## A TALK ON 'SOLID WASTE MANAGEMENT

A talk by Mr. Arun Pawar, BMC, was organized for the parents of F.Y. BA, B.Com., BMS, B.Com. (AFI), B.Design by PTA explaining the importance of segregation, compost making etc.

**YASHRAJ DRY WASTE MANAGEMENT CENTER, ANDHERI (W)**  
**MANIBEN NANAVATI WOMEN'S COLLEGE**

**DEPT OF COMMERCE**

**ACTIVITY REPORT**

**YEAR: 2019-2020**

NAME OF THE ACTIVITY: Industrial Visit to Aakar (Yashraj) Dry Waste Centre.

DD/MM/YY: 8th December, 2019.

NAME OF FACULTY: Prof. Sunita Sharma.

NO OF STUDENTS: 18 students.

VENUE: Malad, Mumbai.

TARGET GROUP: T.Y.B.Com

Time:

Details: Department of Commerce organized a visit to Aakar (Yashraj) Dry Waste Centre, where the students were made aware of how they provide end-to-end waste management services based on the principles of circular economy. They also gave an idea to the students of how they handle waste sustainably & responsibly for MNCs, tech parks, residential communities and other bulk generating organizations and institutions. Students were shown a Demo of the waste management process that takes place at their organization.

During the visit students were shown the process of segregation, crushing and packing of the waste material collected.

**BEACH CLEANING DRIVE AT JUHU BEACH NSS UNIT, ROTARY CLUB OF BOMBAY AIRPORT**

23 NSS volunteers during NSS camp done as part of Shramdan was conducted on 21st December 2019

## TREE PLANTATION

Tree plantation drive was organized on the occasion of International Day of Forests by NSS unit in collaboration with mission Green Mumbai

## **JUHU BEACH CLEAN-UP DRIVE**

**MANIBEN NANAVATI WOMEN'S COLLEGE: NSS UNIT IN  
COLLABORATION WITH MISSION GREEN MUMBAI & MINISTRY OF JAL  
SHAKTI**

## **JUHU BEACH CLEAN-UP DRIVE**

**10TH SEPTEMBER 2022**

**TARGET GROUP:** UG students

**NAME OF THE FACULTY :** Ms. Purna Ramteke & Dr. Shefali Jain

**NO. OF STUDENTS:** 23

**SPEAKER/ RESOURCE PERSON:** - Mission Green Mumbai & Ministry of Jal Shakti

**VENUE :** Juhu beach

**TIME :** 8.00 am - 10.00am

**OBJECTIVES:** To spread awareness on environment and cleanliness. To save the beaches & keep them clean.

**METHODOLOGY :** Participative

**OVERVIEW:** As a part of Mumbai's biggest Clean up Drive Post Ganpati Visarjan at Juhu beach was organised by the Ministry of Jal Shakti under Mission Green Mumbai initiative, undergraduate students of Maniben Nanavati Women's College participated in this drive. They went to Juhu beach and became a part of this initiative; they helped the organisation in cleaning the beach post visarjan. The drive took place on 10th September and 23 students participated in the clean up drive.

**OUTCOME:** Students got aware about environmental deterioration and learned to keep the environment clean

# 10TH SEPTEMBER 2022

**CLEAN A THON (BEACH CLEAN DRIVE)**  
**MANIBEN NANAVATI WOMEN'S COLLEGE:**

**NSS UNIT**

**2<sup>nd</sup> OCTOBER 2022**

**NO. OF STUDENTS-** 02 Rotaractors

**OBJECTIVES:** To bring awareness among the young generation of cleaning the beach and protecting it from being polluted.

**OVERVIEW:** This was a collaboration project with Rotaract Club of Mumbai. The mega Clean A Thon project was started sharp at 9:00 am by the speeches given by Asif Bhamla and Saher Bhamla stating the importance of Gandhi Jayanti and the thought process which Mahatma Gandhi Ji had for the Change and Cleanliness of the Society. The importance of cleanliness and the need to perform such roles in the modern society has been seen as a need of an hour considering the weather conditions, global warming, pollution which is choking the livelihood of numerous human beings, animals and marine species. The guest for the project were Mr. Vishwas Nangre Patil Ji - IPS officer & Joint Commissioner of Police Mumbai City, Shantanu Mukherjee (Singer Shaan), Jannat Zubair (Indian TV Actress), Influencers such as Umar Riaz, Faizu, Rajiv Adatia and many more who spoke about the importance of keeping Mumbai clean and beautiful. The project has multiple collaborations from schools and colleges, Rotaract Clubs and other institutions of Mumbai.

**OUTCOME:** This event cleaning the beach possibly made us successfully clean the Carter Road Beach and the entrance part of the mangroves by collecting the plastic materials, non degradable waste and other garbage. This project has been a grand success just because of the team work. students were able to share their contacts and have made precious relationships which is an essential element towards networking.

