	CO2- Develop the ability to read works of critical theory, and deploy ideas from these texts in their own reading and writing
	Postcolonial Studies
646501	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of post-colonialism
	CO2- Demonstrate an understanding of basic ideas and concepts in postcolonial theory
	CO3- Critically analyze texts from a postcolonial perspective
	CO4- Effectively communicate ideas related to the postcolonial writing during class and group activities
	Diaspora Studies
646601	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of diaspora
	CO2- Demonstrate an understanding of basic ideas and concepts in diaspora theory
	CO3- Critically analyze diasporic texts from several perspectives
	CO4- Effectively communicate ideas related to diaspora writing during class and group activities
	Life Writing
665401	CO1- Demonstrate an understanding of the different intellectual and cultural contexts of life writing
	CO2- Demonstrate an understanding of basic ideas and concepts
	CO3- Critically analyze texts from different perspectives
	CO4- Effectively communicate ideas related to the paper during class and group activities
	B.A PSYCHOLOGY
	DC I General Psychology: Physiological Basis
145110	CO 1 : Acquire the basic concepts of psychology.
	CO 2 : Understand the relations of biological and psychological aspects of behaviour.
	CO 3 : Relate the fundamental principles of psychology to everyday life.
	CO 4 : Prepare themselves for further studies in psychology.
	DC II Developmental Psychology: Infancy to Middle Childhood
145210	CO 1 : Comprehend the basic concepts of Human Development processes.
	CO 2 : Demonstrating an ability to understand and distinguish major theoretical perspectives and methodological approaches in human development.
	CO 3 : Trace the different stages of development.
	CO 4 : Developing an ability to identify the milestones in diverse domains of human development across the age groups i.e. infancy to middle childhood.
	DC III General Psychology: Basic Cognitive Processes
245310	CO 1 : Understand the phenomenon of learning, memory, thinking and attention
	CO 2. Relate the cognitive processes to everyday life.
	DC IV Developmental Psychology: Adolescence to Late Adulthood
245410	CO 1 : Understand the process of physical, cognitive, social and personality across the age groups i.e. Adolescence to late Adulthood.
	CO 2. Understanding the contributions of socio-cultural context toward shaping human development
	CO 3. Appreciate implications and applications of various concepts in Developmental Psychology in daily life.
	CO 4: Acquiring an ability to decipher key developmental challenges and issues faced in the Indian societal context.
	DC V Fundamentals of Social Psychology
345510	CO 1. Understand the fields of Social Psychology.
	CO 2. Understand the basic concepts and methods used in Social Psychology.
	CO 3. Learn the application of principles of Social Psychology in everyday life.
	CO 4: Developing skills pertaining to mapping of social reality and understanding how people evaluate social situations.

	CO 5. Understand Social Psychology from an Indian perspective.
	DC VI Personality Theories
345610	CO 1. Understand the concept of Personality and its components.
	CO 2. Gain insight to Personality as one of the important domains of understanding human behaviour.
	CO 3. Acquainted to various schools and theorizations of Personality
	DC VII Interpersonal and Group Processes
445710	CO: 1 Understand the factors responsible for reacting positively or negatively towards another person.
	CO 2: Developing an understanding pertaining to social influence processes particularly the influence of others on individual behaviour and performance.
	CO 3: Understanding of the philosophical and psychological basis of relational interconnectedness that exists between and among members.
	CO 4: Gain insight in understanding of factors affecting social processes.
	DC VIII Psychological Testing and Assessment
445810	CO 1. Understand the relevance of psychological tests in the field.
	CO 2. Develop the skills necessary to select and use tests.
	CO 3. Grasp facts about measurement of aptitude, intelligence and assessment of personality.
	CO 4. Gain knowledge and understanding of the nature uses, and the process of construction of psychological tests.
	DC XI Experimental Psychology (Theory)
545910	CO1: Understand basic concepts of experimental psychology
	CO2: Understand experimental designs
	CO3: Develop the spirit of scientific inquiry in the students,
	CO4: Generate ideas for research, as well as develop hypotheses and
	CO5: Learn operational definitions for variables
	DC X Experimental Psychology (Practical)
546010	CO1: Understand the concept and procedure of psychology experiments
	CO2. Understand laboratory process and interaction
	CO3. Illustrate various Psychophysical Methods
	CO4. Demonstrate various types of learning
	CO5. Gain an insight into different psychological tests
	DC XI Fundamentals of Abnormal Psychology
546110	CO1. Understand the concept of Abnormality
	CO2. Compare and contrast the various theoretical perspectives of mental illnesses
	CO3. Learn some of the common mental disorders, their symptoms and causes in context with DSM
	CO4. Gain knowledge of legal issues in mental health
	CO 5. Developing a foundational knowledge of Clinical Psychology, its historical development and professional ethics.
	DC XII Research Methodology and Statistics
546210	CO1. Gain understanding in research process in psychology
	CO2 . Examine characteristics, uses, applications and methods of calculations of the various measures.
	CO 3:: Gain understanding of the basic concepts in Statistics and the various measures of Descriptive Statistics
	DC XIII Cognitive Psychology (Theory)
646310	CO 1: Understanding the ways in which humans engage in information processing and developing knowledge of the key assumptions as well as distinguishing features of cognitive psychology
	CO 2: - Gain understanding of different cognitive processes
	CO 3: Developing critical awareness about the classic and current experimental research relating to various cognitive processes.
	CO 4- Comprehend the theoretical foundations underlying various cognitive functions of attention, perception memory and thinking
	CO 5- Apply the knowledge of the cognitive processes in everyday life
	DC XIV Cognitive Psychology (Practical)
646410	CO1. Gain knowledge of Cognitive Processes
	CO2. Examine the methodological practices involved in manipulating, controlling and measuring variable
	CO3: Demonstrating appropriate skills essential in designing and conducting experiments in cognitive psychology.
	CO4. Understand the aspects of reporting experiments
	DC XV Abnormal Psychology: Psychotic, Cognitive and Social disorders in Adults and Children
646510	CO1. Understand severe mental disorders, their symptoms and treatment
	CO2. Explain the various clusters of Personality disorders.
	CO3. Classify the different Cognitive disorders and Affective disorders
	CO4. List the somatoform and dissociative disorders and their symptoms.
	CO5. Learn the various sexual dysfunction disorders, gender identity disorders and the paraphilias
	DC XVI Counselling Psychology
646610	CO1. Gain In-depth understanding in the subject of Counselling psychology
	CO2. Learn the process, scope, ethical issues and major theories in counselling psychology
	CO3. Understand the applications in the field Counselling Psychology

