	CO3 - The student will be able to demonstrate familiarity with be able to use the intellectual strategies that literary critics
	use to interpret and discuss literary works
	CO4 - The student will be able to identify poetic forms and critical terms associated with the study of poetry
	Nineteenth Century Novel / An Introduction to the Novel: The Nineteenth Century Novel
	CO1 - The student will be able to develop an understanding of how an author works to construct a particular narrative
245301	CO2 - The student will be able to Enhance skills of analysis and argument as they probe into how cultural and historical
	context inform the text
	CO3 - The student will be able to appreciate and be enabled to read other works of fiction keeping both form and context
	mind.
	Romantic and Victorian Poetry / An Introduction to Poetry with special reference to Romantic & Victorian Poet
	CO1 - The student will be able to Identify the formal and contextual dimensions of the poems
	CO2 - The student will be able to Demonstrate familiarity with significant poets from the Romantic and Victorian period
245401	and situate their work within the cultural, social, political, economic, scientific and aesthetic debates of the period
245401	and situate their work within the cultural, social, pointeal, economic, scientific and aesthetic debates of the period
	CO3 - The student will be able to Respond to specific and distinguishing features of the poem which give its uniqueness
	CO4 - The student will be able to Appreciate poetry knowing how ideas are organized in a poem, how the poet uses
	language such as similes, metaphors, personification to create a powerful impact.
	Twentieth century Poetry (1900 to 1970)
	CO1 - The student will be able to identify and describe distinct literary characteristics of modern poetry
245501	CO2 - The student will be able to analyze poetic works for their structure and meaning, using correct terminology.
345501	CO3 - The student will be able to write analytically about modern poetry
	CO4 - The student will be able to Effectively communicate ideas related to the poetic works during class and group
	activities.
340601	Drama: Realism in Drama
	CO1 - The student will be able to understand the elements & structure of Realist Drama
	The Early Modern Novel
	CO1 - The student will be able to demonstrate knowledge of the cultural and historical contexts of the prescribed novels.
445701	CO2 - The student will be able to Identify and describe distinctive literary characteristics of the early modern novel.
	CO3 - The student will be able to Analyze novels for their structure and meaning, using correct terminology.
	CO4 - The student will be able to Discuss ideas related to the modern novel in India and the west.
447001	Shakespearean Drama
445801	CO1 - The student will be able to read and comprehend unique features of Shakespeare Drama as a Genre.
	Introduction to Children's Literature
	CO1 - The student will be able to Understand the history of children's literature and how it impacts the development of t
	audience it serves.
365101	CO2 - The student will be able to Identify and describe distinct literary characteristics of children's literature
505101	CO2. The student will be able to Analyze different genres of shildren's literature
	CO3 - The student will be able to Analyse different genres of children's literature
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations.
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature
465201	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner.
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels
	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels being studied
465201	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels being studied CO2 - Identify and describe distinct literary characteristics of the novel
465201	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels being studied CO2 - Identify and describe distinct literary characteristics of the novel CO2 - Identify and describe distinct literary characteristics of the novel CO3 - Analyze novels for their structure and meaning, using correct terminology
465201	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels being studied CO2 - Identify and describe distinct literary characteristics of the novel CO3 - Analyze novels for their structure and meaning, using correct terminology CO4 - Effectively communicate ideas related to the contemporary novel during class and group activities
465201	CO4 - The student will be able to Discuss ideas/issues related to children's literature through classroom discussions and presentations. Fable and Detective Fiction in Children's Literature CO1 - The student will be able to critically read and enjoy children's literature CO2 - The student will be able to analyze issues in a critical manner. Contemporary Novel CO1 - The student will be able to demonstrate an understanding of historical, social and political contexts of the novels being studied CO2 - Identify and describe distinct literary characteristics of the novel CO2 - Identify and describe distinct literary characteristics of the novel CO3 - Analyze novels for their structure and meaning, using correct terminology

JTUUUT	CO3- Write analytically about contemporary drama using correct terminology
	CO3- while analyticany about contemporary drama using concert terminology CO4- Respond to the performative aspects of drama
	CO5 - Effectively communicate ideas related to drama during class and group activities
	Introducing Critical Writing
	CO1- Be familiar with different approaches that can be used to study literature
546101	CO2- Develop the ability to read works of literary criticism, and deploy ideas from these texts in their own reading and writing
	Indian Literature in English Translation
546201	CO1- Appreciate and evaluate bhasha literatures in translation
	CO2- Understand basic strategies employed in translation
	Women's Writing in the Twentieth Century
546301	CO1- Appreciate and critically evaluate the distinct nature and experience that women's writing articulates
	CO2- Be able to negotiate with some of the fundamental questions related to gender and its interconnectedness to other categories like class, race, religion and community
	Contemporary Poetry
	CO1- Demonstrate an understanding of the socio-political, historical and cultural contexts of contemporary poetry
646301	CO2- Identify and describe the techniques and styles employed in contemporary poetry
0.0001	CO3- Write analytically about contemporary poetry using correct terminology
	CO4- Effectively communicate ideas related to the poetic works during class and group activities
	Critical Theories
~	CO1- Be familiar with different approaches that can be used to study literature
646401	
	CO2- Develop the ability to read works of critical theory, and deploy ideas from these texts in their own reading and writin
	Postcolonial Studies
	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of post-colonialism
646501	CO2- Demonstrate an understanding of basic ideas and concepts in postcolonial theory
	CO3- Critically analyze texts from a postcolonial perspective
	CO4- Effectively communicate ideas related to the postcolonial writing during class and group activities
	Diaspora Studies
	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of diaspora
646601	CO2- Demonstrate an understanding of basic ideas and concepts in diaspora theory
	CO3- Critically analyze diasporic texts from several perspectives
	CO4- Effectively communicate ideas related to diaspora writing during class and group activities
	Life Writing
	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of life writing
665401	CO2- Demonstrate an understanding of basic ideas and concepts
	CO3- Critically analyze texts from different perspectives
	CO4- Effectively communicate ideas related to the paper during class and group activities
	B.A PSYCHOLOGY
	DC I General Psychology: Physiological Basis
145110	CO 1 : Acquire the basic concepts of psychology.
145110	CO 2 : Understand the relations of biological and psychological aspects of behaviour.
	CO 3 : Relate the fundamental principles of psychology to everyday life.
	CO 4 : Prepare themselves for further studies in psychology.
	DC II Developmental Psychology: Infancy to Middle Childhood
	CO 1 : Comprehend the basic concepts of Human Development processes.
145210	CO 2 : Demonstrating an ability to understand and distinguish major theoretical perspectives
145210	and methodological approaches in human development.
	CO 3 : Trace the different stages of development. CO 4 : Developing an ability to identify the milestones in diverse domains of human development across the age groups i.e.
	infancy to middle childhood. DC III General Psychology: Basic Cognitive Processes
	DC III General Psychology: Basic Cognitive Processes
245310	CO 1. Understand the phenomenon of learning memory thinking and attention
245310	CO 1 : Understand the phenomenon of learning, memory, thinking and attention
245310	CO 2. Relate the cognitive processes to everyday life.
245310	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood
245310	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood.
245310	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2. Understanding the contributions of socio-cultural context toward shaping human
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life.
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context.
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context. DC V Fundamentals of Social Psychology
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context. DC V Fundamentals of Social Psychology CO 1. Understand the fields of Social Psychology.
	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context. DC V Fundamentals of Social Psychology CO 1. Understand the fields of Social Psychology. CO 2. Understand the basic concepts and methods used in Social Psychology.
245410	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context. DC V Fundamentals of Social Psychology CO 1. Understand the fields of Social Psychology. CO 2. Understand the basic concepts and methods used in Social Psychology. CO 3. Learn the application of principles of Social Psychology in everyday life.
245410	CO 2. Relate the cognitive processes to everyday life. DC IV Developmental Psychology: Adolescence to Late Adulthood CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood. CO 2.Understanding the contributions of socio-cultural context toward shaping human development CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life. CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context. DC V Fundamentals of Social Psychology CO 1. Understand the fields of Social Psychology. CO 2. Understand the basic concepts and methods used in Social Psychology.