# CLEAN A THON (BEACH CLEAN DRIVE)

2<sup>nd</sup> OCTOBER 2022

**MANIBEN NANAVATI WOMEN'S COLLEGE: NSS Unit**

**YOUTH RED CROSS**

**13<sup>th</sup> NOVEMBER 2022**

**NAME OF THE ACTIVITY :** Beach Cleaning Drive

**TARGET GROUP:** YRC student members

**NAME OF FACULTY:** Ms. Aaliya Sayed

**NO. OF STUDENTS:** 7 Students

**VENUE :** Girgaon Chowpatty, Mumbai

**TIME :** 7:30 am - 9:30 am

**OBJECTIVES** To involve the students in community service and participate in environment-driven initiatives.

**OVERVIEW:** On 13th November 2023, the student members of the Youth Red Cross club of Maniben Nanavati Women's College under the NSS Unit volunteered for the Beach Cleaning Drive organized by the Youth Red Cross, Maharashtra. 7 students were taken to the beach at Girgaon Chowpatty under the supervision of Ms Aaliya Sayed.

The project was an initiative of the Change Is Us organization. Gloves and other equipment required to clean the beach were given to the students. The students unearthed some idols while cleaning. Food was given out at the end of the drive. Students from various schools and colleges from across Mumbai joined the drive. The major objective was to make the pupils aware of the significance of keeping the ecosystem clean and refraining from using plastic and making everyone around them aware of the same.

**OUTCOME:** The students learned the importance of cutting back on plastic usage and properly disposing of it thanks to this cleanliness drive.

## INTRODUCTION:

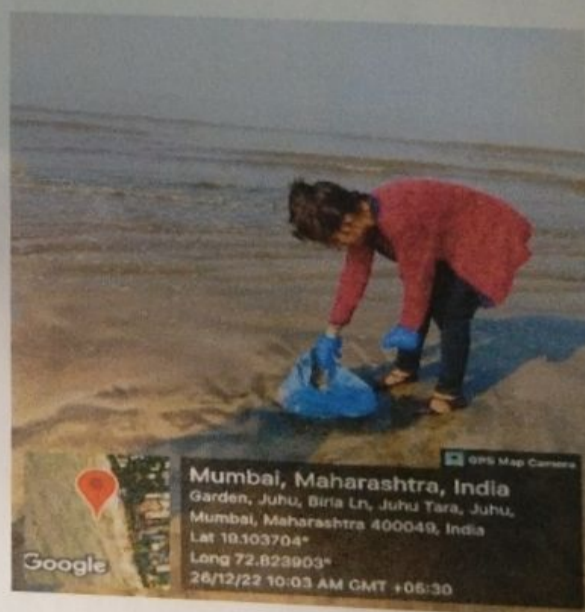

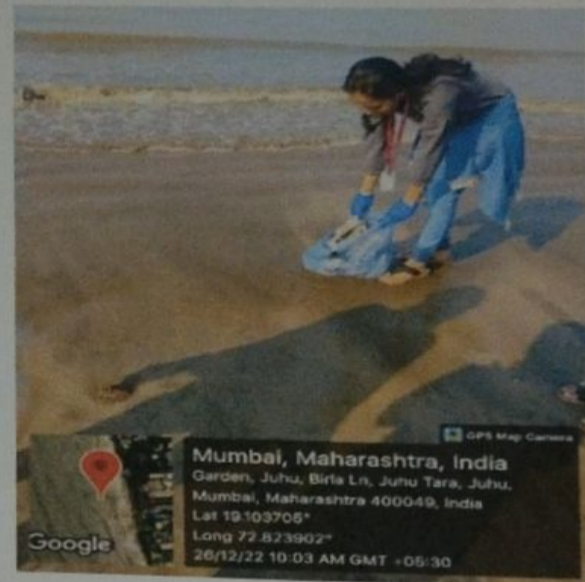

Cleanliness is a vital way to live a healthy life. Number of people visit beach every day. As beaches our Maharashtra's pride, so we have to conserve/keep it clean. So, we selected the topic of cleaning. We cleaned many places like Juhu beach, market, garden and other places. We started cleaning the beach, roads, gardens, and then market. The cleaning is the process of removing solid litter, plastic glasses, plastic plates, etc. We cleaning we also explained the people to ban plastic. We also told them to keep the environment clean. There are number of volunteers from different College's, University's and NGO'S, who comes to clean different areas. People comes to different places and create waste, due to that many ecosystems are affected, and our life is also getting affected by this.

They prevent rough, broken bit and pieces of stone, wood, glass, etc., from flowing back into the ocean. By cleaning the beaches, we can protect marine life from harmful effects of waste. Marine life often suffers from the harmful effects of pollution. Garden is a place where people of different age groups come to spend time. So, it is equally important to keep the garden clean to avoid spread of diseases and protect plants from the litter. People should throw garbage waste in the dustbin located in the gardens, on the roads, etc. As we often see the roads and market are littered with wrapper, plastic bottles, cups etc. Many times, leftover food is thrown in plastic bags on the roads which the animals mistakes as food and try to eat it. This can effect their health. So kindly throw the dustbin provided on the streets.