B.A SOCIOLOGY	
145111	DC I Sociology of Indian Society
	CO 1 : Students will acquire knowledge about basic Indian social structure.
	CO 2 : Students will develop an understanding of the comprehensive profile of Indian society.
145211	DC II Foundations to Sociology
	CO 1 : Students will acquire knowledge of various terms in the discipline of sociology.
	CO 2 : Students will learn the various basic concepts in sociology
	CO 3 : Will be able to relate the fundamental understanding of sociology in everyday life
	CO 4 : Students will be prepared for further studies and to develop understanding for further studies.
245311	DC III Social Problems in India
	CO 1 : Students will acquire skills to understand and identify the various social problem in Indian society
	CO 2: Students will use the understanding of the law's and policies for general social growth and development.
	CO 3: The already learned basic concepts of sociology will enable students to use in day to day life for better understanding
245411	DC IV Introduction to Sociology
	CO 1 : Will expose to the field of Sociology
	CO 2: Inculcate the sociological thinking to understand the concept in everyday life.
	CO 3: The already learned basic concepts of sociology will enable students to use in day to day life for better understanding
345511	DC V Social Change and Development in India
	CO 1 : Students are able to connect with the changes in society due to the overall social and economic development in India.
	CO 2: Identifying the concepts of development as a part of growth ,progress of our nation.
	CO 3: Relating to the constant socio- economic growth as part of social change and development in Indian society.
345611	DC VI Rural Society in India
	CO 1: Students are exposed to the grassroots of the Indian rural Community
	CO 2: Students will attain an insight into their unique culture institutions, problems and changes encountered by rural people.
365111	APC I Population and Society
	CO 1: Understanding for demographic features of India and world will develop.
	CO 2: Students will apply the knowledge measures to control the growing population.
445711	DC VII Women's Issues in India
	CO 1: Students get knowledge about specific issues and problems of women in general.
	CO 2: Students develop an understanding of the contemporary issues and the development for women in India.
445811	DC VIII Urban Society: Problems and Prospects
	CO 1: Students get an in- depth knowledge about urban life and society.
465211	APC II Media, Culture and Society
	CO 1: Students get an overall understanding and knowledge of the current issues and problems faced by the society at large.
	CO 2: Understand and relate the importance of mass media and its role in the development of the society.
545911	DC IX Classical Sociological Theorists
	CO 1: Helps students in understanding the sociological thoughts.
	CO 2: It introduces them to various thinkers, who contributed in developing classical theories.
	CO3: Develop the spirit of scientific inquiry in the students,
546011	DC X Social Anthropology
	CO1: it helps in getting insight into primitive life and culture of human society.
	CO2: Understands the process of growth and development of human society and culture.
546111	DC XI Crime and Deviance
	CO 1: Acquires knowledge about the changing profile of crime and criminals
	CO 2: Students are equipped with the legal knowledge and social norms to control crime and deviance.
546211	DC XII Industrial Sociology
	CO 1: It develops understanding of industrial process and change in production system and relations
	CO 2: Students learns about the concept of labour, union and law pertaining to them.
	CO 3: Exposed to new field for further studies and new job profile
565311	APC III Environment and Society
	CO1: Provides knowledge about the serious concerns and issues of environment
	CO 2: Equips them to protect the environment through sustainable development.
646311	DC XIII Contemporary Sociological Theorists
	CO 1: Students learn to analyse and form relations with different social facts and realities
	CO 2: It introduces them to various thinkers who contribute to contemporary theories
646411	DC XIV Methodology in Social Research
	CO 1: Students acquire in-depth knowledge to collect relevant data in an objective manner
	CO 2: Creates the nature of scientific inquiry in given social situations.
	CO 3: They get training in collecting relevant data, analyze, compile, the data and prepare report.
DC XV Social Movement in India	

646511	CO 1: Students attain knowledge about the various social movements, which takes place due to various issues and problems
	CO 2: learn about the roles of different social reformers and leaders to brought a change in society through various movements.
646611	DC XVI Sociology of Marginalized Group
	CO 1: Students are sensitized about the marginalised in society
	CO2: Students are equipped with laws, policies and procedures to combat the discrimination
665411	APC IV SOCIOLOGY OF TOURISM
	CO1: Students are provided with in-depth knowledge about tourism industry and its impact.
	CO2. They learn about the different avenues of employability through the emerging global tourism industry.
	B.A ECONOMICS
	DC-I Economy of Maharashtra
145106	CO 1: Students are able to understand the socio-economic problems faced by the state of Maharashtra.
	CO 2: Students are able to interpret the effects of policy decisions of the Maharashtra government .
	DC-II Principles of Economics
145206	CO 1: Students get a clear understanding of the basic economic terminology and concepts.
	CO 2: Students get knowledge of the underlying principles of modern economics.
	DC-III Marco level Problems in the Economy of Maharashtra
245306	CO 1: Students are able to analyse, critique policy measures taken by the government.
	CO 2: Students understand the micro economic problems of state of Maharashtra.
	DC-IV Basics of Money, Banking, International Trade and Public Finance
245406	CO 1: Students will be able to get a deeper meaning and understanding of the prevailing in the economic system.
	CO 2: Student develop ability to assess the role of money, banking and trade in economy.
	DC-V Sector-wise Features of Indian Economy
345506	CO 1 : Students are able to comprehend the underlying strategies for growth and progress in Indian economy.
	CO 2: Students are able to compare and analyze the growth in various sectors of the economy.
	DC-VI Theory of Value
345606	CO 1: Students can understand the micro concept of economic analysis.
	CO 2: Students develop the ability to understand consumers and producers' behaviour in the market.
	APC-I Entrepreneurship Development
365106	CO 1 : Students get knowledge and motivation for self employment.
	CO 2: Students can get creative idea for start their business.
	DC-VII Problems and Policy in Indian Economy Since 1991
445706	CO 1 : Students are able to identify the problems facing the Indian economy and evaluate policies with respect to their expected outcomes.
	CO 2: Students become aware of the economic problems faced by Indian Economy.
	DC-VIII Distribution Of Welfare Economics
445806	CO 1 : Students will clear understand the micro concept economics analyses.
	CO 2: Students are equipped to critically analyze policy measures taken by the government.
	APC-II Economy of Labour
465206	CO 1: Students will understand the functioning of Labour market.
	CO 2: Students will get knowledge about wage determination in market.
	DC-IX Theory of Employment
545906	CO 1: Students are able to understand the dynamics of labour markets at macro level
	CO 2: Students are identify causes of unemployment especially amongst the women
	DC-X International Economics
546006	CO 1 : Students get a clear understanding of theories of international trade, policies related to trade and balance of payment problems
	CO 2: Students will be able be to appreciate the orle of trade in economic development .
	DC-XI Research Methodology in Economics
546106	CO 1 : Students will get an understanding of statistical concepts and functions and will be able to use data for reasoning
	CO 2: Students are able to use different research design in future research projects.
	CO 3: Students develop the ability to collect, process and analyse data using ICT
	DC-XII Banking and Financial Institution
546206	CO 1: Students learn about the functioning of the banks and financial institutions, money and capital markets.
	CO 2: Students are able to understand financial scenario of India
	APC-III Agriculture Economics
565306	CO 1: Students are able to understand the role of agriculture in Indian economy.
	CO 2: Students will be able to understand the policies needed for sustainable development in agriculture
	DC-XIII Business Cycle and Stabilization of Economy
646306	CO 1: Students are able to understand feature and function of trade cycle and its impact on economy
	CO 2: Students will get recognize the basic theoretical frame work underlying the field of macro economics
	CO 3: Students are able to identify the phases of trade cycle and relate it to real world.
	DC-XIV Economy of Development
646406	CO 1: Students are able to understand theories of growth and development .