	CO 5. Understand Social Psychology from an Indian perspective.
	DC VI Personality Theories
345610	CO 1.Understand the concept of Personality and its components.
0.0010	CO 2. Gain insight to Personality as one of the important domains of understanding human behaviour.
	CO 3. Acquainted to various schools and theorizations of Personality
	DC VII Interpersonal and Group Processes
	CO: 1 Understand the factors responsible for reacting positively or negatively towards another person.
445710	CO 2: Developing an understanding pertaining to social influence processes particularly the influence of others on
445710	individual behaviour and performance.
	CO 3: Understanding of the philosophical and psychological basis of relational interconnectedness that exists between and
	among members.
	CO 4: Gain insight in understanding of factors affecting social processes.
	DC VIII Psychological Testing and Assessment CO 1.Understand the relevance of psychological tests in the field.
445810	CO 1. Onderstand the relevance of psychological tests in the field. CO 2. Develop the skills necessary to select and use tests.
443010	CO 2. Develop the skins necessary to select and use tests. CO 3. Grasp facts about measurement of aptitude, intelligence and assessment of personality.
	CO 4. Gain knowledge and understanding of the nature uses, and the process of construction of psychological tests.
	DC XI Experimental Psychology (Theory)
	CO1: Understand basic concepts of experimental psychology
	CO2:Understand experimental designs
545910	CO3:Develop the spirit of scientific inquiry in the students,
	CO4: Generate ideas for research, as well as develop hypotheses and
	CO5:Learn operational definitions for variables
	DC X Experimental Psychology (Practical)
	CO1:Understand the concept and procedure of psychology experiments
546010	CO2. Understand laboratory process and interaction
546010	CO3. Illustrate various Psychophysical Methods
	CO4. Demonstrate various types of learning
	CO5. Gain an insight into different psychological tests
	DC XI Fundamentals of Abnormal Psychology
	CO1. Understand the concept of Abnormality
	CO2. Compare and contrast the various theoretical perspectives of mental illnesses
546110	CO3. Learn some of the common mental disorders, their symptoms and causes in context with DSM
	CO4. Gain knowledge of legal issues in mental health
	CO 5. Developing a foundational knowledge of Clinical Psychology, its historical development and professional ethics.
	CO 5. Developing a foundational knowledge of Chinical Psychology, its instorical development and professional entres.
	DC XII Research Methodology and Statistics
	CO1. Gain understanding in research process in psychology
546210	CO2 . Examine characteristics, uses, applications and methods of calculations of the various measures.
	CO 3:: Gain understanding of the basic concepts in Statistics and the various measures of Descriptive Statistics
	DC XIII Cognitive Psychology (Theory)
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology
(4(2))	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes.
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life
646310	 CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking
646310	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical)
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4. Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes
646310 646410	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology.
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2: Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO1. Understand severe mental disorders, their symptoms and treatment
	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2: Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO1. Understand severe mental disorders, their symptoms and treatment CO2. Explain the various clusters of Personality disorders.
646410	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4. Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2: Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO1. Understand severe mental disorders, their symptoms and treatment CO2: Explain the various clusters of Personality disorders. CO3. Classify the different Cognitive disorders and Affective disorders
646410	C0 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology C0 2: - Gain understanding of different cognitive processes C0 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. C0 4. Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking C0 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) C01. Gain knowledge of Cognitive Processes C02. Examine the methodological practices involved in manipulating, controlling and measuring variable C03. Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. C04. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children C01. Understand severe mental disorders, their symptoms and treatment C02. Explain the various clusters of Personality disorders. C03. Classify the different Cognitive disorders and Affective disorders
646410	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO1. Understand severe mental disorders, their symptoms and treatment CO2. Explain the various clusters of Personality disorders. CO3. Classify the different Cognitive disorders and Affective disorders CO4. List the somatoform and dissociative disorders and their symptoms. CO5. Learn the various sexual dysfunction disorders, gender identity disorders and the paraphilias
646410	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4. Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2: Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO3: Lexify the different Cognitive disorders. CO3: Classify the different Cognitive disorders and Affective disorders CO4. List the somatoform and dissociative disorders, gender identity disorders and the paraphilias DC XVI Counselling Psychology
646410 646510	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology CO 2: - Gain understanding of different cognitive processes CO 3:Developing critical awareness about the classic and current experimental research relating to various cognitive processes. CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking CO 5- Apply the knowledge of the cognitive processes in everyday life DC XIV Cognitive Psychology (Practical) CO1. Gain knowledge of Cognitive Processes CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology. CO4. Understand the aspects of reporting experiments DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children CO1. Lunderstand severe mental disorders, their symptoms and treatment CO2. Explain the various clusters of Personality disorders. CO3. Classify the different Cognitive disorders and Affective disorders CO4. List the somatoform and dissociative disorders and Affective disorders CO4. List the somatoform and dissociative disorders and their symptoms. CO5. Learn the various sexual dysfunction disorders, gender identity disorders and the paraphilias DC XVI Counselling Psychology CO1. Gain In-depth understanding in the subject of Counselling psychology