## Day 1: Beach Cleaning

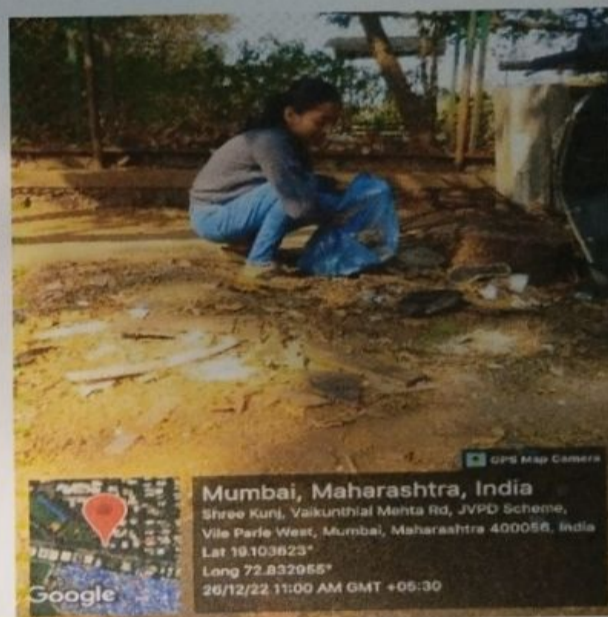

On 26<sup>th</sup> December 2022, we started our cleaning project with beach cleaning. We all were excited to start our cleaning project. We all helped each other to clean the beach. We clean Vile Parle Area beach. We told those people who were throwing waste here and there that throw it in dustbin. If we throw waste here and there then it may spread infection when small children come and plays with sand. It will also be harmful for marine life when this waste will go inside the sea.

## Road Cleaning

On 26<sup>th</sup> December 2022, we went to Vaikunthlal Road, JVPD Scheme, in Vile Parle. We did this cleaning activity on road. It is observed that people throw all the litter on road like plastic bottles, plastic bags, chips wrappers, and dry leaves, etc. We took the initiative of cleaning the street. We gave the message to people that they should not throw garbage on the road. It leads to bad smell in the area or road.

## Garden Cleaning

On 26<sup>th</sup> December 2022, we went to Ishvarbhai park of Vile Parle (West). We did this activity in morning. In Garden we saw people throwing waste like plastic bottles, wrappers, etc. On the plants, which is not good for plants. We cleaned garden. We told people present in the garden that never throw in the garden. Throwing waste can be harmful for us. To avoid spread of disease we have to protect plants. It can be harmful for plants too.

## DAY 2: Market Cleaning

On 11<sup>th</sup> March 2023, we went in market area of Vile Parle (West). For cleaning we did this activity in the morning. All of us brought different materials, like Garbage bags, Plastic gloves, masks etc. We found waste like plastic cup, some leafy vegetables, papers, plastic, etc. We picked up all the garbage around the market. Some vendors of the market also started cleaning with us. In conclusion we would like to say that there is no shame in making our environment clean. We felled so proud of ourselves.

## EXPERIENCE:

Vallari Mehta: Being the part of the cleaning project, I got to learn that even after so many awareness drives, our PM spreading the word SWACHH BHARAT ABHIYAN, still I found garbage on beaches, gardens, roads, markets, etc. As a group project we cleaned few places and spread the awareness of disposing the waste properly, among those people who were throwing waste in those areas.

Anita Jethwa: My experience on our project of cleaning up beaches and market area was amazing. Through this I came to know the importance of cleaning and keeping our earth safe. We cleaned up the beaches. From this we came to know there is known awareness among the people. People should keep their areas and beaches clean. I feel there should be awareness about cleanliness among the people. We should avoid the use of plastic bags. Instead we should use cloth bags which can be safe for the environment.

Reena Popatiya: It was very amazing experience and I feel proud to get the opportunity from this session. I came to know why our National father Mahatma Gandhi says to clean India. I also learned to avoid the use of plastic bottles, wrappers, etc. and I also gave instructions to others to clean everyplace around us because cleanliness is next to godliness.

Jinal Prajapati: This was the first time I had ever done a cleaning project so I was really excited to do this because I like to try new things and do something out of the ordinary. When I was cleaning, I found a lot of stuff that shouldn't belong at such places. I picked up a lot of sticks, feathers, candy wrappers, straws, pieces of plastic cups. When I picked up all this trash, I was really happy because I felt like I was making a difference and helping the surrounding to be clean and that's the

way it should be. I really had a lot of fun. I was glad to be a part of this activity. It was a great opportunity for me.