	<p>CO 2: Students understand the significance of policies and their contribution in economic development.</p> <p>CO 3: Development theories in economics enable the students to understand the need for sustainable development</p>
646506	<p align="center">DC-XV Statistical Techniques</p> <p>CO 1: Students will be able to use various statistical tools for data analysis.</p> <p>CO 2: Students are equipped to apply statistical tools to study economic problems.</p>
646606	<p align="center">DC-XVI Public Finance</p> <p>CO 1 : Students will get insights into centre and state financial relation in India</p> <p>CO 2: Students will be able to get a clear understanding of public expenditure, public debt and public revenue and its effects in an economy</p>
B.A GUJARATI LITERATURE	
145102	<p align="center">Gujarati DC I: Language Skill, Prose Format & Learning of selected short stories</p> <p>CO1. Students will understand use of language in writing skill & oral Presentation & it will strength their personality</p> <p>CO2. Students will learn innovation in language usage.</p> <p>CO 3. Students will develop ability to communication & express</p> <p>CO 4. Students will also gain knowledge of Gujarati Short Stories & its development with time changes</p>
145202	<p align="center">Gujarati DC II: Skill of Translation and Translated Text</p> <p>CO1. Students will learn academic interdisciplinary dealing with the systematic study of the theory, description and application of translation.</p> <p>CO2. Students will learn comparing and Interpreting</p>
245302	<p align="center">Gujarati DC III: Prose form and some selected poems</p> <p>CO: 1. Students will learn to recognize poetry from a variety of cultures, languages and historic periods.</p> <p>CO 2: Students will learn Understand and appreciate poetry as a literary art form.</p>
245402	<p align="center">Gujarati DC IV: Loknatya Bhavai (Specific format of Loksahitya)</p> <p>CO1. Students will understand the form of cultural Drama format, also understand historic, cultural & social impact on Literature.</p> <p>CO2. Students will be familiar with oral tradition of Gujarati Literature</p> <p>CO3. Students will get knowledge of Lok Shikshan & its tools like Bhavai</p> <p>CO4. Students will also get knowledge about different tools Lok Shikshan</p> <p>CO5. Students also get an idea about social, historical & economical structure of society during the Era.</p>
345502	<p align="center">Gujarati DC V: Modern Prose Text (Natak)</p> <p>CO 1. Students will learn form of Drama & also history of Gujarati Drama</p> <p>CO 2. Analyze & interpret texts & performances both in writing & orally.</p> <p>CO3. Apply discipline - specific skills of creation of performance</p> <p>CO 4. Demonstrate understanding of the social & artistic movements that have shaped theatre & dance as we know it today</p> <p>CO 5. Students will learn to map the history of drama & its finer nuances.</p>
345602	<p align="center">Gujarati DC VI: History of Gujarati Literature (Medieval Era)</p> <p>CO 1. student will learn literature over time from the ancient world to the present</p> <p>CO 2. Students will be familiar with literature of medieval era and authors during that time</p> <p>CO 3. Students will get knowledge of literary traditions of different era</p>
365102	<p align="center">Gujarati Ap. C. I: Vanijya Patra Vyavhar ane Prayojanmulak Lekhan (Commercial Letter Writing & skill for practical & professional Writing)</p> <p>CO1. Students will Understand professional writing by studying this paper</p> <p>CO2. students will be updated with knowledge about writing more technical or analytical documents and reports.</p>
445702	<p align="center">Gujarati DC VII: Modern Poetry Text</p> <p>CO1. Recognize poetry from a variety of cultures, languages & historic periods</p> <p>CO2. Understand & appreciate poetry as a literary art form.</p> <p>CO3. 	Business Economics-I
341419	CO.1: Learn economics in terms of business, describe the nature of economics in dealing with the issue of scarcity, perform supply and demand analysis to analyse the impact of economic events on markets, analyse the behaviour of consumers in terms of the demand for products.
	CO.2. Evaluate the factors affecting firm behaviour, such as production and costs, analyse the performance of firms under different market structures, understand the dynamics of how the markets work.
	Business Law (New)
341519	CO.1: Demonstrate an understanding of the Legal Environment of Business, Communicate effectively using standard business and legal terminology, demonstrate recognition of the requirement of the contract agreement, contract consideration and capacity.
	CO.2. Students will understand various provisions of company law and demonstrate the various analytical skills in case study analysis.
	Principles of Auditing
441119	CO.1: Students will understand the environment and types relating to the auditing function and identify the steps needed to prepare for an audit.
	CO.2: Students will understand general audit terminology, plan an audit taking into account concepts of evidence, risk and materiality, know the steps for performing an audit, and apply audit practices to different nature of concerns.
	Corporate Accounting(New)
441219	CO.1: Students will understand the regulatory environment in which the companies are formed and operate and have a solid foundation in accounting and reporting requirements
	CO.2. Draft final accounts for manufacturing concerns, Banks and Insurance Companies.
	Life and Health Insurance (New)
441319	CO.1: Students will understand the importance of Life & Health Insurance and their importance in the growth of the country.
	CO.2. Students will be aware of different types of Life and Health Insurance Plans available in the market.
	Business Economics-II
441419	CO.1: This course will provide students with basic understanding of economic theory and analytical tools that can be used in decision making problems.
	CO.2. Students will learn to use economic models to isolate the relevant elements of a managerial problem, identify their relationships, and formulate them into a managerial model to which decision making tools can be applied.
	Business Finance & Women Empowerment in India
441519	CO.1: Students will be aware of different styles of presenting financial data into different financial statements.
	CO.2. Students will be empowered by using small and micro finance and work as entrepreneurs.
	Financial Management
541119	CO.1: the students will be aware about the Sources and the Cost of the Funds for Investing in the Long Term Projects.
	CO.2. Students will be market ready for the various investment projects and different sources of finance.
541219	General Insurance
	CO.1: Students will be aware about the concepts and Policies involved in case of General Insurance.
	CO.2. Students will be demonstrate the various general insurances in view of the third party insurance.
	Statistical Theories and Business Application
541319	CO.1: understand basic statistical concepts such as statistical collection, statistical series, tabular and graphical representation of data, calculate measures of central tendency, dispersion and asymmetry, correlation and regression analysis.
	CO.2. Students will acquire knowledge to interpret the meaning of the calculated statistical indicators, choose a statistical method for solving practical problems, and predict values of strategic variables using regression and correlation analysis.
	Capital Markets
541419	CO.1: students will be aware about the financial environment and the role of capital market in capital formation.
	CO.2. Students can join the mutual funds and other securities exchange firms for practical exposure.
	Internship-I