345611	CO 2: Students will attain an insight into their unique culture institutions, problems and changes encountered by rural
	people.
	APC I Population and Society
365111	CO 1: Understanding for demographic features of India and world will develop.
	CO 2: Students will apply the knowledge measures to control the growing population.
	DC VII Women's Issues in India
445711	CO 1: Students get knowledge about specific issues and problems of women in general.
	CO 2: Students develop an understanding of the contemporary issues and the development for women in India.
	DC VIII Urban Society: Problems and Prospects
445811	CO 1: Students get an in- depth knowledge about urban life and society.
	CO 2: Helps in identifying the urban problems as a result of heterogenous culture and rapid urbanization.
	APC II Media, Culture and Society
465211	CO 1: Students get an overall understanding and knowledge of the current issues and problems faced by the society at la
	CO 2: Understand and relate the importance of mass media and its role in the development of the society.
	DC IX Classical Sociological Theorists
545011	CO 1: Helps students in understanding the sociological thoughts.
545911	CO 2: It introduces them to various thinkers, who contributed in developing classical theories.
	CO3: Develop the spirit of scientific inquiry in the students,
	DC X Social Anthropology
546011	CO1: it helps in getting insight into primitive life and culture of human society.
	CO2: Understands the process of growth and development of human society and culture.
	DC XI Crime and Deviance
546111	CO 1: Acquires knowledge about the changing profile of crime and criminals
	CO 2: Students are equipped with the legal knowledge and social norms to control crime and deviance.
	DC XII Industrial Sociology
546211	CO 1: It develops understanding of industrial process and change in production system and relations
JT0211	CO 2: Students learns about the concept of labour, union and law pertaining to them.
	CO 3: Exposed to new field for further studies and new job profile
	APC III Environment and Society
565311	CO1: Provides knowledge about the serious concerns and issues of environment
	CO 2: Equips them to protect the environment through sustainable development.
	DC XIII Contemporary Sociological Theorists
646311	CO 1: Students learn to analyse and form relations with different social facts and realities
	CO 2: It introduces them to various thinkers who contribute to contemporary theories
	DC XIV Methodology in Social Research
646411	CO 1: Students acquire in-depth knowledge to collect relevant data in an objective manner
646411	CO 2: Creates the nature of scientific inquiry in given social situations. CO 3: They get training in collecting relevant data, analyze, compile, the data and prepare report.

(46511	CO 1: Students attain knowledge about the various social movements, which takes place due to various issues and problems
646511	CO 2: learn about the roles of different social reformers and leaders to brought a change in society through various movements.
	DC XVI Sociology of Marginalized Group
646611	CO 1: Students are sensitized about the marginalised in society
	CO2: Students are equipped with laws, policies and procedures to combat the discrimination
	APC IV SOCIOLOGY OF TOURISM
665411	CO1: Students are provided with in-depth knowledge about tourism industry and its impact.
005411	CO2. They learn about the different avenues of employability through the emerging global tourism industry.
	B.A ECONOMICS
	DC-I Economy of Maharashtra
145106	CO 1: Students are able to understand the socio-economic problems faced by the state of Maharashtra.
	CO 2: Students are able to interpret the effects of policy decisions of the Maharashtra government.
145207	DC-II Principles of Economics
145206	CO 1: Students get a clear understanding of the basic economic terminology and concepts.
	CO 2: Students get knowledge of the underlying principles of modern economics.
245207	DC-III Marco level Problems in the Economy of Maharashtra
245306	CO 1: Students are able to analyse, critique policy measures taken by the government.
	CO 2: Students understand the micro economic problems of state of Maharashtra.
245406	DC-IV Basics of Money, Banking, International Trade and Public Finance
243400	CO 1: Students will be able to get a deeper meaning and understanding of the prevailing in the economic system. CO 2: Student develop ability to assess the role of money, banking and trade in economy.
	DC-V Sector-wise Features of Indian Economy
345506	CO 1 : Students are able to comprehend the underlying strategies for growth and progress in Indian economy.
545500	CO 2: Students are able to comprehend the underlying strategies for growth and progress in indian economy.
345606	DC-VI Theory of Value CO 1: Students can understand the micro concept of economic analysis.
545000	CO 2: Students develop the ability to understand consumers and producers' behaviour in the market.
	APC-I Entrepreneurship Development
365106	CO 1 : Students get knowledge and motivation for self employment.
505100	CO 2: Students get creative idea for start their business.
	DC-VII Problems and Policy in Indian Economy Since 1991
	CO 1 : Students are able to identify the problems facing the Indian economy and evaluate policies with respect to their
445706	expected outcomes.
	CO 2: Students become aware of the economic problems faced by Indian Economy.
	DC-VIII Distribution Of Welfare Economics
445806	CO 1 : Students will clear understand the micro concept economics analyses.
	CO 2: Students are equipped to critically analyze policy measures taken by the government.
	APC-II Economy of Labour
465206	CO 1: Students will understand the functioning of Labour market.
	CO 2: Students will get knowledge about wage determination in market.
	DC-IX Theory of Employment
545906	CO 1: Students are able to understand the dynamics of labour markets at macro level
	CO 2: Students are identify causes of unemployment especially amongst the women
	DC-X International Economics
546006	CO 1 : Students get a clear understanding of theories of international trade, policies related to trade and balance of payment problems
	CO 2: Students will be able be to appreciate the orle of trade in economic development.
	DC-XI Research Methodology in Economics
546106	CO 1 : Students will get an understanding of statistical concepts and functions and will be able to use data for reasoning
	CO 2: Students are able to use different research design in future research projects.
	CO 3: Students develop the ability to collect, process and analyse data using ICT
	DC-XII Banking and Financial Institution
546206	CO 1: Students learn about the functioning of the banks and financial institutions, money and capital markets.
	CO 2: Students are able to understand financial scenario of India
	APC-III Agriculture Economics
565306	CO 1: Students are able to understand the role of agriculture in Indian economy.
	CO 2: Students will be able to understand the policies needed for sustainable development in agriculture
	DC-XIII Business Cycle and Stabilization of Economy
	CO 1: Students are able to understand feature and function of trade cycle and its impact on economy
646306	CO 2: Students will get recognize the basic theoretical frame work underlying the field of macro economics
	CO 3: Students are able to identify the phases of trade cycle and relate it to real world.
	DC-XIV Economy of Development
646406	CO 1: Students are able to understand theories of growth and development.
646406	~ X

010100	CO 2: Students understand the significance of policies and their contribution in economic development.
	CO 3: Development theories in economics enable the students to understand the need for sustainable development
646506	DC-XV Statistical Techniques
646506	CO 1: Students will be able to able to use various statistical tools for data analysis.
	CO 2: Students are equipped to apply statistical tools to study economic problems.
	DC-XVI Public Finance
646606	CO 1 : Students will get insights into centre and state financial relation in India
	CO 2: Students will be able to get a clear understanding of public expenditure, public debt and public revenue and its
	effects in an economy
	B.A GUJARATI LITERATURE
	Gujarati DC I: Language Skill, Prose Format & Learning of selected short stories
	CO1. Students will understand use of language in writing skill & oral Presentation & it will strength their personality
145102	CO2. Students will learn innovation in language usage.
	CO 3. Students will develop ability to communication & express
	CO 4. Students will also gain knowledge of Gujarati Short Stories & its development with time changes
	Gujarati DC II: Skill of Translation and Translated Text
145202	CO1. Students will learn academic interdisciplinary dealing with the systematic study of the theory, description and
	application of translation.
	CO2. Students will learn comparing and Interpreting
	Gujarati DC III: Prose form and some selected poems
245302	CO: 1. Students will learn to recognize poetry from a variety of cultures, languages and historic periods.
2.0002	CO 2: Students will learn Understand and appreciate poetry as a literary art form.
	Gujarati DC IV: Loknatya Bhavai (Specific format of Loksahitya)
	CO1. Students will understand the form of cultural Drama format, also understand historic, cultural & social impact on
245402	Literature. CO2. Students will be familiar with oral tradition of Gujarati Literature
245402	
	CO3. Students will get knowledge of Lok Shikshan & its tools like Bhavai
	CO4. Students will also get knowledge about different tools Lok Shikshan
	CO5. Students also get an idea about social, historical & economical structure of society during the Era.
	Gujarati DC V: Modern Prose Text (Natak)