Suchi Luhar: My experience on beach cleaning was amazing. I came to know that what should be my responsibilities towards cleanliness of surroundings and areas. We cleaned the beaches and market areas. There was a lot of dust and leaves we threw the scattered leaves in the garbage bag. We also cleaned the garden. I learned that we should keep our area and surroundings clean.

# -----INTRODUCTION-----

- We the student of Maniben Nanavati Womens College conducted a rally on 22<sup>nd</sup> January 2023 and 05<sup>th</sup> March 2023. As we were the part of our EVS project and we had taken the topic SAVE THE EARTH to spread the awareness on the harmful use of plastic bags.

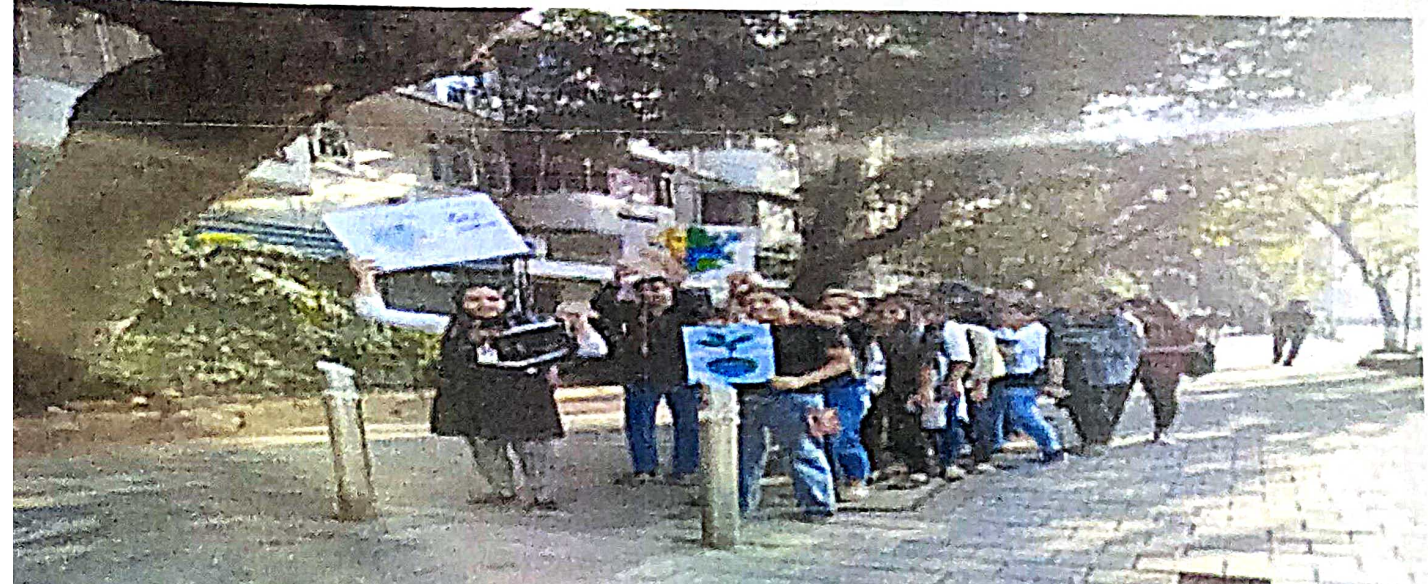

## **(DAY 1) 22<sup>ND</sup> JANUARY 2023**

- We all first assembled in the college Vile Parle(w) in morning 7:00 a.m then we started our journey to the Churchgate from train. We reached aprox at 7:45 a.m and we marched our first rally at Veer Nariman Rd,Churchgate .
- We covered the major streets of the town and perform at more 4 places... that is some more far distance of Netaji Subhash Chandra Bose Rd, Churchgate, Mount Mary Bandra (w), Girgaon .
- At last we reached at college after march at 3 p.m

## **(DAY 2) 05<sup>TH</sup> MARCH 2023**

- We all first assembled in the college Vile Parle(w) in afternoon 3 p.m then we started our journey to

Juhu Beach by auto. We reached at 3.30 p.m and wee marched our rally at Juhu beach .

- We covered many spot at the beach
- We reached back at the college at 7.15 a.m

(Day 2)05<sup>th</sup> MARCH 2023

We marched in the perfect formation carrying poster and banners. The leading student shouted the slogans and the rest repeated after them in unison. We are thoroughly guiding each other and supporting in all form. It was the huge splendid spectacle to watch the huge procession of us. Many of the people appreciated for our hardwork towards the changing the environment. This rally made public aware that throwing plastic product here and there pollute the soil. And keep the environment clean. As we enjoyed a lot , we get to know many things about the environment through the public reporting. We were quite proud to show our performance to the people. That we are the students of Maniben Nanavati Womens College.