541519	CO.1: This will help the students to understand the concepts that they have learned and at the same time provide them the practical and real life experience of working in business organization. CO.2. Students will be graduates with working experience in the business organisations.
	Taxation- (Direct Taxes)
641119	CO.1: Acquire the complete knowledge of basic concepts of income tax. CO.2. Identify and comply with the relevant provisions of the Income Tax Act as it relates to the income tax of individuals.
	Insurance business & foreign investment in India
641219	CO.1: Students will be aware of different agriculture insurances and the insurances related to the small farmers. CO.2. Students will be demonstrating the various agricultural insurances and their importance on the people engaged in primary sector.
	Quantitative Methods for Business
641319	CO.1: students will be familiarized with statistical quantitative techniques and tools for business applications. CO.2. Based on acquired knowledge to interpret the meaning of the calculated statistical indicators.
	Investment & Portfolio Management
641419	CO.1: Students will be introduced to the areas of security analysis and portfolio management and equipping them with learning basic tools and techniques for making profitable investment decisions. CO.2. students will be ready for taking future investment decisions.
	Internship-II
641519	CO.1: This will help the students to understand the concepts that they have learned and at the same time provide them the practical and real life experience of working in business organization. CO.2. Students will be graduates with working experience in the business organisations.
	BMS- 010
	Principles Of management
1001	CO.1: The students will understand the basic management concepts CO.2. The students will know the working process of management in an organisation.
	Business Communication
1002	CO.1: The students will be able to understand the communication system in an organisation CO.2. The students will develop various writing skills like letter writing especially trade letters
	Financial Accounting
1003	CO.1: The students will understand the basic accounting concepts CO.2. The students will learn the accounting treatment for depreciation, and how to prepare financial statements.
	Principles Of Marketing
1004	CO.1:The students will gain knowledge of various marketing aspects and get an overview of it. CO.2. The students will learn Modern Marketing trends like E-Commerce
	Economics-I
1005	CO.1:The students will learn basic concepts of economics with respect to consumer behavior in the market CO.2. The students will learn cost concept and its perspective and gain an understanding of various market structures.
	Marketing Management
2001	CO.1:The students will learn various aspects of marketing CO.2.The students will gain knowledge of Marketing process
	Organizational Behaviour
2002	CO.1:Students will understand the working pattern of employees in an organization and the difference between groups and teams." CO. 2 : The students will understand the various situations in an organization and approaches to overcome them.
	Economics-II
2003	CO. 1 : The students will understand fundamentals of Macro Economics and National Income CO. 2 :The students will acquire knowledge of Economic stabilization policies
	Management Information System
2004	CO. 1 : The student will gain a broad understanding of the fundamentals of computers. CO.2 : The student will understand the practical use of computers in various business applications.
	Quantitative Techniques for Business

2005	CO.1: The students will understand the basic mathematical concepts and to apply mathematical concepts in management.
	CO.2: The students will understand Integration and its business application
	Business Laws
3001	CO.1: To students will learn the legal aspects of business and the meaning & concepts of contractual obligations, partnership, company law.
	CO.2: The students will learn negotiable instruments and ethical practices in Law.
	Cost and Management Accounting
3002	CO.1: The students will be able to appreciate the importance of maintaining cost record.
	CO.2: The students will be able to apply costing & management techniques for decision making.
	Human Resource Management
3003	CO.1: The student will have a clear understanding of the fundamental of the foundation of HRM, its need and various functions of HRM.
	CO.2: The students will learn various policies and ethical practise in HR
	Fundamentals of Production and Operations Management
3004	CO.1: To students will get aware about the techniques required for streamlining the production process.
	CO.2: The students will learn various production - loading and scheduling techniques
	Quantitative Techniques for Business
3005	CO.1: The students will get theoretical and practical knowledge of statistical tools
	CO.2: The students will learn implication of statistical tools.
	Strategic management
4001	CO.1: The students will be able to handle all areas of management from strategic point of view.
	CO.2: The students will able to learn how the strategies are formulated and implemented
	Financial Management
4002	CO. 1 : The students will able to apply financial techniques for effective management of long term and short term capital.
	CO.2: The students will be able demonstrate an understanding of the overall role and importance of the finance function.
	Consumer And Buying Behaviour
4003	CO. 1: The students will analyse the buying behaviour process and classify various factors motivating purchase behaviour.
	CO.2: The students will understand the importance of customer loyalty and ways to develop the loyalty amongst the customers.
	Quality Management
4004	CO.1: The students will learn the importance of quality management at the organizational level.
	CO.2: The students will gain a broad understanding of various techniques of maintaining quality of a product/service.
	Entrepreneurship Development & Digital Marketing
4005	CO.1: This subject will help students understand various skills required to be a good Entrepreneur and Identify and explore various government institutions available for providing aids to Entrepreneurship development.
	CO.2: It will also help understand the importance of Digital media in today's world and classify various platforms of digital media.
	Auditing and Taxation
5011	CO.1: The students will be able to get an overview of the audit process.
	CO.2: The students will be able to learn insight of taxation provision, sections and deduction
	Banking & Financial Services
5012	CO.1: The students will gain a broad understanding about various financial services prevailing in India.
	CO.2: The students will learn about the working process of the financial services like mutual funds etc.
	Integrated marketing Communication
5021	CO.1: Enable the student to understand the dynamics of communication required from a marketing point of view
	CO.2: The students will develop various models of advertising Campaigns.
	Brand Management
5022	CO.1: It will enable the students to gain broad understanding of branding as in important aspect of marketing management