	Financial Accounting
	CO.1: To acquire conceptual knowledge of the financial accounting and impart skills for recording various kinds of
2001	business.
2001	CO.2. To learn and Prepare financial accounts for partnership firms in different situations of admission, retirement, death and insolvency of the partners, financial statements for partnership firm on dissolution of the firm.
	CO.3. To understand the concept of Piecemeal Distribution of Cash and Prepare the statement of Piecemeal Distribution of
	Cash as per Excess Capital Method and Maximum Loss Method including various adjustments.
	Skills of Business Communication
	CO.1: The learner will be able to State process, Importance, Method and Mode of effective Communication,
2002	CO.2. The learner will be able to Do organized presentation of business and financial matter both Factual/Informative and
2002	Descriptive/ Persuasive and State theories of Letter Writing and appearance of business letter
	CO.3. The learner will be able to Classify and compare different barriers to Communication Explain how to overcome
	barriers to Communication
	Quantitative Techniques
	CO.1: The learner will be able to Define terms population and sample in Statistics with examples, sources of primary and
	secondary data in surveys, use of null and alternative hypotheses in data analysis
2002	CO.2. The learner will be able to Explain Test hypotheses at appropriate levels of significance, different types of errors in
2003	testing of hypothesis, Apply Chi-Square test of goodness of fit for financial decisions CO.3. The learner will be able to Formulate graphic solution to Linear Programming Problems, Formulate simple solution
	Linear Programming Problems using maximization, minimization cases
	CO.4. The learner will be able to Explain different types of Interest, annuities, PV, NPV and IRR Depreciation of assets,
	Analyze and plan project by applying PERT and CPM
	Environment Studies
	CO.1: Learners will be able to understand the types, Use & overexploitation of Natural Resources & Ecosystem
2004	CO.1. Learners will be able to understand the types, Ose & overexploitation of Natural Resources & Leosystem
2004	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution
2004	
2004	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution
2004	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment
2004	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment
2004	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital
	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for
	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital
	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Management of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance
	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI)
2005	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI) Cost Accounting
	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI)
2005	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI) CO.1: Describe how cost accounting is used for decision making and performance evaluation CO.2. Students Summarize process cost accounting and prepare a process cost report
2005	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI) CO.1: Describe how cost accounting is used for decision making and performance evaluation CO.2. Students Summarize process cost accounting and prepare a process cost report Advanced Financial Accounting
2005	CO.2. Learner will be able to understand the Causes & effects, measures of controlling of Environmental Pollution CO.3. The learners will be able to understand environment through visit to local area Financial Market & Women Empowerment CO.1: The learner will be able to Explain Concepts of Indian and Global financial systems, financial services, Manageme of public issue and credit rating and Conceptual framework of insurance services, mutual funds and venture capital CO.2. The learner will be able to Explain Concept of Women Empowerment, microfinance, Government schemes for women empowerment and poverty alleviation through microfinance CO.3. The learner will be able to Explain Concept of women entrepreneurship, Government policies for women entrepreneurship development B.Com(AFI) CO.1: Describe how cost accounting is used for decision making and performance evaluation CO.2. Students Summarize process cost accounting and prepare a process cost report

	Principles and Practices of Insurance
341319	CO.1: Students will understand the regulatory environment in which the companies are formed and operate and have solid foundation in accounting and reporting requirements
	CO.2. Students will understand process of business planning.
	Business Economics-I
	CO.1: Learn economics in terms of business, describe the nature of economics in dealing with the issue of scarcity, perform
341419	supply and demand analysis to analyse the impact of economic events on markets, analyse the behaviour of consumers in
	terms of the demand for products. CO.2. Evaluate the factors affecting firm behaviour, such as production and costs, analyse the performance of firms under
	different market structures, understand the dynamics of how the markets work.
	Business Law (New) CO.1: Demonstrate an understanding of the Legal Environment of Business, Communicate effectively using standard
	business and legal terminology, demonstrate recognition of the requirement of the contract agreement, contract consideration
341519	and capacity.
	CO.2. Students will understand various provisions of company law and demonstrate the various analytical skills in case
	study analysis.
	Principles of Auditing
	CO.1: Students will understand the environment and types relating to the auditing function and identify the steps needed
441119	prepare for an audit.
	CO.2: Students will understand general audit terminology, plan an audit taking into account concepts of evidence, risk an
	materiality, know the steps for performing an audit, and apply audit practices to different nature of concerns.
	Corporate Accounting(New)
441219	CO.1: Students will understand the regulatory environment in which the companies are formed and operate and have a solid
111217	foundation in accounting and reporting requirements
	CO.2. Draft final accounts for manufacturing concerns, Banks and Insurance Companies.
	Life and Health Insurance (New)
441319	CO.1: Students will understand the importance of Life & Health Insurance and their importance in the growth of the
111319	country.
	CO.2. Students will be aware of different types of Life and Health Insurance Plans available in the market.
	Business Economics-II
	CO.1: This course will provide students with basic understanding of economic theory and analytical tools that can be used
441419	in decision making problems.
	CO.2. Students will learn to use economic models to isolate the relevant elements of a managerial problem, identify their
	relationships, and formulate them into a managerial model to which decision making tools can be applied.
	Business Finance & Women Empowerment in India
441519	CO.1: Students will be aware of different styles of presenting financial data into different financial statements.
111317	CO.2. Students will be empowered by using small and micro finance and work as entrepreneurs.
	Colar buildenis will be empowered by woning aniwh who micro mission who will be encopremented
	Financial Management
541119	CO.1: the students will be aware about the Sources and the Cost of the Funds for Investing in the Long Term Projects.
	CO.2. Students will be market ready for the various investment projects and different sources of finance.
541219	General Insurance
	CO.1: Students will be aware about the concepts and Policies involved in case of General Insurance.
	CO.2. Students will be demonstrate the various general insurances in view of the third party insurance.
	Statistical Theories and Business Application
	CO.1: understand basic statistical concepts such as statistical collection, statistical series, tabular and graphical
	representation of data, calculate measures of central tendency, dispersion and asymmetry, correlation and regression
541319	analysis.
	CO.2. Students will acquire knowledge to interpret the meaning of the calculated statistical indicators, choose a statistical method for solving practical problems, and predict values of strategic variables using regression and correlation analysis.
	include for sorring producting product values of strategic variables using regression and correlation dilarysis.
	Capital Markets
541419	CO.1: students will be aware about the financial environment and the role of capital market in capital formation.
541419	
541419	CO.1: students will be aware about the financial environment and the role of capital market in capital formation.

