### **Process of Feedback**

Feedback is an essential aspect of any institution that contributes to its development and growth. The institute ensures that all the stakeholders are involved in the participatory management practice. Their valuable inputs are considered and executed upon so as to strengthen the vision, mission and goals of the institution.

The college follows an elaborate feedback system that includes feedback from the students, teachers and alumni. Initially as part of the evaluation period, a more general feedback was taken from students, alumni, parents and teachers.

Each year the students in final year gave an exit poll which elaborated the feedback on syllabus, course structure, teaching and facilities provided. Based on student feedback, guest lectures, activities and workshops are planned to enhance the learning process and field readiness of the students.

The college has been taking feedback on teaching methods and effectiveness of each teacher. This is then given to teachers confidentially by the Principal at the end of the academic year. The teachers are encouraged to implement various strategies to improve teaching effectiveness and generate students' interest.

The library has a structured format for receiving feedback from students. The College Library maintains a well-organized feedback mechanism in order to improve its services for book bank, issuing, addition of new books, Reprographic services, Internet facility and OPAC facilities.

Since the academic year 2018-2019, the college introduced specific templates to further assess feedback on curricular aspects from students, teachers and alumni.

For students who were employed or completed internship, the feedback is collected from the employers by their respective departments. The departments then work on the training of students based on the feedback obtained.

An informal feedback system for students exists in college in the form of a suggestion box. This box is opened in front of the principal every month. The suggestions are positively taken and they are executed wherever possible.