	CO.2. The students will learn various techniques and strategies for branding
	Industrial Relations
5031	CO.1: Provide intensive theoretical and practical knowledge of IR and Trade Union CO.2. The students will learn about various means to maintain industrial relations
	Human Resource Development
5032	CO.1:The students analyse and learn various training and development strategies in the organization. CO.2: The students also understand the importance of Organizational change and identify various motivational strategies that help overcome the Resistance to change
	Advanced Quantitative Methods for Business
5005	CO.1: The students will be able to classify and understand hypothesis assumptions. CO.2: They will be able to classify sample testing.
	Security Analysis and Portfolio Management
6013	CO.1: The students will understand the concept of Investment, Portfolio & the Role of Portfolio Management and various types of investors. CO.2: The students will infer Market Theory & Portfolio Selection Model
	Advance Financial Management
6014	CO.1: The student will be able to apply advanced financial techniques for effective management. CO.2: The students will infer the concepts of leverages, receivables management, Inventory management & mergers & acquisitions
	International Business
6023	CO. 1: The students will Summarize the International Business in the 21st Century and Legal Aspects of International Business. CO.2: The students will infer the International Business Environment in India.
	Retail Management
6024	CO.1: The students will infer the Challenges and Growth of retail in recent years, Future prospects of retailing in Indian Scenario. CO.2: the students will be able to classify Retail pricing policies & strategies.
	International HRM
6033	CO.1: The students will be able to undergo IHR Planning, Recruitment, Selection process. CO.2: The students will be able to Infer the Ethics in IHR and recent trends in Employee leasing, organizational politics, exist Policy and Practice.
	Talent Management
6034	CO.1: The students will infer and compare the Talent Management as practiced in leading organizations. CO.2: The students will be able to review and discuss existing organizational practices related to developing and managing Human Resources to achieve business strategies and objectives.
	Project
6005	CO.1: The students will Infer various Research methodology techniques used. CO.2: The students will be able to review and summarize the objectives of the organizations or Employees at Work Place.
	B. Design
	Drawing And Sketching
1001	CO1 - Draw landscape, portrait using shading/ colouring technique with specified tools, techniques and mediums. CO2 - Sketch motifs as an interpretation of natural, geometrical objects and further convert the min to abstract and stylized form. CO3 - Draw various technical steps involved in product development process. CO4 - Draw Object, perspective, still life and human figurative drawings.
	Environmental Studies
1002	CO1- Build awareness about physical environment and its components. CO2 - Gain Knowledge of natural resources and their types. CO3 - Develop the concept of ecology and its components.
	Fundamental Of Design
1003	CO1 - Apply the elements of design in apparel design. CO2 - Apply a principle of design in apparel design. CO3 - Justify the psychological, formal and symbolic qualities of elements and principle of design
	Communication Skills
1004	CO1 - Apply communication skills in different linguistic functions CO2 - Apply the skills related to listening reading, writing, and speaking

	CO3 - Justify the psychological, formal and symbolic qualities of elements and principle of design
	History Of Art & Design
1005	CO1 - Express the influence of art & culture on the society as well as on fashion. CO2 - Express the contemporary art and its influence on fashion.
	Technical Drawing- Foundation
2001	CO1 - Draw technical drawing of design as specified. CO2 - Analyse technical and figurative drawing.
	Advance Design
2002	CO1 - Describe and apply various color theories in design. CO2 - Depict and identify colour characteristic in relation with color psychology. CO3 - Relate Elements and Principles of design in developing a product in respect with specific theme.
	Material Studies
2003	CO1 - Use and apply the different materials that create different approaches and feelings in the product. CO2 - Relate various materials and explore them to enhance and reward various products.
	Computers Application in Data Management and Presentation
2004	CO1 - Use the basic principles of computer hardware, software & other devices of computers. CO2 - Use word processor, spreadsheet sand presentation.
	Art Appreciation
2005	CO1 - Distinguish various Indian art and performing art forms in terms of its characteristics and features. CO2 - To be able to discuss the application of artforms in design.
	Fundamentals Of Illustration & Design Concept
3101	CO1 – Use the skill of draw to render garment on croquis CO2 - Apply the Concept of Design Process In product development CO3 - Illustrate basic garments. CO4 - Identify famous fashion illustrators for their induvial style and demonstrate individual stylized drawing inspired from them
	Introduction To Pattern Making (Flat and Draping)
3102	CO1 - Create drafting patterns for foundation for kids and adult's styles using flat pattern and draping method. CO2 - Draft flat patterns as well as on dress form for foundation styles in upper torso and skirts.
	Introduction To Textile
3103	CO1 - Recognize specified fibres, yarns, weaves., knits types, preparatory process and finishing process. CO2 - Apply the textiles in apparel in respect with function and aesthetics Show that textile forms the core of fashion that demands its appropriate application in technical and aesthetic form.
	History Of Fashion (Indian & Western) And Women's Studies
3104	CO1 - Trace the birth, evolution, decline, revival and most recent developments in Indian and western fashion. CO2 - Decode the fashion styles in accordance with specific era. CO3 - Interpret the demographic profile of women in India & the present situation in the status of women.
	Marketing And Merchandising
3105	CO1 - Apply concepts of marketing in fashion business. CO2 - Identify role of merchandiser and merchandising in garment industry.
	Basic Fashion Illustration & Design Concept
4101	CO1 - Illustrate the male fashion figure & rendering with different color mediums. CO2 - Demonstrate and render fashion garment components categories /styles designs. CO3 - Apply the design process to develop women's wear collection.
	Basic Pattern Making (Flat and Draping)
4102	CO1 - Draft components such as sleeves, collars-and style lines in women's wear using standard measurement, and using flat-pattern and draping methods. CO2 - Create patterns and designs manipulating fabric using flat pattern and draping technic to draft chudidar and salwar.
	Introduction To Garment Construction
4103	CO1 - Demonstrate sewing and construction skills using hand and machine stitches for different components of garments like seams and seam finishes, pocket, plackets, openings and fasteners. CO2 - Stich the specified components of garments in men's and women's apparel as per industry requirements.
	Computer Aided Rendering Technique In Fashion
4104	CO1 - Use Raster Graphics software as a tool to represent and create visuals, using image editing and object creation. CO2 - Explain and use manipulation of Raster Graphics software.
	Principles Of Management
4105	CO1 - Explain the basic management concepts, applications & processes. CO2 -Explain the application in decision making, motivation terms such as leadership and communication for effective fashion business
	Advance Fashion Illustration & Design Concept
5101	CO1 – Illustrate the kids fashion figures CO2 - Render different fabrics and garments using different techniques. CO3 – Draw different apparel categories and components of garments in the form of flat drawings. CO4 - Illustrate kids & men's wear by implementing design development process
	Advance Pattern Making (Flat, Draping And Grading)