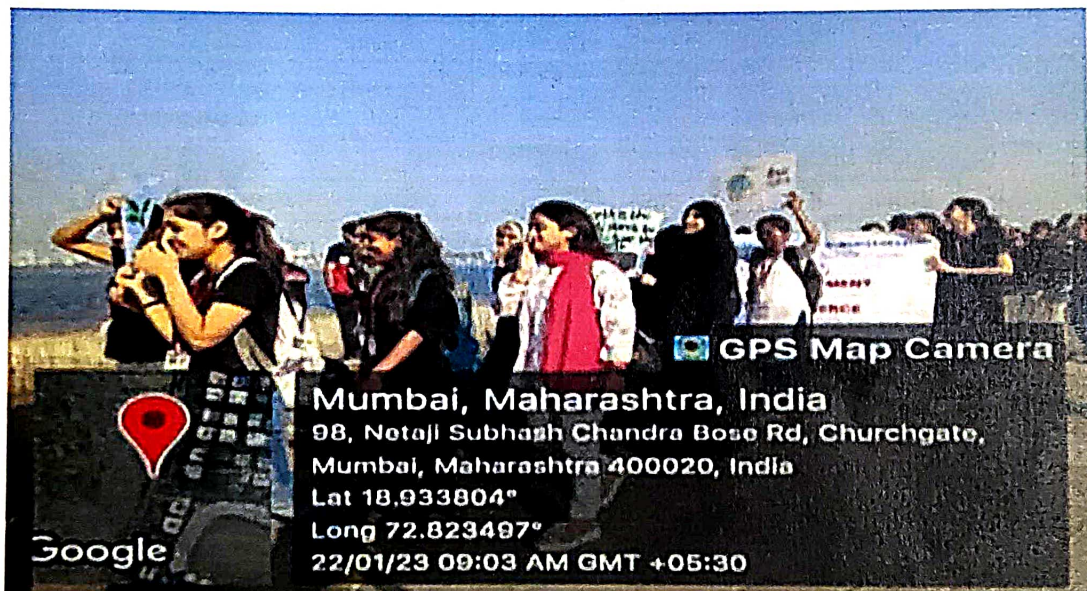

We all first assembled in the college Vile Parle(w) in afternoon 3 p.m then we started our journey to Juhu Beach by auto. We reached at 3.30 pm and we marched our rally at Juhu beach .

We covered many spot at the beach

We reached back at the college at 7.15 am.

Many questions where asked related to our rally project , and related to our change in environment

2<sup>nd</sup> Rally at Netaji Subhash Chandra Bose Rd, Churchgate.

3<sup>rd</sup> Rally at Mount Mary Bandra(w)

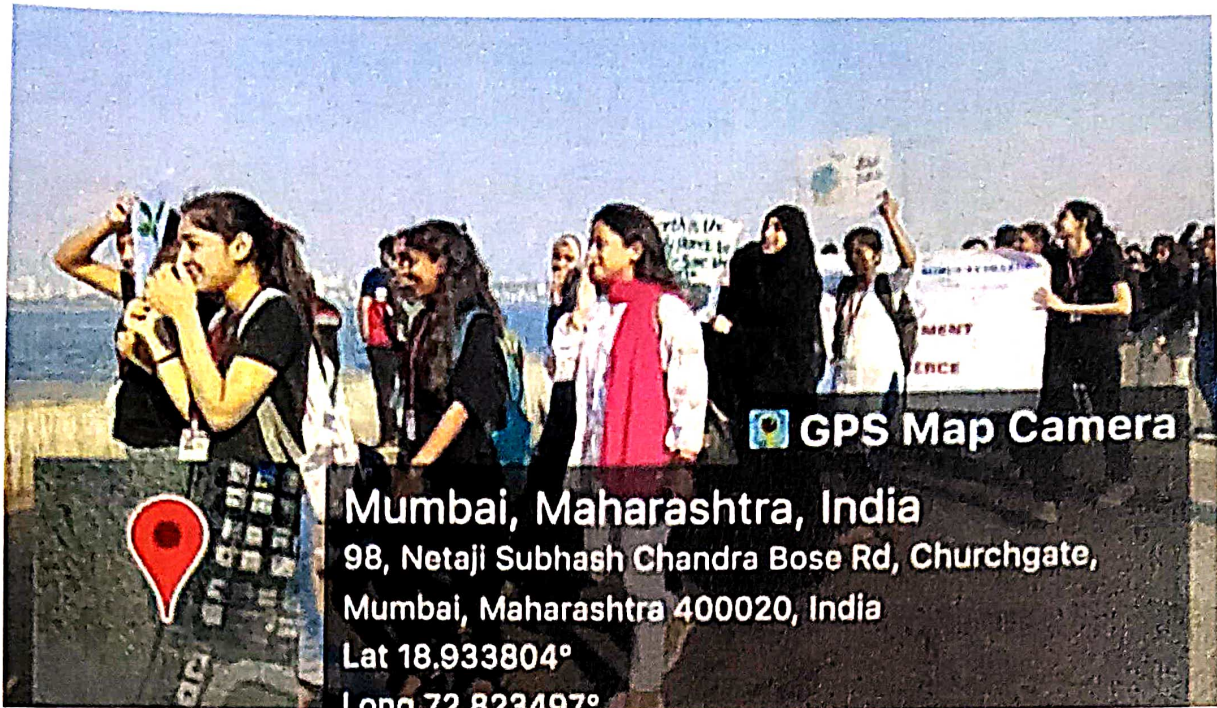

4<sup>th</sup> Rally at Juhu Tara [BEACH]