641119	practical and real life experience of working in business organization. CO.2. Students will be graduates with working experience in the business organisations. Taxation- (Direct Taxes) CO.1: Acquire the complete knowledge of basic concepts of income tax.
641119	
641119	
641119	contracture une complete knowledge of ousie concepts of meonie tax.
	CO.2. Identify and comply with the relevant provisions of the Income Tax Act as it relates to the income tax of individua
	Insurance business & foreign investment in India
641219	CO.1: Students will be aware of different agriculture insurances and the insurances related to the small farmers.
	CO.2. Students will be demonstrating the various agricultural insurances and their importance on the people engaged in
	primary sector.
	Quantitative Methods for Business
641319	CO.1: students will be familiarized with statistical quantitative techniques and tools for business applications.
	CO.2. Based on acquired knowledge to interpret the meaning of the calculated statistical indicators.
	Investment & Portfolio Management
641419	CO.1: Students will be introduced to the areas of security analysis and portfolio management and equipping them with learning basic tools and techniques for making profitable investment decisions.
	CO.2. students will be ready for taking future investment decisions.
	CO.2. students will be ready for taking future investment decisions.
	Internship-II
641519	CO.1: This will help the students to understand the concepts that they have learned and at the same time provide them the
	practical and real life experience of working in business organization.
	CO.2. Students will be graduates with working experience in the business organisations.
	BMS- 010 Principles Of management
1001	CO.1: The students will understand the basic management concepts
1001	CO.2. The students will know the working process of
	management in an organisation.
1002	Business Communication
1002	CO.1: The students will be able to understand the communication system in an organisation
	CO.2. The students will develop various writing skills like letter writing especially trade letters
	Financial Accounting
1003	CO.1: The students will understand the basic accounting concepts
	CO.2. The students will learn the accounting treatment for depreciation, and how to prepare financial statements.
1004	Principles Of Marketing
1004	CO.1:The students will gain knowledge of various marketing aspects and get an overview of it.
	CO.2. The students will learn Modern Marketing trends like E-Commerce
	Economics-I
1005	CO.1:The students will learn basic concepts of economics with respect to consumer behavior in the market
	CO.2. The students will learn cost concept and its perspective and gain an understanding of various market structures.
	Marketing Management
2001	CO.1:The students will learn various aspects of marketing
	CO.2. The students will gain knowledge of Marketing process
	Organizational Behaviour
2002	CO.1:Students will understand the working pattern of employees in an organization and the difference between groups a
2002	teams."
	CO. 2 : The students will understand the various situations in an organization and approaches to overcome them.
2002	Economics-II
2003	CO. 1 : The students will understand fundamentals of Macro Economics and National Income CO. 2 :The students will acquire knowledge of Economic stabilization policies
	Management Information System
2004	CO. 1 : The student will gain a broad understanding of the fundamentals of computers. CO.2 : The student will understand the practical use of computers in various business applications.

2005	CO.1: The students will understands the basic mathematical concepts and to apply mathematical concepts in management.
	CO.2: The students will understand Integration and its business application
3001	Business Laws CO.1:To students will learn the legal aspects of business and the meaning & concepts of contractual obligations, partnership, company law.
	CO.2. The students will learn negotiable instruments and ethical practices in Law.
	Cost and Management Accounting
3002	CO.1: The students will be able to appreciate the importance of maintaining cost record.
	CO.2. The students will be able to apply costing & management techniques for decision making.
	Human Resource Management
3003	CO.1: The student will have a clear understanding of the fundamental of the foundation of HRM, its need and various functions of HRM.
	CO.2. The students will learn various policies and ethical practise in HR
3004	Fundamentals of Production and Operations Management CO.1: To students will get aware about the techniques required for streamlining the production process.
5004	CO.1: To students will get aware about the techniques required for streamining the production process. CO.2.The students will learn various production - loading and scheduling techniques
	CO.2. The students will learn various production - toading and scheduling techniques
	Quantitative Techniques for Business
3005	CO.1: The students will get theoretical and practical knowledge of statistical tools
	CO.2. The students will learn implication of statistical tools.
	Strategic management
4001	CO.1: The students will be able to handle all areas of management from strategic point of view.
	CO.2: The students will able to learn how the strategies are formulated and implemented
	Financial Management
4002	CO. 1 : The students will able to apply financial techniques for effective management of long term and short term capital.
4002	CO.2. The students will be able demonstrate an understanding of the overall role and importance of the finance function.
	Consumer And Buying Behaviour
1000	CO. 1: The students will analyse the buying behaviour process and classify various factors motivating purchase behaviour.
4003	CO.2: The students will understand the importance of customer loyalty and ways to develop the loyalty amongst the customers.
	Quality Management
4004	CO.1: The students will learn the importance of quality management at the organizational level.
	CO.2. The students will gain a broad understanding of various techniques of maintaining quality of a product/service.
	Entrepreneurship Development & Digital Marketing
	CO.1: This subject will help students understand various skills required to be a good Entrepreneur and Identify and explore
4005	various government institutions available for providing aids to Entreneurship development.
	CO.2. It will also help understand the importance of Digital media in today's world and classify various platforms of digital media.
5011	Auditing and Taxation
5011	CO.1: The students will be able to ger an overview of the audit process. CO.2.The students will be able to learn insight of taxation provision, sections and deduction
5012	Banking & Financial Services CO.1:The students will gain a broad understanding about various financial services prevailing in India.
	CO.2. The students will learn about the working process of the financial services like mutual funds etc.
	Integrated marketing Communication
5021	CO.1: Enable the student to understand the dynamics of communication required from a marketing point of view
	CO.2: The students will develop various models of advertising Campaigns.
	Durand Management
	Brand Management
5022	CO.1: It will enable the students to gain broad understanding of branding as in important aspect of marketing management