5102	CO1 - Create and produce advance patterns by flat and draping method for women's wear. CO2 - Prepare patterns by grading methods and layout and marker planning by manual and computerized methods used in Industry.
	Basic Garment Construction
5103	CO1 - Construct and demonstrate actual garments for women' wear with standard and customized measurement. CO2 - Construct and demonstrate various types of torso, salwar and Churidar.
	Craft Research And Design
5104	CO1 - Document the craft, its process and promotional activities. CO2 - Assist the crafts community to promote their craft for diversified consumers using visual communication techniques.
	Indian Textile And Embroideries
5105	CO1 – Explain the history and characteristic feature of the traditional textile crafts and embroideries of India. CO2 - Apply the regional embroidery techniques & traditional textile crafts for various products current fashion.
	Computer Application In Fashion(2D)
6101	CO1 – Apply and demonstrate various type of textile weaves with the use of computer software. CO2 -Practice garment rendering using various tools for digital fabric, texture, Pattern of fabric and accessories creation in using CAD application. CO3 - Use fashion software that is specificallyusedindigitalgarmentdevelopment.by industry.
	Industry Research Project
6102	CO1 - Describe the industry processes and identify the various departments in fashion industry. CO2 - Apply the research process to improve the industry processing's to obtain maximum profit.
	Advance Garment Construction
6103	CO1 - Construct garments with various specified style lines for specified garments of Men's and Women's Wear. CO2 – Create designs for customized clothing and mass category.
	Fashion Forecasting
6104	CO1 - Apply forecasting techniques to determine market demand to effectively interpret the same in design process. CO2 - Discuss the latest trends & technologies that affect the fashion forecast.
	Dyeing And Printing & Surface Ornamentation
6105	CO1 - Practice various specified surface ornamentation techniques on textiles asa value addition in the process of designing. CO2 – Implement various dyeing and printing techniques used specifically for various fabrics. CO3 – Differentiate various techniques of surface ornamentation which can be used as per the specific requirement of the end product
	Creative Pattern Making (A)
7101	CO1 - Study, identify and analyse various fashion eras that influence today's fashion. CO2 - Explore different ISM's applied indifferent eras of history in clothing. CO3 - Depict the same to evaluate and understand costume design for contemporary movies and drama.
	Range Development (A)
7103	CO1 - Develop the range of Men's Wear / Women's Wear/Kid's Wear using design process guidelines, in the form of digital presentation
	Quality Assurance Management(A)
7104	CO1 - Explain the importance of quality at designing, merchandising, delivery and retailing point. CO2 - Identify the complexity of managing quality in apparel manufacturing from fibre, fabric to apparel
	Introduction To Entrepreneurship And IPR(C)
7105	CO1 - Apply the skills of Entrepreneurship in Small Business Management. CO2 - Explain the importance, process and tools of IPR in regards with fashion industry.
	Men's wear(A)
8111	CO1 - Evaluate the requirement of domestics as well as international brands through research for men's garments. CO2 - Apply the same in developing a range for men's wear based on market research.
	Women's wear(A)
8112	CO1 – Evaluate the requirement of domestics as well as international brands through research for women's garments. CO2 - Applythesameindevelopingarangeforwomen'swearbasedonmarketresearch.
	Kid's Wear(A)
8113	CO1 - Evaluate the requirement of domestics as well as international brands through research for Kid's garments CO2 - Apply the same in developing a range for kid's wear based on market research.
	Fabric Styling for Apparels (A)
8114	CO1 - Able to style the fabric using the given creative surface development technique, as required by the theme or inspiration. CO2 – Evaluate various techniques used in Domestic as well as international brands that can be effectively demonstrated in styling.
	Retail and Visual Merchandising (C)
8105	CO1 - Enumerate the Importance of visual merchandising in fashion industry through elements and theories for store display. CO2 - Present SWOT analysis based on the listed factors.
	Graduating Show(B)
8106	CO1 – Implement the design process to develop a design collection hat is in sync with the fashion industry.

0100	CO2 – Showcase design collection which is aesthetically appealing and commercially viable as per that industry requirement.
8107	Internship CO1 - Inculcate fashion knowledge to gain expertise and proficiency in respective field under the guidance of various fashion industries and experts.
	M.COM
110051	Management of Financial CO1: Understand the perspective of financial management function in an organization. CO 2. Identify the practices and policies, processes, techniques and theories used in the financial management. CO 3. Gain acquaintance on the types of cost of capital and Leverages in financial management. CO 4. Improve the ability to face problems relate to financial management through consistent approaches
110052	Strategic Management - CO 1. To enhance the ability of students to understand main concepts of business strategies, strategy formulation dynamic business environment. CO 2. To enable the learners to understand new forms of Strategic Management concepts and their use in business. CO 3. To enhance decision making abilities of students in situations of uncertainty
110053	Corporate Accounting CO 1: To facilitate the students to have detailed understanding of Accounting for Group Companies including Holding and more than one subsidiary CO 2: Analysis of financial statements with Accounting Ratios. CO 3: Internal and External Reconstruction of Companies
110054	Economic Environment of Business 1) To Know and understand the changing environment of India's economy 2) To study macro policy changes of India since 1991
110055	Basics of Accounting CO 1: Provide basic knowledge of various disciplines of accounting to the students CO 2. : Understand the principles, conventions and system of financial accounting. CO 3 : Make the students to understand the accounting process and procedure CO 4: Improve the ability to prepare the Job cost sheet and to analyse the financial statements.
210051	Business and Economic Policies of India - CO 1: To Understand the Policy changes introduced by the government of the India in recent years to prepare the Indian economy to face challenges of the globalizing world
210052	Accounting for Manager CO 1: To provide knowledge on cost accounting practices and management accounting at advanced level. CO 2: To equip the students with the knowledge of managerial decision making.
210053	Research Methodology - CO 1. To develop the awareness of research in social sciences among M. Com. Students. CO 2. To make the students to understand various components of Research Methodology.
210054	Consumer Behaviour CO 1: To make the students aware about consumer behaviour. CO 2 : To develop understanding about various concept related to consumerism.
210055	Retail Banking Operation CO 1 : To provide an introduction to retail banking services and trends in present day Retail Banking.
310051	International Marketing CO 1. To enable students to understand and to get an insight into Marketing and the environment CO 2. To enable students to understand and to get an insight into Market selection process and market strategies CO 3: I To enable students to understand and to get an insight into International market promotion and quality control.
330051	Research Project – I CO 1. The learner will be able to outline various components of Research Methodology CO 2.The learner will be able to identify research methodology for her research topic.
330052	Research Project – II CO 1. The learner will be able to outline various components of Research Methodology CO 2.The learner will be able to identify research methodology for her research topic.
320651	Advanced Financial Accounting Paper I – CO 1: To lay a theoretical foundation of IFRSs and Accounting in computerized Environment. CO 2 : To gain ability to solve problems relating to accounts of Insurance companies and special types of situations. CO 3: To gain ability to solve problems relating to accounts of Insurance companies and special types of situations
320652	Advanced Cost & Management Accounting Paper I CO1: To provide adequate knowledge on methods of Financial Analysis. CO 2: To provide knowledge on Cost and Audit practices
320352	Talent Management and Reward System CO 1.Understanding need and importance of talent management and its relationship with compensation practices, strategies and reward.