EXPERIENCE: From the first day we had been doing team work and co-operating with everyone. We got to know many sides of the daily life that we were ignorant to many things , we got to know many things and we gather many knowledge regarding the nature. Before many of the people was avoiding with our work then when we started the rally many of them supported and even walk with the few steps.

**Conclusion:-** A green and clean atmosphere is important to live a peaceful and healthy life.

We must stop and avoid using poly and plastic bags and prefer eco-friendly item to save the atmosphere.

We can easily save our environment for the next generation in several ways by accepting and adopting a simple lifestyle.

Promote digital technology will save more papers that are made from natural resources like wood, water reasources , forest resources etc.

We can reduce our use of natural resources by cutting down on the use of plastic and paper bags or materials for packaging.

We can reuse paper boxes as storage boxes or plastic bottles as containers.

### Feedback

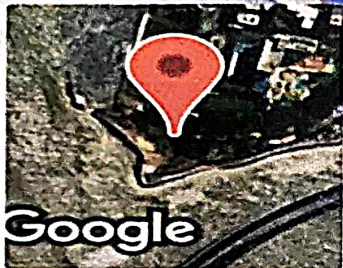

We came to know environmental problems that affect day to day life .we really enjoyed this phase we like to spread the knowledge about environmental issues ,we learn about importance of water reaources, forest resources,air resources etc

We learned three rules that is reuse,reduce,and recycle

## INTRODUCTION

- We are the student of Maniben Nanavati women's college conducted a paper bags distribution. On 21<sup>st</sup> JAN 2023, on the occasion of our EVS project we had taken the topic 'SAVE THE ENVIRONMENT'.
- We took 10 days to complete our paper bag as we contributed the work simultaneously among us.
- We all first assembled in the college, at 8:30 am then we started our journey through train to ANDHERI Station.
- We have made all size of bags so that it will be used by all types shopkeepers like medical purpose, vendors use etc.
- We marched in the perfect formation carrying posters and banners.
- We have confessed many of the vendors for taking our paper bags.
- We have been asked many questions related to project, and related to changing the environment.
- We made the people aware by using of plastic bag and aware of throwing plastic here and there which pollute the soil.
- Then we came back to VILE PARLE station.
- It was a huge splendid spectacle to watch the procession of use.
- Many of the people appreciated our hard work towards changing the environment through our mini steps.
- As we enjoyed a lot, we get know many more things about the environment through public reporting.
- As we were quite proud to show our effort towards the nature and proud to say we are the student of, Maniben Nanavati Women's College.

