venture in, students were excited to learn the formats of Blog Writing. Beneficiaries- 38 Students

Professional Ethics

On 16th February 2023, the Department of English organized a ‘Creative Writing Workshop’. The speaker of this interactive session was introduced by Ms. Maryam Shareef. She is an author, poet, and screenwriter Mrs. Rochelle Potkar, who enlightened us on some Japanese forms of poetry, including Haiku, Haibun, and Free verse. Mrs. Potkar began the workshop by introducing the difference between the Haiku and the Haibun.

Dept. of Sociology

Enviromental Awareness Initiative

Under Project Chaitanaya students make cloth bags and distributed in community spreading the message of NO Plastic as a part of Environmental awareness.

Gender Awareness Initiative

In Collaboration with VACHA NGO students were given gender raining for two days and on third day students put up the Gender Mela for the other students and theroth innovative games explaining the other students about the gender realted issues.

Eminent personality Ms. Hasina Khan from Bebak Collective was invited to give informative talk on Violence against Women.

Every year Students of Dept. celebrate Women's Day by making and displaying posters on Women Fighter, Achievers, etc.

RAAH- Apki Raah humari Manzil

RAAH is a digital platform that was initiated by the Department Of Child Development, Maniben Nanavati Women's College for transgender community and their Parents in the year 2019-20. This was the student-led research Project represented at Avishkar & Anveshan- prestigious student research conventions (State, zonal & National level) and begged prizes. It's **Vision** is to To E.A.S.E. (E – Empathize A – Accept S – Sensitize E – Empower) parents towards gender identity. It's **Mission** is To integrate transgender people into the mainstream society; To empower and educate parents of transgender children; To increase awareness among society about transgender individuals. Since then the student team along with their Mentor Dr Swati Partani are working to benefit Transgender community in multitude ways. Raah has covered numerous events which have helped us succeed in our mission bringing us closer to our vision. Live events like Azadi ke Lafz, Kavach Clothes Distribution Drive, and Distribution Drives (Distribution of nutritional kits & hygiene kits to HIV Trans patients) & Videos to prepare immunity booster recipes amidst complete lockdown in collaboration with generous organizations were conducted. Insightful webinars like - "Beyond Gender: Unmasking Gender Norms", "Trans-Jan: A conversation with the members of the Transgender community." and the three webinars held in collaboration with Volunteer for India ECLIPSING GENDER: A Step towards "Trans" informing Gender Norms, DECODING GENDER (Hint: It isn't binary) and Gender Affirming Surgical Interventions aimed towards parents, teenagers and transgender individuals respectively were also held.

In the academic year 2022-23, RAAH collaborated with Tweet Foundation to benefit the Transgender individuals sheltered at Garima Greh. They were provided with intensive 4 months training in Digital Literacy and English Language Literacy to make them employment ready. Most of them were absorbed in jobs post training. Laptops were donated to Garima Greh Residents to

further Hone their skills. RAAH team is reaching out to the Transperson at traffic signals, Trans Cafes to know their challenges, help them and advocate for them. Here are some of the highlights of Project RAAH:

Activities conducted in the year 2019-2020

1. Project Poshan

Date: 23rd April 2020

Through this project Team RAAH successfully distributed 62 nutritional kits to PLHIV as nutritional support.

Activities conducted in the Academic Year of 2020-2021

1. Azadi Ke Lafzz

Date: 15th August 2020

2. Clothes Distribution Drive

Date: 17th September 2020

3. Beyond gender: Unmasking Gender Norms - Gender Sensitization Programme

Date: 20th November 2020

4. Trans-Jan A conversation with the members of the transgender community.

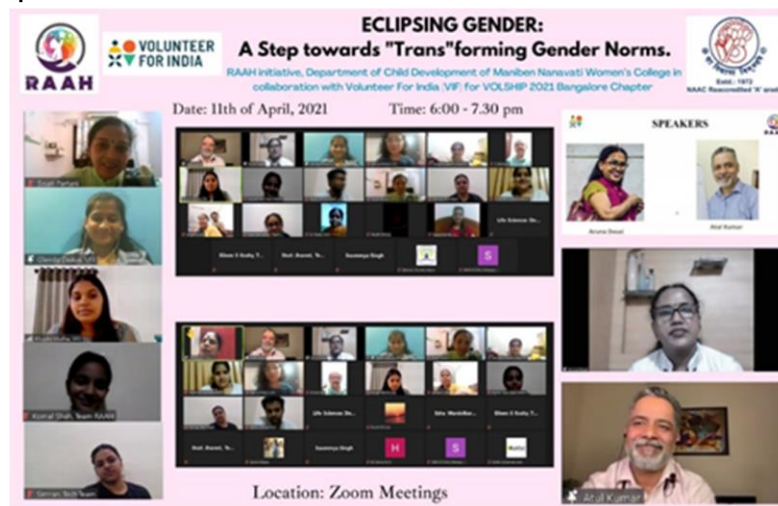

Date: 22nd November 2020

Activities conducted in the Academic year 2021-2022

1. Eclipsing Gender: A step towards "Trans" forming gender norms

Date: 11th April 2021

2. Decoding Gender: (Hint it isn't binary)
Date: 18th April 2021

DECODING GENDER:
(Hint: It's isn't binary!)

4. Helping Hand: Ration Distribution to Ms. Rose Shaikh
Date: 2nd November 2021

5. Ration Distribution Drive
Date: 22nd June 2021

5. Hygiene Kit Distribution Drive

Date: 10th July 2021

Activities conducted in the Academic Year 2022-2023

Dr Swati Partani initiated Project RAAH action research skill-based intervention program to empower Adult Transgender individuals from Garima Greh adopted by Tweet Foundation. This Project was sponsored by Rotary Club of Bombay Airport. This skill intervention Program included English literacy course including grooming skills, as well as Digital literacy course included MS CIT course. This was the requirement to upskill the Transgender individuals to cater to their needs of upskilling to procure employment. Digitally equipped infrastructure and faculty members for English literacy, grooming skills and digital literacy course of MS CIT were made available to them during this course. The RAAH project was funded and further supported by donating 13 laptops to the Garima Greh by The Rotary Club of Bombay Airport. Transgender individuals not only got upskilled and got certificates for the completion of the course but were also procured jobs through a placement drive by Tweet foundation.

1. Visit to Garima Greh

Date: 19th March 2022

2. Project RAAH: Skill Development programme for Transgender Persons

Date: 4th August 2022

"Having the ability to master a skill is truly one of the most important aspects for success"

3. Skill Development Programme: English Sessions

"One way of truly communicating is to break the language barrier"

4. Skill Development programme: Reading Sessions

5. Skill Development Programme: Digital Literacy Programme

6. Grooming Sessions

6. Laptop Distribution Drive; Date: 13th October 2022

"It doesn't matter what you give, its what you give that matters"

7. Certificate Distribution and Closing Ceremony for Skill Development Programme; Date: 8th April 2023
"It is the end of a decade but the start an age"

8. Dr Swati Partani invited for Panel discussion by Tweet Foundation for Trans education & employment on 18th August 2022

9. Dr Swati Partani got felicitated for work done Through RAAH At Transmela, The Lalit, New Delhi organized by Tweet Foundation
Date: 10th March, 2023