	CO.2. The students will learn various techniques and strategies for branding
5021	Industrial Relations
5031	CO.1: Provide intensive theoretical and practical knowledge of IR and Trade Union CO.2. The students will learn about various means to maintain industrial relations
	Human Resource Development
5032	CO.1:The students analyse and learn various training and development strategies in the organization.
	CO.2: The students also understand the importance of Organizational change and identify various motivational strategies
	that help overcome the Resistance to change
	Advanced Quantitative Methods for Business
5005	CO.1: The students will be able to classify and understand hypothesis assumptions.
	CO.2: They will be able to classify sample testing.
	Security Analysis and Portfolio Management
6013	CO.1: The students will understand the concept of Investment, Portfolio & the Role of Portfolio Management and various
	types of investors. CO.2: The students will infer Market Theory & Portfolio Selection Model
	CO.2. The students will liner Market Theory & Portiono Selection Model
	Advance Financial Management
6014	CO.1: The student will be able to apply advanced financial techniques for effective management.
0014	CO.2: The students will infer the concepts of leverages, receivables management, Inventory management & mergers &
	acquisitions
	Internetional Duriness
	International Business CO. 1: The students will Summarize the International Business in the 21st Century and Legal Aspects of International
6023	Business.
	CO.2: The students will infer the International Business Environment in India.
	Retail Management CO.1: The students will infer the Challenges and Growth of retail in recent years, Future prospects of retailing in Indian
6024	Scenario.
	CO.2: the students will be able to classify Retail pricing policies & strategies.
	International HRM
6033	CO.1: The students will be able to undergo IHR Planning, Recruitment, Selection process.
	CO.2: The students will be able to Infer the Ethics in IHR and recent trends in Employee leasing, organizational politics, exist Policy and Practice.
	Talent Management
6034	CO.1: The students will infer and compare the Talent Management as practiced in leading organizations.
	CO.2: The students will be able to review and discuss existing organizational practices related to developing and managing Human Resources to achieve business strategies and objectives.
	Project
6005	CO.1: The students will Infer various Research methodology techniques used.
	CO.2: The students will be able to review and summarize the objectives of the organizations or Employees at Work Place.
	B. Design
	Drawing And Sketching
	CO1 - Draw landscape, portrait using shading/ colouring technique with specified tools, techniques and mediums.
1001	CO2 - Sketch motifs as an interpretation of natural, geometrical objects and further convert the min to abstract and stylize
	form.
	CO3 - Draw various technical steps involved in product development process.
	CO4 - Draw Object, perspective, still life and human figurative drawings. Environmental Studies
1000	CO1- Build awareness about physical environment and its components.
1002	CO2 - Gain Knowledge of natural resources and their types.
	CO3 - Develop the concept of ecology and its components.
	Fundamental Of Design
1003	CO1 - Apply the elements of design in apparel design.
1000	CO2 - Apply a principle of design in apparel design.
	CO3 - Justify the psychological, formal and symbolic qualities of elements and principle of design
	Communication Skills CO1 - Apply communication skills in different linguistic functions
1004	CO2 - Apply the skills related to listening reading, writing, and speaking

2001	History Of Art & Design CO1 - Express the influence of art & culture on the society as well as on fashion. CO2 - Express the contemporary art and its influence on fashion.
2001	CO2 - Express the contemporary art and its influence on fashion.
2001	
2001	Technical Drawing- Foundation CO1 - Draw technical drawing of design as specified.
	CO2 - Analyse technical and figurative drawing.
	Advance Design
	CO1 - Describe and apply various color theories in design.
2002	CO2 - Depict and identify colour characteristic in relation with color psychology.
	CO3 - Relate Elements and Principles of design in developing a product in respect with specific theme.
	Material Studies
2003	CO1 - Use and apply the different materials that create different approaches and feelings in the product.
	CO2 - Relate various materials and explore them to enhance and reward various products.
	Computers Application in Data Management and Presentation
2004	CO1 - Use the basic principles of computer hardware, software & other devices of computers.
	CO2 - Use word processor, spreadsheet sand presentation.
	Art Appreciation
2005	CO1 - Distinguish various Indian art and performing art forms in terms of its characteristics and features.
	CO2 - To be able to discuss the application of artforms in design.
	Fundamentals Of Illustration & Design Concept
	CO1 – Use the skill of draw to render garment on croquis
3101	CO2 - Apply the Concept of Design Process In product development
3101	CO3 - Illustrate basic garments.
	CO4 - Identify famous fashion illustrators for their induvial style and demonstrate individual stylized drawing inspired f
	them
	Introduction To Pattern Making (Flat and Draping)
3102	CO1 - Create drafting patterns for foundation for kids and adult's styles using flat pattern and draping method.
	CO2 - Draft flat patterns as well as on dress form for foundation styles in upper torso and skirts.
	Introduction To Textile
3103	CO1 - Recognize specified fibres, yarns, weaves., knits types, preparatory process and finishing process.
5105	CO2 - Apply the textiles in apparel in respect with function and aesthetics Show that textile forms the core of fashion the
	demands its appropriate application in technical and aesthetic form.
	History Of Fashion (Indian & Western) And Women's Studies
3104	CO1 - Trace the birth, evolution, decline, revival and most recent developments in Indian and western fashion.
	CO2 - Decode the fashion styles in accordance with specific era.
	CO3 - Interpret the demographic profile of women in India & the present situation in the status of women.
2105	Marketing And Merchandising
3105	CO1 - Apply concepts of marketing in fashion business.
	CO2 - Identify role of merchandiser and merchandising in garment industry.
	Basic Fashion Illustration & Design Concept
4101	CO1 - Illustrate the male fashion figure & rendering with different color mediums.
	CO2 - Demonstrate and render fashion garment components categories /styles designs.
	CO3 - Apply the design process to develop women's wear collection.
	Basic Pattern Making (Flat and Draping) CO1 - Draft components such as sleeves, collars-and style lines in women's wear using standard measurement, and usir
4102	flat-pattern and draping methods.
7102	
	CO2 - Create patterns and designs manipulating fabric using flat pattern and draping technic to draft chudidar and salwa
	Introduction To Garment Construction
	CO1 - Demonstrate sewing and construction skills using hand and machine stitches for different components of garmen
4103	like seams and seam finishes, pocket, plackets, openings and fasteners.
	CO2 - Stich the specified components of garments in men's and women's apparel as per industry requirements.
	Computer Aided Rendering Technique In Fashion
4104	CO1 - Use Raster Graphics software as a tool to represent and create visuals, using image editing and object creation.
	CO2 - Explain and use manipulation of Raster Graphics software.
	Principles Of Management
	CO1 - Explain the basic management concepts, applications & processes.
4105	CO2 -Explain the application in decision making, motivation terms such as leadership and communication for effective
	fashion business
	Advance Fashion Illustration & Design Concept
	CO1 – Illustrate the kids fashion figures
5101	CO2 - Render different fabrics and garments using different techniques.
5101	CO3 – Draw different apparel categories and components of garments in the form of flat drawings.
	CO4 - Illustrate kids & men's wear by implementing design development process