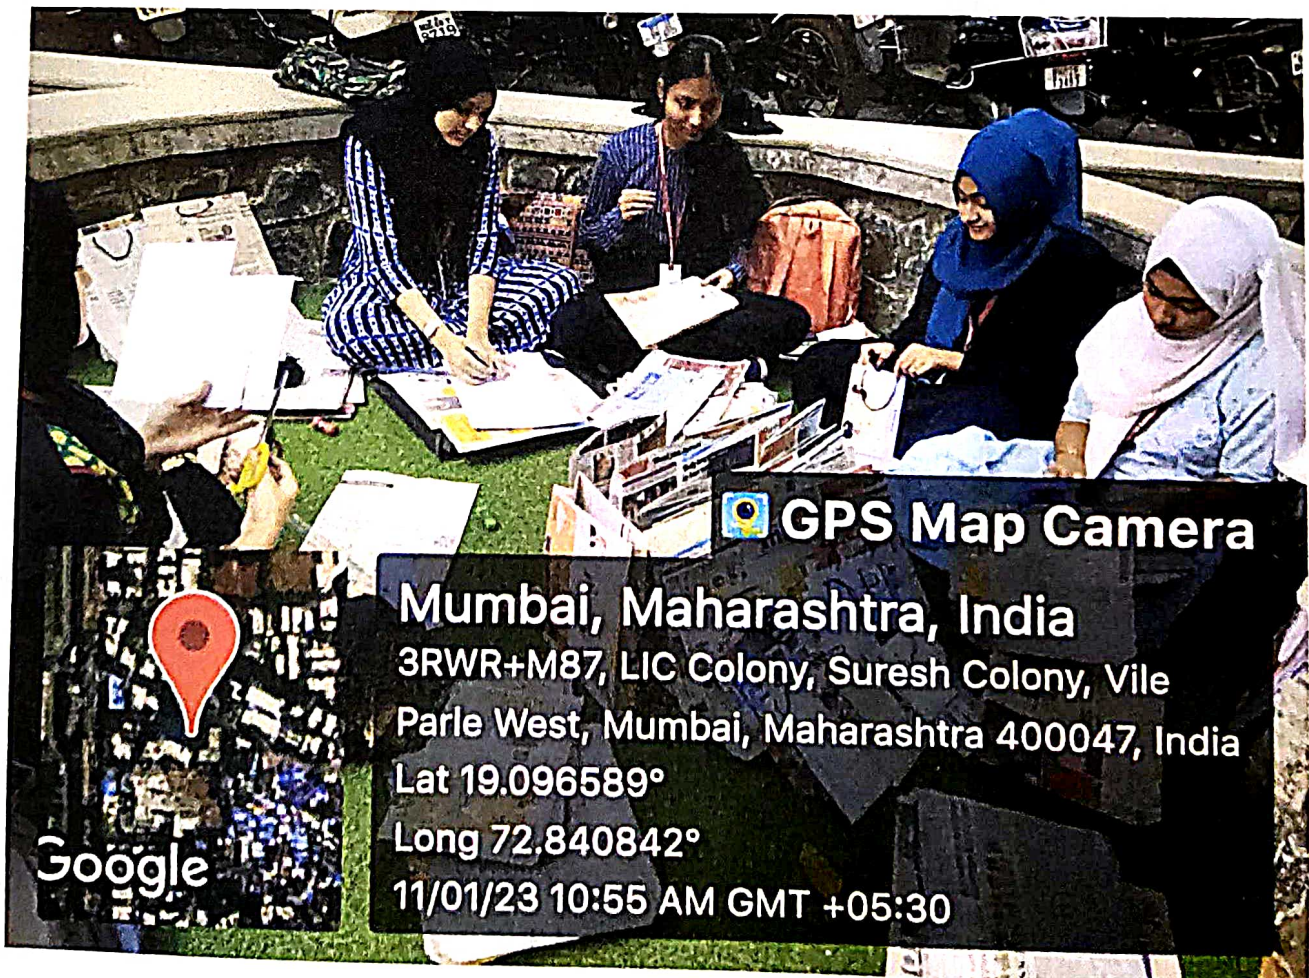

We are the student of Maniben Nanavati Women's College conducted a paper bags distribution. On 21<sup>st</sup> Jan 2023, on the occasion of our EVS project we had taken the topic 'SAVE THE ENVIRONMENT'.

## PREPARATION OF BAGS:

### DAY 1:

On 11<sup>th</sup> January we have started to made all size of bags so that will be used by all types of shopkeeper, like medical purpose, vendors use etc. and then we prepare banners like slogans or make posters regarding save the environment.