	CO 2: Being able to institute talent management system that ensures identification, management and development of talent portfolio that accelerates performance improvements
410005	Marketing of Financial services
	CO 1. To introduce students to concept and importance of financial services.
	CO 2. To acquaint students about working of factoring, forfeiting.
	CO 3. To make students of credit rating in India.
440051	Internship – I
	CO 1. Learners will be able to recall and develop original working knowledge of industry.
	CO 2. Learner will be able to evaluate and improve their individual learning goals and activities assigned to them.
440052	Internship -II
	CO 1: Learners will be able to recall and develop original working knowledge of industry.
	CO 2: Learner will be able to evaluate and improve their individual learning goals and activities assigned to them.
420653	Advanced Financial Accounting Paper II
	CO 1: To lay a theoretical foundation of Indian and Global Accounting Standards.
	CO 2: To gain ability to solve problems relating to accounts of Nonprofit organizations and special types of situations
420654	Advanced Cost & Management Accounting Paper II
	CO 1: To provide knowledge on cost accounting practices at advanced level.
	CO 2.: To equip the students with the knowledge of special areas of Accounting and Auditing
420353	Leadership Skills and Change Management –
	CO 1: Define and compare the differences between leadership and management.
	CO 2: Assess, analyse and discuss one’s own leadership abilities, attributes and foundation for leading.
	CO 3: Examine the leader’s role as it relates to bringing about constructive change to an organization.
	CO 4: Evaluate the learner’s own leadership style.
	CO 5: Evaluate and discuss change management efforts related to one’s own organization and/ or team
420354	Key People Management, Retention and Human Resource Audit
	CO 1: Learning to identify key people and developing them for organizational growth.
	CO 2: Understanding the importance of retention and developing the ability of creating retention strategies for stability and growth.
	CO 3: To study the concept and methodology of HR audit in the organization and determine the excellence
M.A PSYCHOLOGY	
110501	Cognitive Processes
	CO1 : Developing an understanding of cognitive psychology applications in the area of technology.
	CO 2: Developing an appreciation of how cognitive psychology principles can be applied to real life settings and to understand the nature and scope of Applied Cognitive Psychology.
	CO 3: Applying the knowledge of cognitive processes to one’s own personal life and to real life issues.
	CO 4: Appreciating the role of individual differences, and sociocultural factors in cognitive functioning.
110502	Research Methodology
	CO 1: Understand research methodology as a process & Able to develop a research plan and write the research report.
	CO 2: Understanding the various research paradigms such as positivist, interpretivist/Constructivist, Critical and Feminist
	CO 3: Developing knowledge of the ethical and legal issues involved in the research
	CO 4: Developing a basic knowledge of how to carry out quantitative research with an emphasis on survey research, correlational and experimental
	CO 5: Knowing how to carry out qualitative research including data collection, qualitative data analysis and a basic knowledge of the various approaches to qualitative inquiry
	CO 6: Awareness of the basic features of various types of research undertaken with human beings and understanding of the use of basic terminology used in human research.
110503	Psychological Testing
	CO 1: Understand the Basics of psychological testing & its various types
	CO 2: Gain competence in Test Construction in scientific manner and taking appropriate decisions based on test scores
	CO 3: Understand the major contexts of test use in Educational testing, occupational testing, and in clinical and counseling Psychology.
	CO 4: Acquiring knowledge to effectively evaluate the appropriateness and quality of psychological tests and their psychometric strengths and weaknesses
	CO 5 : Developing knowledge of the ethical and legal issues involved in the assessment process
110701	Theories of Personality
	CO 1: Appreciating conceptualizations of personality
	CO 2: Developing a critical understanding of personality through various Western approaches including type and trait, psychoanalytic, socio-cognitive and humanistic.
	CO 3: Understanding biological and environmental influences on personality development.
	CO 4: . Fostering an applied perspective by engaging students in a discussion about the everyday applications of various personality theories.
Psychological Testing Practical	

110504	CO 1: Aware of the need for Psychological assessment.
	CO 2: Understand administration, scoring and interpretation of psychological test
	CO3: Develop skills for using different psychological tests.
	and perspectives.
210501	Neurocognition
	CO 1: Appreciating the biological bases of human behaviour including neural, biochemical, and genetic mechanisms
	CO 2: Gain basic understanding of fundamental relationship between brain and behavior.
	CO 3: Understanding biological mechanisms involved in psychological processes such as attention, memory, and executive functioning.
210502	Application of Statistics in Psychology
	CO 1: Understanding the nature of measurement and its various levels
	CO 2: Developing skills to use quantitative techniques such as measures of central tendency, variability, and correlation.
	CO 3: Knowing how to use the normal probability curve as a model in scientific theory
	CO 4: Grasping concepts related to hypothesis testing and developing related computational skills
	CO 5: Learning techniques and use of descriptive and inferential statistics (parametric as well as non-parametric).
210701	Positive Psychology
	CO 1: gain better understanding of the emerging field of positive psychology
	CO 2: Appreciating and understanding the meaning and conceptual approaches to happiness and well-being.
	CO 3: Being able to locate the diversity in the experiences of happiness with individual's life span and across different domains.
	CO 4: Learning the various pathways through which positive emotions and positive traits contribute to happiness and well-being
	CO 5: Being able to identify the key virtues and character strengths which facilitate happiness and well-being.
210503	Applied Social Psychology
	CO 1: Gain insight to the recent developments in Applied Social Psychology
	CO 2: Understanding the key issues and theoretical concepts related to health, criminal justice, culture diversity, media, industry and environment
	CO 3: Gain Knowledge in engaging activities to promote positive change
210504	Psychological Practical-Experiments
	CO 1: Gain familiarity in different areas of experimentation in field of Cognitive Processes.
	CO 2: Gain hands on experience for developing experimental designs
	CO 3: Gain experience in report writing while comparing and contrasting old and new studies
310531	Psychology of Adjustment
	CO 1: Understand mental health as a concept & enhancing positive mental health and wellbeing
	CO 2: Gain familiarity with various maladaptive behaviors across life span
	CO 3: Gain insight in understanding the cause and effects of specific problems
	CO 4: Understand the role of developing community outreach program to sensitize others
310532	Assessment in Counseling Psychology
	CO 1: Gain understanding to the role of assessment in counseling
	CO 2: Gain understanding to basic assessment & behavioral assessment
	CO 3: Develop understanding of assessment for various populations- infant, child and adolescent, adult and geriatric, differently abled groups
	CO 4: Gain familiarity in areas of intelligence, personality, creativity, interest, aptitude and learning disability assessment
310533	Intervention Strategies
	CO 1: Gain understanding in the concept of counseling, its historical background & its application
	Co 2: Acquiring basic counselling skills of problem identification, and relationship building
	CO 3: Developing qualities of an effective counsellor including increasing self-awareness, reflexivity, self-monitoring and objectivity.