	CO1 - Create and produce advance patterns by flat and draping method for women's wear.
5102	CO2 - Prepare patterns by grading methods and layout and marker planning by manual and computerized methods used in
	Industry.
5102	Basic Garment Construction
5103	CO1 - Construct and demonstrate actual garments for women' wear with standard and customized measurement. CO2 - Construct and demonstrate various types of torso, salwar and Churidar.
	Craft Research And Design
5104	CO1 - Document the craft, its process and promotional activities.
5104	CO2 - Assist the crafts community to promote their craft for diversified consumers using visual communication techniques.
	Indian Textile And Embroideries
5105	CO1 – Explain the history and characteristic feature of the traditional textile crafts and embroideries of India.
5105	CO1 – Explain the instory and characteristic reature of the traditional textile crafts and enfoldenes of india.
	Computer Application In Fashion(2D)
	CO1 – Apply and demonstrate various type of textile weaves with the use of computer software.
6101	CO2 -Practice garment rendering using various tools for digital fabric, texture, Pattern of fabric and accessories creation in
	using CAD application.
	CO3 - Use fashion software that is specifically used indigital garment development. by industry.
	Industry Research Project
6102	CO1 - Describe the industry processes and identify the various departments in fashion industry.
	CO2 - Apply the research process to improve the industry processing's to obtain maximum profit.
(102	Advance Garment Construction
6103	CO1 - Construct garments with various specified style lines for specified garments of Men's and Women's Wear. CO2 – Create designs for customized clothing and mass category.
	Fashion Forecasting
6104	CO1 - Apply forecasting techniques to determine market demand to effectively interpret the same in design process.
0101	CO2 - Discuss the latest trends & technologies that affect the fashion forecast.
	Dyeing And Printing & Surface Ornamentation
	CO1 - Practice various specified surface ornamentation techniques on textiles as a value addition in the process of designing
6105	CO2 – Implement various dyeing and printing techniques used specifically for various fabrics.
	CO2 – Inferentiate various dying and printing teeningues used spectricity for various rabits. CO3 – Differentiate various techniques of surface ornamentation which can be used as per the specific requirement of the
	end product
	Creative Pattern Making (A)
7101	CO1 - Study, identify and analyse various fashion eras that influence today's fashion.
7101	CO2 - Explore different ISM's applied indifferent eras of history in clothing.
	CO3 - Depict the same to evaluate and understand costume design for contemporary movies and drama.
	Range Development (A)
7103	CO1 - Develop the range of Men's Wear / Women's Wear/Kid's Wear using design process guidelines, in the form of
	digital presentation Quality Assurance Management(A)
7104	CO1 - Explain the importance of quality at designing, merchandising, delivery and retailing point.
/101	CO2 - Identify the complexity of managing quality in apparel manufacturing from fibre, fabric to apparel
	Introduction To Entrepreneurship And IPR(C)
7105	CO1 - Apply the skills of Entrepreneurship in Small Business Management.
	CO2 - Explain the importance, process and tools of IPR in regards with fashion industry.
	Men's wear(A)
8111	CO1 - Evaluate the requirement of domestics as well as international brands through research for men's garments.
	CO2 Analystic come in developing a super ferror based on market second
	CO2 - Apply the same in developing a range for men's wear based on market research.
	CO2 - Apply the same in developing a range for men's wear based on market research. Women's wear(A)
8112	Women's wear(A) CO1 – Evaluate the requirement of domestics as well as international brands through research for women's garments.

	requirement.
0107	Internship
8107	CO1 - Inculcate fashion knowledge to gain expertise and proficiency in respective field under the guidance of variou fashion industries and experts.
	M.COM
	Management of Financial
	CO1: Understand the perspective of financial management function in an organization.
110051	CO 2. Identify the practices and policies, processes, techniques and theories used in the financial management.
	CO 3. Gain acquaintance on the types of cost of capital and Leverages in financial management. CO 4. Improve the ability to face problems relate to financial management through consistent
	approaches
	Strategic Management -
	CO 1. To enhance the ability of students to understand main concepts of business strategies, strategy formulation dynamic
	business environment.
110052	CO 2. To enable the learners to understand new forms of Strategic Management concepts and
	their use in business.
	CO 3. To enhance decision making abilities of students in situations of uncertainty
	Corporate Accounting
	CO 1: To facilitate the students to have detailed understanding of Accounting for Group Companies including Holding
110053	more than one subsidiary
	CO 2: Analysis of financial statements with Accounting Ratios.
	CO 3: Internal and External Reconstruction of Companies
	Economic Environment of Business
110054	1) To Know and understand the changing environment of India's economy
	2) To study macro policy changes of India since 1991
	Basics of Accounting
	CO 1: Provide basic knowledge of various disciplines of accounting to the students
110055	CO 2. : Understand the principles, conventions and system of financial accounting.
	CO 3 : Make the students to understand the accounting process and procedure
	CO 4: Improve the ability to prepare the Job cost sheet and to analyse the financial statements.
	Business and Economic Policies of India -
210051	CO 1: To Understand the Policy changes introduced by the government of the India in recent years to prepare the Ind
	economy to face challenges of the globalizing world
	Accounting for Manager
210052	CO 1: To provide knowledge on cost accounting practices and management accounting at advanced level.
	CO 2: To equip the students with the knowledge of managerial decision making.
	Research Methodology -
210053	CO 1. To develop the awareness of research in social sciences among M. Com. Students.
	CO 2. To make the students to understand various components of Research Methodology.
	Consumer Behaviour
210054	CO 1: To make the students aware about consumer behaviour.
	CO 2 : To develop understanding about various concept related to consumerism.
210055	Retail Banking Operation
210033	CO 1 : To provide an introduction to retail banking services and trends in present day Retail Banking.
	International Marketing
	CO 1. To enable students to understand and to get an insight into Marketing and the environment
310051	CO 2. To enable students to understand and to get an insight into Market selection process and market strategies
	CO 3: I To enable students to understand and to get an insight into International market promotion and quality control.
	Research Project – I
330051	CO 1. The learner will be able to outline various components of Research Methodology
	CO 2.The learner will be able to identify research methodology for her research topic.
	Research Project – II
330052	CO 1. The learner will be able to outline various components of Research Methodology
	CO 2. The learner will be able to identify research methodology for her research topic.
	Advanced Financial Accounting Paper I –
	CO 1: To lay a theoretical foundation of IFRSs and Accounting in computerized Environment.
320651	CO 2 : To gain ability to solve problems relating to accounts of Insurance companies and special types of situations.
	CO 3: To gain ability to solve problems relating to accounts of Insurance companies and special types of situations.
	Advanced Cost & Management Accounting Paper I
320652	CO1: To provide adequate knowledge on methods of Financial Analysis.
520052	
	CO 2: To provide knowledge on Cost and Audit practices
	Talent Management and Reward System
	CO 1.Understanding need and importance of talent management and its relationship with compensation practices, strate