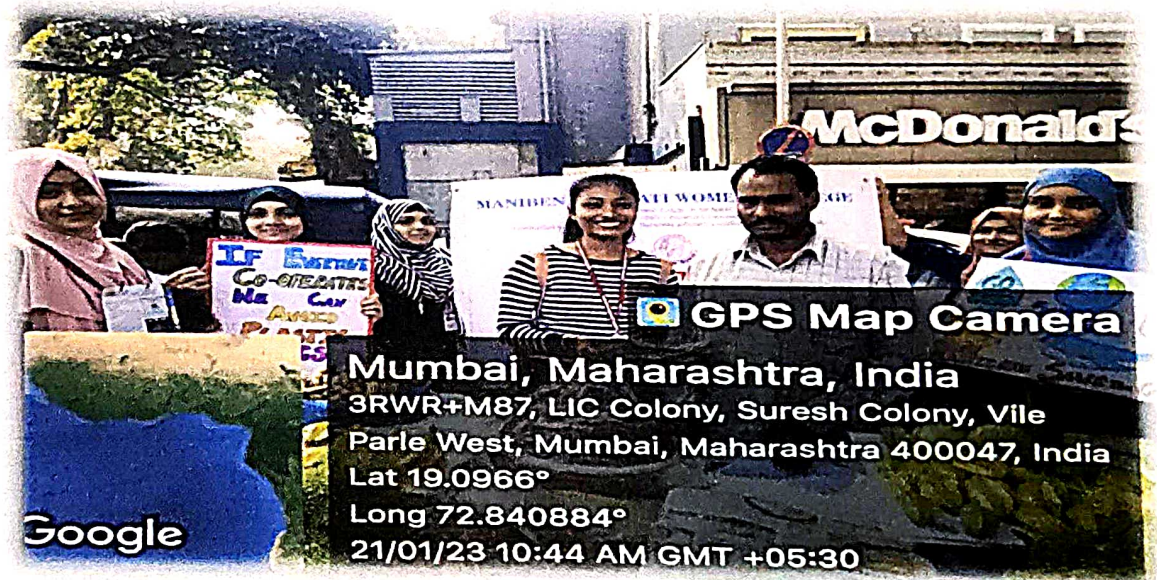

## DAY: 2

21<sup>st</sup> January

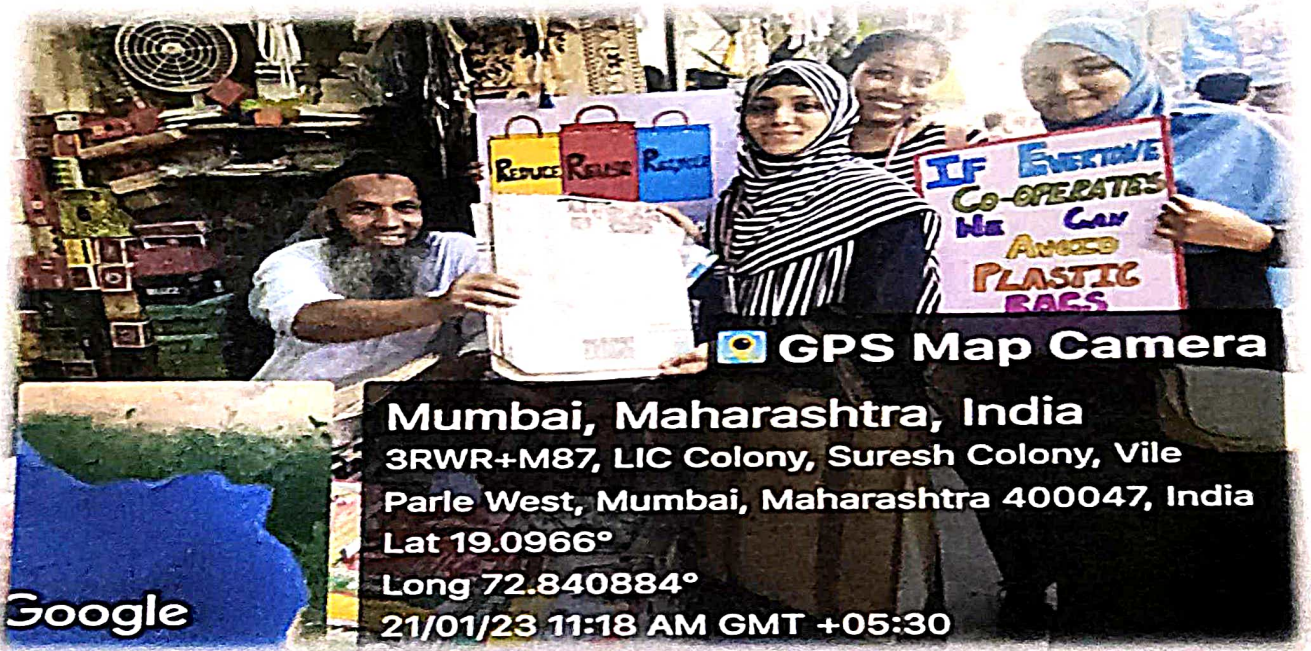

We all first assembled in the college, at 8.30 am then we started our journey through train to ANDHERI Station. We marched in the perfect formation carrying posters and banners. And we have to give the message that how harmful is plastic bags for our environment we have to tell them that how to save our environment or what can we do to avoid it.

## DAY: 3

We went to ANDHERI STATION and carried our banners or told everyone that plastic destroyed our environment and government has also banned plastic instead of this use paper bags or make our environment save. We tell everyone with the help of banners and the bags that we have prepared we distribute over them.

## PAPER BAGS ARE ECO-FRIENDLY

Paper bags are biodegradable. It means paper bags can be decomposed in soil with the help of bacteria. It's different from plastic bags that can take a thousand years to decompose.

Paper bags are one hundred percent recyclable because they don't contain toxic and poisonous gas that plastic bags emit during recycling. They are reusable, and when they're reused more than three times, the bags have significantly less ecosystem impact than plastic bags. Using paper bags and leaving plastic bags means saving nature from pollution. It also means saving sea animals like whale and sea turtle from eating plastic waste that could kill them.

## **Feedback**

At the end many people appreciated our hard work towards changing the environment through our mini steps and they told us that we not use plastic as we tell others that they also avoid use of plastic. And we also went to medical shop and give them a small bags that we prepared and also they are very happy to see our work or even encouraged to save the environment by taking such mini step in future as well apart from this we also distribute our bags and we also went to other places and they gave same feedback to us.

We will also save the environment by taking this project we have learned a lot from this project or we have enjoyed a lot while making this project and we have a good conversation with the vendors while distributing the bags and we also told them about the benefits of paper bags and to avoid use of plastic as they harm a lot. We are very thankful to MADHURI MADAM that she gave us this project

**THANK YOU**