310534	Orientation to Practicum in Counselling Psychology
	CO 1: Ability to integrate theory into practice through the process of action, & reflection
	CO 2: Understand the role of professional counsellor pertaining to various issues and various settings.
	CO 3: Understand the process of diagnosis and its importance in counselling
	CO 4: Understand the counselling process in the field.
	CO 5: Understand and develop counselling interventions
310511	Psychopathology I: Adult & Geriatric
	CO 1: Gain understanding to the major psychological disorders pertaining to adult & geriatric
	CO 2: Understand current trends & changing issues in adult & geriatric psychopathology
	CO 3: Critically review their signs and symptoms and suggest intervention techniques based on DSM

310512	Psychodiagnostic I- Cognitive Functions
	CO 1: Acquaint with the theoretical constructs in psychodiagnostics pertaining to cognitive functions
	CO 2: Gain familiarity with various testing methods for cognitive functions in Clinical psychology
	CO 3: Developing knowledge about the application of tests in a variety of settings.
310513	Psychodiagnostic I- Assessment of Personality & Emotions
	CO 1: Acquaint with the theoretical constructs in psychodiagnostics pertaining to personality & emotions
	CO 2: Gain familiarity with various testing methods for personality in Clinical psychology
	CO 3: Developing knowledge about the application of tests in a variety of settings.
310514	Orientation to Practicum in Clinical Psychology
	CO 1: Demonstrate integration and application of theory, and methods of practice in clinical psychology.
	CO 2: Gain experiential knowledge in the field of clinical psychology.
	CO 3: Understand the relevance of case-history & MSE in diagnosis CO 4: Gain insight into diagnosis of the problem, analysing and report writing
310515/310535	Research Proposal
	CO 1: Develop an understanding in carrying out scientific inquiry
	CO 2: Awareness & Explore of various types of research in the field
	CO 3: Able to propose original research idea, from initial conception to probable testing of hypothesis.
410531	Orientation to Special Areas in Counseling
	CO 1: Understand the application of psychology in modern everyday life
	CO 2: Gain insight into the various issues experienced by special population, including children, women and the LGBT community
	CO 3: Acquaint to the issues related to workplace & career development CO 4: Understand the concept of trauma and bereavement
410532	Counseling Approaches
	CO 1: Gaining an overview of basic approaches, theories and techniques in counselling
	CO 2: Learning about the newer forms of therapy & Understand modern trends and the application of counseling techniques
	CO 3: Understanding of process, techniques and application of various therapeutic approaches for different population
410511	Psychopathology II: Child & Adolescent
	CO 1: Gain understanding to the major psychological disorders pertaining to Child & Adolescent
	CO 2: Understand current trends & changing issues in Child & Adolescent Psychopathology
	CO 3: Critically review their signs and symptoms and suggest intervention techniques based on DSM
410115	Psychotherapy & Counseling
	CO 1: Developing a basic understanding of counselling as a profession
	CO 2: Gaining an overview of basic approaches, theories and techniques in counselling
	CO 3: Developing awareness about the contemporary issues and challenges in counselling
	CO 4: Learning about the newer forms of therapy & Understand modern trends and the application of counseling techniques
CO 3: Understanding of process, techniques and application of various therapeutic approaches for different population	
410515/410534	Research project / Dissertation
	CO 1: Able to conduct original research, from initial conception of the research idea to the presentation of research findings, and the preparing of research report
410999	Field based practicum – Internship (Clinical & Counseling Specialization)
	CO 1: Gain Familiarity with counseling and clinical setting
	CO 2: Carryout appropriate test for diagnosis and problem formulation
	CO 3: Execute the treatment plan through use of various therapeutic modalities
P.G. ECCE	
107001	Child Development:
	CO 1: Students will be able to acquire theoretical skills to understand the child development from prenatal to middle-childhood.
	CO 2: Students will be able to identify any deviations or delays in the developmental milestones of the growing early years of children.
	CO 3: Students will be able to understand the importance of creating a healthy environment for development in all the domains of development.
107002	Curriculum Planning: (I)
	CO 1: Students will acquire skills and attitudes in handling young children and creating fun-based activities to stimulate learning in young children.
	CO 2: Students will acquire skills to create age-appropriate curriculum and teaching aids.
	CO 3: Students will be able to deliver lessons plans and conduct activities with young children.
107003	Preschool Organization and Management:
	CO 1: Students will acquire skills to manage and plan effective records of class
	CO 2: Students will acquire skills to interact with parents and update the progress of their children
	CO 3: Students will be able to apply classroom management skills

	CO 4: Students will be able to maintain all the necessary records
107004	Professional Development
	CO 1: The students will acquire the employability skills
	CO 2: Students will be able to comply with the working culture of an organization
	CO 3: Students will be able to maintain the decorum of the organization
107005	Preschool Participation
	CO 1: Students will be able to acquire understanding on various Child development
	CO 2: Students will be able develop skills to work with young learners
	CO 3: Students will acquire practical experience of recording observations
107006	Workshop / Seminar
	CO 1: Students will develop understanding and application of tools to minimize the issues
	CO 2: Students will be able to spread the awareness among the parents and communities
207002	ICT in ECE
	CO 1: Students will acquire digital skillsets to design the curriculum
	CO 2: Students will be able to use various digital platforms for creating audio visual teaching aids
	CO 3: Students will be able to acquire skills to maintain and record on digital platforms
207001	Curriculum Planning: (II)
	CO 1: Students will acquire skills and attitudes in handling young children and creating fun-based activities to stimulate learning in young children.
	CO 2: Students will acquire skills to create age-appropriate curriculum and teaching aids.
	CO 3: Students will be able to deliver lessons plans and conduct activities with young children.
207003	Health, Nutrition and Safety
	CO 1: Students will gain understanding of importance of Health, Nutrition and safety measures
	CO 2: Students will be able to develop understanding of creative safe space at a pre-school
	CO 3: Students will be able to plan a balanced meal plans for children and guide parents
	CO 4: Students will be acquiring the skillsets to document and maintain records to access the children's health
207004	Children with Special Needs
	CO 1: Students will gain understanding of importance of Health, Nutrition and safety measures
	CO 2: Students will be able to develop understanding of creative safe space at a pre-school
	CO 3: Students will be able to plan a balanced meal plans for children and guide parents
	CO 4: Students will be acquiring the skillsets to document and maintain records to access the children's health
207005	Preschool Participation
	CO 1: Students will be able to acquire understanding on various Child development
	CO 2: Students will be able develop skills to work with young learners
	CO 3: Students will acquire practical experience of recording observations