	CO 2: Being able to institute talent management system that ensures identification, management and development of talen
	portfolio that accelerates performance improvements
	Marketing of Financial services
410005	CO 1. To introduce students to concept and importance of financial services.
	CO 2. To acquaint students about working of factoring, forfeiting.
	CO 3. To make students of credit rating in India. Internship – I
440051	CO 1. Learners will be able to recall and develop original working knowledge of industry.
110051	CO 2. Learner will be able to evaluate and improve their individual learning goals and activities assigned to them.
	Internship -II
440052	CO 1: Learners will be able to recall and develop original working knowledge of industry.
	CO 2: Learner will be able to evaluate and improve their individual learning goals and activities assigned to them.
	Advanced Financial Accounting Paper II
420653	
120000	CO 1: To lay a theoretical foundation of Indian and Global Accounting Standards.
	CO 2: To gain ability to solve problems relating to accounts of Nonprofit organizations and special types of situations
100/51	Advanced Cost & Management Accounting Paper II
420654	CO 1: To provide knowledge on cost accounting practices at advanced level.
	CO 2.: To equip the students with the knowledge of special areas of Accounting and Auditing
	Leadership Skills and Change Management –
	CO 1: Define and compare the differences between leadership and management.
420353	CO 2: Assess, analyse and discuss one's own leadership abilities, attributes and foundation for leading. CO 3: Examine the leader's role as it relates to bringing about constructive change to an organization.
	CO 3: Examine the leader's role as it relates to bringing about constructive change to an organization.
	CO 5: Evaluate and discuss change management efforts related to one's own organization and/ or team
	Key People Management, Retention and Human Resource Audit
	CO 1:Learning to identify key people and developing them for organizational growth.
420354	CO 2:Understanding the importance of retention and developing the ability of creating retention strategies for stability and
	growth.
	CO 3: To study the concept and methodology of HR audit in the organization and determine the excellence
	M.A PSYCHOLOGY
	Cognitive Processes
	CO1 : Developing an understanding of cognitive psychology applications in the area of technology.
110501	CO 2: Developing an appreciation of how cognitive psychology principles can be applied to real life settings and to
110501	understand the nature and scope of Applied Cognitive Psychology.
	CO 3: Applying the knowledge of cognitive processes to one's own personal life and to real life issues.
	CO 4: Appreciating the role of individual differences, and sociocultural factors in cognitive functioning.
	Research Methodology

110503	Research Methodology CO 1: Understand research methodology as a process & Able to develop a research plan and write the research report. CO 2: Understanding the various research paradigms such as positivist, interpretivist/Constructivist, Critical and Feminist CO 3: Developing knowledge of the ethical and legal issues involved in the research CO 4: Developing a basic knowledge of how to carry out quantitative research with an emphasis on survey research, correlational and experimental CO 5: Knowing how to carry out qualitative inquiry CO 6: Awareness of the basic features of various types of research undertaken with human beings and understanding of the use of basic terminology used in human research. Psychological Testing CO 1: Understand the Basics of psychological testing & its various types CO 1: Understand the major contexts of test use in Educational testing, occupational testing, and in clinical and counseling Psychology. CO 3: Understand the major contexts of test use in Educational testing, occupational testing, and in clinical and counseling Psychology. CO 5: Developing knowledge to effectively evaluate the appropriateness and quality of psychological tests and their psychometric strengths and weaknesses CO 1: Understand the major contexts of test use in Educational testing, occupational testing, and in clinical and counseling Psychology.

	CO 1: Aware of the need for Psychological assessment.
110504	CO 2: Understand administration, scoring and interpretation of psychological test
	CO3: Develop skills for using different psychological tests.
	and perspectives.
	Neurocognition
210501	CO 1: Appreciating the biological bases of human behaviour including neural, biochemical, and genetic mechanisms CO 2: Gain basic understanding of fundamental relationship between brain and behavior.
210501	CO 3: Understanding biological mechanisms involved in psychological processes such as attention, memory, and executiv
	functioning.
	Application of Statistics in Psychology
	CO 1: Understanding the nature of measurement and its various levels
210502	CO 2: Developing skills to use quantitative techniques such as measures of central tendency, variability, and correlation.
210502	
	CO 3: Knowing how to use the normal probability curve as a model in scientific theory CO 4: Grasping concepts related to hypothesis testing and developing related computational skills
	CO 5: Learning techniques and use of descriptive and inferential statistics (parametric as well as non-parametric).
	Positive Psychology
	CO 1: gain better understanding of the emerging field of positive psychology
	CO 2: Appreciating and understanding the meaning and conceptual approaches to happiness
	and well-being.
210701	CO 3: Being able to locate the diversity in the experiences of happiness with individual's life span and across different
210701	domains. CO 4. Learning the continue of the section of the section of the sitist the section of
	CO 4: Learning the various pathways through which positive emotions and positive traits contribute to happiness and well being
	being
	CO 5: Being able to identify the key virtues and character strengths which facilitate happiness and well-being.
	Applied Social Psychology
210503	CO 1: Gain insight to the recent developments in Applied Social Psychology CO 2: Understanding the key issues and theoretical concepts related to health, criminal justice, culture diversity, media,
210505	industry and environment
	CO 3: Gain Knowledge in engaging activities to promote positive change
	Psychological Practical-Experiments
210504	CO 1: Gain familiarity in different areas of experimentation in field of Cognitive Processess.
210504	CO 2: Gain hands on experience for developing experimental designs
	CO 3: Gain experience in report writing while comparing and contrasting old and new studies
	Psychology of Adjustment
310531	CO 1: Understand mental health as a concept & enhancing positive mental health and wellbeing CO 2: Gain familiarity with various maladaptive behaviors across life span
510551	CO 2: Gain insight in understanding the cause and effects of specific problems
	CO 4: Understand the role of developing community out reach program to sensitize others
	Assessment in Counseling Psychology
	CO 1: Gain understanding to the role of assessment in counseling
	CO 2: Gain understanding to basic assessment & behvaioral assessment
310532	CO 3: Develop understanding of assessment for various populations- infant , child and adolescent, adult and geriatric ,
	differently abled groups
	CO 4: Gain familiarity in areas of intelligence, personality, creativity, interest, aptitude and learning disability assessmen
	Intervention Strategies CO 1: Gain understanding in the concept of counseling, its historical background & its application
	Co 2: Acquiring basic counselling skills of problem identification, and relationship building
	CO 3: Developing qualities of an effective counsellor including increasing self-awareness, reflexivity, self-monitoring and
310533	objectivity.
	CO 4: Developing proficiencies to assist professional counsellors during intake interviews.
	CO 5: Demonstrating skills of helping clients using relaxation, reducing negative/maladaptive self-talk, and also learn ski
	of terminating the counselling
	relationship
	Orientation to Practicum in Counselling Psychology
	CO 1: Ability to integrate theory into practice through the process of action, & reflection CO 2: Understand the role of professional counsellor pertaining to various issues and various settings.
310534	CO 2: Understand the process of diagnosis and its importance in counselling
510551	CO 4: Understand the counselling process in the field.
	CO 5: Understand and develop counselling interventions
	Psychopathology I: Adult & Geriatric
310511	CO 1: Gain understanding to the major psychological disorders pertaining to adult & geriatric
510511	CO 2: Understand current trends & changing issues in adult & geriatric psychopathology
	CO 3: Critically review their signs and symptoms and suggest intervention techniques based on DSM
